

**Attachment E GIS aerial view showing North Harbour Pony Club's set up at the Green Road property**

The Club has built a number of semi-permanent cross country jumps and has a shipping container and small shed on the grounds. There has been a splash jump formed, and when completed will be filled with water to a depth of approx. 10cm for events and drained at the end of each event. It is regulation from NZPCA that splash/water jumps cannot be over 20cm deep.
