Kaipātiki Summer Fun Series

The Kaipātiki Local Board is supporting the Kaipātiki Community Facilities Trust to run a series of free, sustainable living workshops during the coming months. These workshops will teach you how to:

- Save money by catching and using rainwater
- Create a garden to grow your own vegetables
- Recycle food scraps to help your garden grow and reduce waste
- Cut power bills and make your home warm, dry and healthy

Find out how to install barrels to catch rain water for the garden and save money on water bills. Learn how to use food scraps to help your garden grow. Learn how to cut power costs while keeping your home warm, dry and comfortable this winter.

The Kaipātiki Local Board is funding free workshops, for locals to learn how to live more sustainably with low cost, practical options for saving household water and energy and reducing waste.

If you are unable to attend a free sustainable living workshop at your home and can get up to 10 people together, then we will apply the fee of 50 cents and take about one of these fees, as the host you will receive a free gift. For example if you host a water saving workshop then you will receive a rain barrel installed at your home at no charge.

To find out more or to book a workshop (there is no cost to you) please contact Kay Jones at the Long weather sheds on 09 478 8172 or k.jones@kaipatiki.govt.nz

Kaipātiki Environmental Workshops all that have been organised have been well attended by local residents. Residents appreciate this opportunity.
