###### Activities

1. To identify community concerns regarding aircraft noise.
2. To co-operatively formulate and propose rules and procedures to minimise the impact of aircraft noise on the community and to consider how AIAL should respond to community concerns regarding aircraft noise.
3. To assist and advise AIAL and Council in the dissemination of relevant information to the community.
4. To regularly review the current procedure for handling noise complaints, modify that procedure where necessary and make it publicly available as soon as practicable.
5. To assist AIAL in the review of and, where necessary, to recommend modifications to, the Noise Management Plan which (in summary) addresses:
  - (i) procedures for handling noise complaints;
  - (ii) noise abatement procedures; and
  - (iii) timely provision of aircraft noise and flight path monitoring information.

AIAL is to consider any recommended modifications in good faith and provide the Group with a written response to the recommendations, including the reasons for rejecting any recommendations, should such a response be requested by the Group.

6. To monitor noise levels and compliance with the noise abatement procedures and Noise Management Plan.
7. To access appropriate technical expertise and guidance as required, including to, where appropriate, independently peer review noise monitoring and other technical data provided to the Group by AIAL.
