

Kaipātiki Performance Measure Results

1. Introduction

- The year-end outlook is for 55 per cent of targets to be achieved.
- The year-end outlook is below target for percentage of residents who visited a local park or reserve in the last 12 months. Promoting our parks and facilities is one strategy being used to help increase the proportion of the population who visit local parks.
- Percentage of visitors satisfied with the library environment is unlikely to be achieved, but the outlook may improve after furniture and fittings renewals at Birkenhead Library are completed. The town centre safety targets are also unlikely to be achieved, but the redevelopment of Northcote Town Centre is expected to improve the perception of safety in the area over time. The year-end outlook for facility utilisation is positive.

How we measure performance

The following symbols are used to indicate our progress against targets set in the Long-term Plan 2015-2015 (LTP).

				
Achieved Target has been met or exceeded	Substantially achieved Target has not been met by a slim margin	Not achieved but progress made Target has not been met but the result is an improvement from the prior year	Not achieved Target not achieved and prior-year result has not been improved	No result The measure was not surveyed or no result was available

Other considerations

Target setting

Performance measure targets are different for each local board. It is important to remember this when comparing results presented in the summary performance results table. Targets were set by considering service expectations as well as previous performance results.

As new performance measures were introduced in the Long-term Plan 2015-2025, some of the measures had no previous performance results. This made it challenging to set some of the targets. We will continue to refine future performance targets in the next long-term plan (for 2018-2028).

Results timeframe

We collect results at various frequencies, based on the nature of each performance measure. Customer satisfaction is currently measured by annual surveys, so we cannot provide a quarterly result.

The six performance measures in this report that have Q1 results are based on the actual results for July and August, and an estimate of September results. This was done to ensure timely information could be provided.

Year-end outlook

Each performance measure has been given a year-end outlook. This is our best estimate of what the result will be at year end, based on prior-year results and work that is underway.

2. Summary of FY16 performance results for each local board

Local board area	Local community services (Community)				
	Number of library visits	Satisfaction with library service	Perception of town centre safety – day	Perception of town centre safety – night	Venue utilisation – peak hours
Albert-Eden	✓	✓	✗	✗	✗
Devonport-Takapuna	✓	✓	✓	✓	✓
Franklin	✓	✗	✓	✗	✓
Great Barrier	✓	✓	✓	✓	N/A

3. Detailed Q1 performance measure results

Local Parks, Sport and Recreation

- Percentage of residents who visited a local park or reserve in the last 12 months

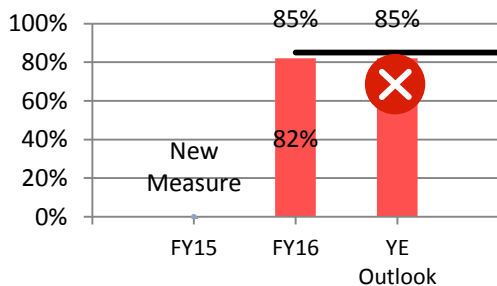

A recent change to the survey question provided a way for participants to easily identify which parks belong to their specific local board area. This may help to explain the decline in performance, as many residents live near the fringes of their local board area and use parks in other areas. In FY17, promoting our parks and facilities is one strategy being used to help increase the proportion of the population who visit local parks.

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
2. Percentage of residents satisfied with the provision (quality, location and distribution) of local parks and reserves	✓	75%	Measured Annually		76%
3. Percentage of residents satisfied with the provision (quality, location and distribution) of sports fields	✓	75%	Measured Annually		71%
4. Customers Net Promoter Score for Pool and Leisure Centres	✓	+ 15	Measured Annually		+ 23

Local Community Services

- Percentage of visitors satisfied with the library environment

In FY16, feedback indicated issues including lack of seating and parking, and the need for better signage and separate spaces for computer users. Furniture and fittings renewals at Birkenhead Library are underway.

6. Percentage of funding/grant applicants satisfied with information, assistance and advice provided

FY16 was the first year of implementing the new community funding policy, which also saw the establishment of a dedicated funding hub. Funding hub members also worked closely with subject matter experts to reach relevant communities. A series of community workshops is planned for FY17 to build community groups' capacity to submit quality applications and to provide further advice to applicants.

7. Percentage of Aucklanders that feel connected to their neighbourhood and local community

People may not be feeling connected for a variety of reasons, including being new to the area, being too busy or preferring not to be connected. To a lesser extent there may also be lack of awareness about how to access activities that could contribute to feeling connected, and language and cultural barriers. A number of our activities such as arts programmes, community facility programmes and events seek to connect Aucklanders to their local communities. The empowered communities approach being implemented across these activities in FY17 aims to increase this.

8. Percentage of attendees satisfied with council delivered and funded local events

This measure aims to survey at least two events annually for each local board area to assess attendees' views on a sample of events provided or funded by the council. Each year different events are selected to be surveyed, and as this decision has not been made yet, it makes it difficult to establish a forecast. However, if performance remains consistent with the previous year then the target will not be met. Feedback received from the previous year will be used to improve this result. The outlook has been based on last year's result. This year's result will depend on what events are delivered, what events are selected for survey, the weather conditions, turn out and facilitation.

9. Percentage of Aucklanders that feel their local town centre is safe (day)

This measure is influenced by a number of elements such as crime rates, the built environment, and socioeconomic and other similar factors. The council undertakes projects and initiatives at a community and social development level to improve perceptions of safety. The redevelopment of Northcote Town Centre is expected to improve the perception of safety in the area over time.

10. Percentage of Aucklanders that feel their local town centre is safe (night)

This measure is influenced by a number of elements such as crime rates, the built environment, and socioeconomic and other similar factors. The council undertakes projects and initiatives at a community and social development level to improve perceptions of safety. The redevelopment of Northcote Town Centre is expected to improve the perception of safety in the area over time.

11. Number of visitors to community centres and venues for hire

The FY17 Q1 result is based on two months of actual data and one month of estimates. During FY17 Q1, visitation has decreased compared to previous year, however visitor numbers for Glenfield Community Centre Statistics were not received in time for reporting.

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
12. Use of libraries as digital community hubs: Number of internet sessions per capita (PC & WiFi)	✓	2.0	1.2	0.5	3.7
13. Number of visits to library facilities per capita	✓	7.5	2.2	1.9	7.5
14. Percentage of customers satisfied with the quality of library service delivery	✓	88%	Measured Annually		91%
15. Percentage of participants satisfied with council delivered local arts activities	✓	85%	Measured Annually		No result
16. Facility Utilisation - utilisation at peak times and off-peak times for council managed community centres and venues for hire (peak)	✓	11%	20%	11%	15%

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
17. Facility Utilisation - utilisation at peak times and off-peak times for council managed community centres and venues for hire (off peak)		11%	10%	3%	6%
18. Percentage of community facilities bookings used for health and wellbeing related activity		20%	20%	20%	29%

Local Planning and Development

19. Percentage of Business Associations meeting their Business Improvement District (BID) Partnership Programme obligations

Birkenhead BID currently meets all the requirements of the BID Policy. Northcote BID currently only meets two of the five obligations.

Local Environmental Management

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
20. Proportion of local programmes that deliver intended environmental actions and/or outcomes		85%	Measured Annually		100%
