The steps of the Landing Road Walkway.

Walk this way

Landing Road Walkway, a challenging 200m track linking Tangiwai Reserve (off Huia Road) and Grendon Road (off South Titirangi Road) is nearing completion.

The walkway comprises steep flights of steps, boardwalks, a viewing platform and commanding views.

The Waitākere Ranges area is renowned for its walking tracks, and Waitākere Ranges Local Board supports initiatives to extend the network, which provides important recreational

opportunities and creates links between communities.

The next planned addition of the network is Little Muddy Creek Walkway, which will run from the end of Rimutaka Place through to Huia Road.

The first stage of this walkway will include a gravel path, a bridge crossing over a stream, and a boardwalk connecting to Huia Road.

A second stage is planned to extend the walkway to the Landing Road track.
