

Waterway Protection Fund Scoring Sheet Jan - Feb 2015

Please read the WPF Project Officer Assessment Form for notes on scoring.

Feasibility and representing best practice / 5		Yes = 5 - The project is practical and feasible in the timeframe (completed by 30 May 2016) and with the budget and labour available and represents best practice.	No = 0 - The project is not practical or feasible or does not represent best practice - project is not eligible for consideration. No further consideration required.
Environmental Benefits /24	Stream length protected	1 = fence protects <250m of stream 1 = setback < 5m 1 = setback < 3m	3 = fence protects 500-700m of stream 3 = setback of 10 - 15 m 3 = setback of 5 - 10 m
	Setback Buffer	2 = fence protects 250-500m of stream 2 = setback of 5 - 10 m 2 = setback of 3 - 5 m	4 = fence protects >700m of stream 4 = setback > 15 m 4 = setback > 10 m
	Livestock stocking rate	1 = stocking rate <10SU 0 = no planting planned	4 = stocking rate >18SU for significant periods of the year 2= restoration planting included in project or project protects existing exotic or native vegetation
Community Benefits /12	Vegetation and planting	0 = weed control required but not planned 1 = no erosion and / or pugging evidence	4 = complete weed control planned or no weed control required 4 = significant erosion & / or pugging evidence
	Weed control	1 = minimal weed control planned 2 = minor erosion & / or pugging evidence	3 = staged removal of weed trees required & planned 3 = moderate erosion & / or pugging evidence
	Erosion Evidence	2 = working with 1 or 2 others on the same waterway/ subcatchment or 1-2 volunteers 2 = some role modelling or sharing of the project with others.	4 = working with 3 or 4 others on the same waterway / subcatchment or 3-4 volunteers 4 = good role modelling or sharing of the project with others.
Location within the catchment / subcatchment / 5	Working with neighbours / volunteers / others	0 = not working with anyone else 0 = no role modelling or sharing of the project with others.	6 = working with 5 or more others on the same waterway / subcatchment or 5 or more volunteers 6 = excellent role modelling or sharing of the project with others.
	Role model for the community (including inspiring, influencing, involving, informing and educating others)	0 = low in the catchment / subcatchment 1 = the applicant will contribute 50% of project costs	5 = top of the catchment / subcatchment 4 = the applicant will contribute >75% of project costs
Applicant Contribution /4		2 = the applicant will contribute 50-60% of project costs	3 = the applicant will contribute 60-75% of project costs
TOTAL SCORE / 50
