~~CLEAR BARRIER IS.~~

1st December 2016

To Great Barrier Island
Community Board
The Chairperson

Dear Izzy and Members,

There has been a very positive follow up since Paul Downie & I, presented the Slip situation, on the Reserve Land, at the Sea Port of my Property.

A plastic Tape (ie 3) with stakes has been strung across the Reserve land as a safety factor. The 2 council workers (Female) worked very hard.

I understand it is mid/next year before Flax planting is ideal, so I hope this can also occur to assist in holding the continually falling away Earth.

Yours Faithfully
Jean Wright
