Maungakiekie-Tāmaki Local Board– Advocacy items

The following is the most recently approved list of advocacy for this local board, adopted in November 2015 as part of the annual plan process. Auckland Council departments and relevant CCO's have provided a response to each initiative, setting out its current status.

Initiative	Department/CCO response
<p>Confirms existing advocacy initiatives around investment in the greenways network to connect people to local destinations and improvements to the cluster of community buildings in Ruapotaka Reserve (Glen Innes) to enable the buildings to be better able to meet community needs</p>	<p>Local Boards will be consulted on an Auckland Greenways Plan prior to the end of the financial year. This plan will include criteria to inform the allocation of available budget to specific greenways projects on a rolling three year investment programme.</p>
<p>Review current levels of service of community centres and halls to ensure that they are regionally fair and consistent These listed as new advocacy for 2016/2017</p>	<p>ACE was asked to consider this point of advocacy last year and provided a detailed memo to the Finance and Performance Committee and local board members in December 2015.</p> <p>Since then, it has been confirmed that this work will be progressed and discussions between Community Places and Local Board Services are currently taking place on the scope and project team.</p>
<p>Use council's shareholding and stakeholder relationships with the Tāmaki Redevelopment Company to ensure that: 1) there are a range of quality housing options available to enable all members of existing communities to remain in the area 2) the parks, open spaces and community facilities are improved in order to better serve community needs These listed as new advocacy for 2016/2017</p>	<p>Panuku Development Auckland is leading the engagement between the Tamaki Regeneration Company (TRC) and Council on all development matters. This includes assistance with the extension of the two existing Special Housing Areas, master planning, physical and social infrastructure provision and development contributions. Panuku is also leading work with TRC and the Local Board in the masterplanning for the Ruapotaka and Maybury Reserves.</p> <p>To date the Tamaki transformation has delivered:</p> <ul style="list-style-type: none"> • Fenchurch - the first neighbourhood regeneration project in the middle of Glen Innes to deliver 32 quality homes on once empty sections (lead by Housing NZ) • A new early childhood education centre for up to 60 children (built by the Ministry of Education and TRC) • The renovation of an old building converted into a community hub managed by residents (TRC partnered with the Department of Conservation)
