

# Maungakiekie-Tāmaki Performance Measure Results

## 1. Introduction

- The year-end outlook is for 65 per cent of targets to be achieved or substantially achieved.
- The year-end outlook is below target for percentage of residents satisfied with the provision of local parks and reserves, and percentage of residents who visited a local park or reserve in the last 12 months. Play space renewals, and promoting our parks and facilities may help improve this.
- Percentage of visitors satisfied with the library environment is on track to be substantially achieved. The year-end outlook is positive for town centre safety targets. Peak and off-peak facility utilisation is below target, but the digital booking system, which began recording bookings in FY17 Q1, is expected to improve customer experience and utilisation.

### How we measure performance

The following symbols are used to indicate our progress against targets set in the Long-term Plan 2015-2015 (LTP).

<b>Achieved</b> Target has been met or exceeded	<b>Substantially achieved</b> Target has not been met by a slim margin	<b>Not achieved but progress made</b> Target has not been met but the result is an improvement from the prior year	<b>Not achieved</b> Target not achieved and prior-year result has not been improved	<b>No result</b> The measure was not surveyed or no result was available

## Other considerations

### Target setting

Performance measure targets are different for each local board. It is important to remember this when comparing results presented in the summary performance results table. Targets were set by considering service expectations as well as previous performance results.

As new performance measures were introduced in the Long-term Plan 2015-2025, some of the measures had no previous performance results. This made it challenging to set some of the targets. We will continue to refine future performance targets in the next long-term plan (for 2018-2028).

### Results timeframe

We collect results at various frequencies, based on the nature of each performance measure. Customer satisfaction is currently measured by annual surveys, so we cannot provide a quarterly result.

The six performance measures in this report that have Q1 results are based on the actual results for July and August, and an estimate of September results. This was done to ensure timely information could be provided.

### Year-end outlook

Each performance measure has been given a year-end outlook. This is our best estimate of what the result will be at year end, based on prior-year results and work that is underway.

## 2. Summary of FY16 performance results for each local board

Local board area	Local community services ( Community)				
	Number of library visits	Satisfaction with library service	Perception of town centre safety – day	Perception of town centre safety – night	Venue utilisation – peak hours
Albert-Eden	✓	✓	✗	✗	✗
Devonport-Takapuna	✓	✓	✓	✓	✓
Franklin	✓	✗	✓	✗	✓

### 3. Detailed Q1 performance measure results

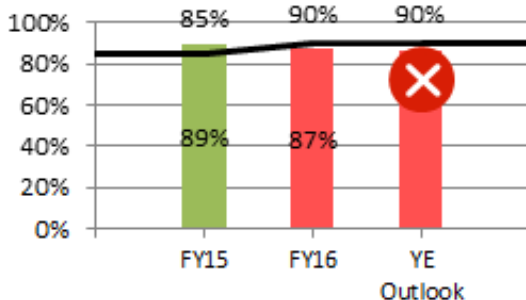

#### Local Parks, Sport and Recreation

1. Percentage of residents satisfied with the provision (quality, location and distribution) of local parks and reserves

Projects underway to help improve this area include play space renewals at Jellicoe Park, One Tree Hill, Onehunga Bay, Talbot Reserve and Mt Wellington War Memorial Reserve, and Tāmaki Estuary coastal greenway and walkway development.

2. Percentage of residents who visited a local park or reserve in the last 12 months

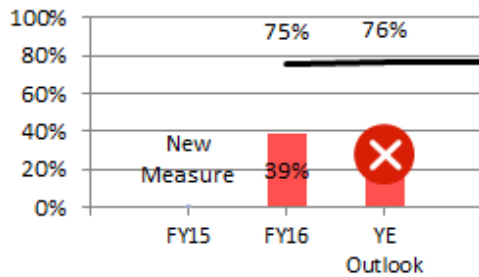

A recent change to the survey question provided a way for participants to easily identify which parks belong to their specific local board area. This may help to explain the decline in performance, as many residents live near the fringes of their local board area and use parks in other areas. In FY17, promoting our parks and facilities is one strategy being used to help increase the proportion of the population who visit local parks.

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
3. Percentage of residents satisfied with the provision (quality, location and distribution) of sports fields	✓	75%	Measured Annually		70%
4. Customers Net Promoter Score for Pool and Leisure Centres	✓	+ 15	Measured Annually		+ 27

## Local Community Services

5. Percentage of funding/grant applicants satisfied with information, assistance and advice provided

FY16 was the first year of implementing the new community funding policy, which also saw the establishment of a dedicated funding hub. Funding hub members also worked closely with subject matter experts to reach relevant communities. A series of community workshops is planned for FY17 to build community groups' capacity to submit quality applications and to provide further advice to applicants.

6. Percentage of Aucklanders that feel connected to their neighbourhood and local community

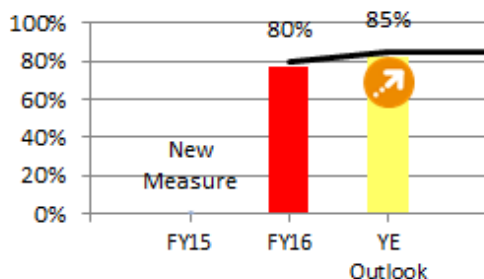

People may not be feeling connected for a variety of reasons, including being new to the area, being too busy or preferring not to be connected. To a lesser extent there may also be lack of awareness about how to access activities that could contribute to feeling connected, and language and cultural barriers. A number of our activities such as arts programmes, community facility programmes and events seek to connect Aucklanders to their local communities. The empowered communities approach being implemented across these activities in FY17 aims to increase this.

7. Percentage of attendees satisfied with council delivered and funded local events

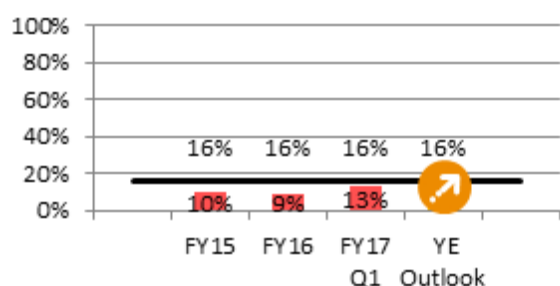

The **Chart Area** aims to survey at least two events annually for each local board area to assess attendees' views on a sample of events provided or funded by the council. Each year different events are selected to be surveyed, and as this decision has not been made yet, it makes it difficult to establish a forecast. However, if performance remains consistent with the previous year then the target will not be met. Feedback received from the previous year will be used to improve this result. The outlook has been based on last year's result. This year's result will depend on what events are delivered, what events are selected for survey, the weather conditions, turn out and facilitation.

8. Percentage of participants satisfied with council delivered local arts activities

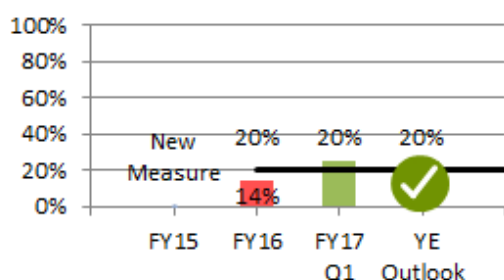

This result will inform planning for the FY17 arts programme, which will endeavour to be more audience-centric.

9. Facility Utilisation - utilisation at peak times and off-peak times for council managed community centres and venues for hire (off peak)

The FY17 Q1 result is based on two months of actual data and one month of estimates. During quarter one, off-peak utilisation has increased on the same period last year. The digital booking system, which began recording bookings in FY17 Q1, is expected to improve customer experience and utilisation, along with a marketing campaign in Q2.

10. Percentage of community facilities bookings used for health and wellbeing related activity

This is a new measure to establish our understanding of community facility activities that contribute to health and wellbeing outcomes. This data will be used by staff when considering facility work programmes for FY17 – staff now have a baseline figure and will aim to improve this by looking at the mix of activities being conducted at community facilities.

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
11. Use of libraries as digital community hubs: Number of internet sessions per capita (PC & WiFi)	✓	2.5	1.7	0.6	5.6
12. Number of visits to library facilities per capita	✓	6.5	2.0	1.6	7.1
13. Percentage of customers satisfied with the quality of library service delivery	✓	85%	Measured Annually		92%
14. Percentage of visitors satisfied with the library environment	✓	85%	Measured Annually		84%
15. Percentage of Aucklanders that feel their local town centre is safe (day)	✓	76%	Measured Annually		77%
16. Percentage of Aucklanders that feel their local town centre is safe (night)	✓	25%	Measured Annually		26%

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
17. Facility Utilisation - utilisation at peak times and off-peak times for council managed community centres and venues for hire (peak)		27%	30%	27%	25%
18. Number of visitors to community centres and venues for hire		335,940	89,189	83,985	358,133

### Local Planning and Development
