Umbrella organisation	TBA	Legal status	Not for profit community group

Project details

Project title	A means by which active, retired, people, can regularly meet for fellowship, fun, mental stimulation.		
Dates	01/02/2017- 30/11/2017		
Location	The Nixon Hall, Sales St, Howick		
Summary	<p>There are large numbers of retired people in Howick seeking a 'meaningful' outlet for enhancing their existence within the community.</p> <p>Many are seeking active participation within an organisation of their peers who are still very 'active' with considerable 'life' experience, great mental abilities, seeking further 'stimulation' within their life.</p>		
Cost of participation	There can be no upper limit to the cost of this activity. We would need to ensure the cost effectiveness in the usage of any grant that may be received.		
Requesting grant for	<p>The club is the LARGEST club within the Howick district, having maintained around 150 active members for many years. Club meetings regularly have over 100 members in attendance, and have sustained such high numbers through its members enjoying and participating in its activities. Many of its members rely solely upon the 'pension', and cannot participate in the regular outings. As a basic principle the Club keeps ALL costs to minimum, to enhance membership, and through raffles & the like subsidise outings & the like. The opportunity to receive a GRANT will enable retirees whose financial resources are limited to more fully participate.</p>		
Active participants	We would like to DOUBLE the number of participants to 80 persons.	Audience size	From a membership of around 150 persons we could realistically anticipate up to 100 participants taking part.
Promotion of activity	No		
Local board recognition	<p>It will be highlighted within the club's monthly magazine.</p> <p>We will be happy to acknowledge local boards Grant in any way deemed appropriate by the Board itself.</p>		
Alignment with local board priorities	<ul style="list-style-type: none"> Share and celebrate our culture through events <p>Probus is an organisation specific to enhance the life of active retirees. To provide regular meetings promoting fellowship along with mental stimulation through quality guest speakers, through the establishment of regular outings and special interest groups within the club, such as 'Writing', 'Book Appreciation', 'Walking', 'Music', 'Majong', "Bowls', plus many more.</p>

Dates	03/01/2017- 01/05/2017		
Location	Manurewa and Howick area		
Summary	<p>There is so much that we need to do in our community to help people with asthma and also to show people how to prevent asthma attacks. Our nurses are out every day visiting homes & schools talking to children and their families to assist them with their medication and techniques to help when an attack occurs. Children are particularly disadvantage if their parents experience barriers to access as they rely totally on their parent to access services on their behalf. Maori and Pacific children and those from low-income families, including immigrants and refugees are the most disadvantages in NZ.</p>

Their asthma must be under control in order for them to play sports properly. When their asthma is well controlled, they should be active and play sports just like anyone else. Our education sessions cover all facets of asthma from triggers to inhaler use including instructions on equipment care, minimising trigger exposure and ultimately empowering people with asthma to take control and manage their asthma, this will assist those with asthma and their families to take the necessary steps to home management and thus reduce hospitalisations, time off of work, school</p>

Maori outcomes	Yes, A variety of materials have been produced not only to teach children with asthma and their parents about the disease, but also to educate school personnel about the important role they can play in children's ability to manage their disease at school. Our Asthma Nurse educators ensure the recognition of the symptoms of asthma by patients, families, and the community. They ensure effective control of asthma by encouraging a partnership among patients, physicians, and other health professionals through modern treatment and education programs. Most asthma deaths are largely preventable, frequently being related to inadequate long-term medical care or delays in obtaining medical help during the last attack. We work to improve people with asthma through research, prevention, education and advocacy.
Accessible to disabled	Yes, Children are particularly disadvantaged if their parents experience barriers to access as they rely totally on their parent to access services on their behalf. Maori, Pacific children and those from low-income families are the most disadvantages in NZ. The asthma hospital discharge rate for Maori and Pacific population is greater than the rest of the population. Associated with the increased prevalence of poverty among Maori, Pacific families and had worse asthma status. Our goal is to prevent asthma attacks and improve asthma care in Howick area with a focus on low- and middle-income communities.

Alignment with local board priorities	<ul style="list-style-type: none"> • People are supported to lead and develop projects and create opportunities for young people. <p>Our programme MINDSETS is an activity based mindfulness and resilience programme for adolescents providing practical tools which help young people to live a full and happy life while dealing with the pressures life can bring. The programme has been co-designed with young people to help them navigate challenges, day-to-day pressures and bigger challenges faced by young people in new ways that help to reduce distress. This programme is very closely aligned to the main priority of creating opportunities for young people as it gives them a toolbox of skills to help them to thrive in their ever-changing environment.</p>

Project details

Project title	Te Harinui - a new work for Christmas in Howick		
Dates	02/11/2016- 18/12/2016		
Location	Stockade Hill, Howick		
Summary	Howick Brass will once again present their annual free-to-the-public Carols by Candlelight event on Stockade Hill. This year we are wanting to capture the essence of 'A New Zealand Christmas' and have programmed performances of New Zealand works, along with narrations of New Zealand literature to truly capture the idea of a New Zealand Christmas. We would like to commission NZ composer and arranger Yvette Audain to arrange a version of the New Zealand Christmas Carol, 'Te Harinui' for Howick Brass to be performed at this event and as such apply for funding to allow her to begin creating a piece for Brass Band, based on the NZ Christmas Carol for presentation at the Carols by Candlelight event.		
Cost of participation	Free, but gold coin donation appreciated		
Requesting grant for	Commissioning of composer Yvette Audain to arrange a version of 'Te Harinui' for Howick Brass to perform at their free public event - 'Carols by Candlelight'		
Active participants	40	Audience size	1500+
Promotion of activity	Yes, Carols by Candlelight marketed to the best of our ability via social media, local newspaper articles and advertisements, Howick Village Radio, billboards erected on community events sign provisioning, advertising in 'Our Auckland' and old-fashioned posters and flyers . At all times we include our sponsors/supporters logos. This includes including logos etc. on general band collateral such as sandwich board signs, posters, flyers, programmes, songbooks etc.		
Local board recognition	All marketing and general band collateral (signage, programmes, flyers, newspaper articles etc. etc. etc.) will feature the Howick Local Board logo. The Carols by Candlelight event programmes, advertising, flyers and other collateral will also acknowledge the support of the Howick Local Board. During the event the HLB will be publically acknowledged - this includes public acknowledgement to major supporters, funders and sponsors which of course includes the Howick Local Board - by our compere and narrator for the event, Mr Bill Woodward.		
Alignment with local board priorities	<ul style="list-style-type: none"> • Grow our arts, culture and music <p>Howick Brass intends to engage directly with community artists and musicians in order to provide an artistic and cultural outlet within the community, for New Zealand music and performances for the community that feature 'our music' - music by local artists, performed by community musicians operating in the heart of Howick. The band's vision of consistently delivering high-quality performances to the people of Howick at zero cost to them remains at the forefront of our operating strategy, aiming to provide diverse performances in order to continue to actively foster arts and culture within our community.</p>

Maori outcomes	Yes, It is our intention to take inspiration from the origins of the carol 'Te Harinui' and explore a connection between traditional Maori music, the carol itself and a modern day interpretation by what is certainly seen as an traditional ensemble: the British-style brass band. The composer will explore various elements of Maori heritage, working in connections with Stockade Hill (the performance venue) and the role it served during the New Zealand Wars - particularly with regard to families that took shelter at the stockade during festive times. The performance of the new piece will work to highlight aspects of local Maori heritage combined with elements of traditional Maori practise - such as the importance of music as a means of storytelling.
Accessible to disabled	Yes, Open-air concert on Stockade Hill
