

Rodney Performance Measure Results

1. Introduction

1. The local board agreements include level of service statements and associated performance measures to guide and monitor the delivery of local services. This report provides interim performance results and outlook information for Rodney Local Board's measures, showing how we are tracking for the second quarter of FY17.
2. The year-end outlook is for 28 per cent of measures to not achieve target.
3. The local environmental management, and local planning and development measures are on track, while there are a small number of measures within local parks, sport and recreation, and local community services where performance needs to be lifted into order to achieve target.
4. Measures that are not on track to be achieved include:
 - Percentage of residents satisfied with the provision (quality, location and distribution) of local parks and reserves. Rodney is experiencing large growth in its townships, particularly Riverhead, Kumeū, Huapai and Warkworth. The development and delivery of new reserves does not always match the growth in housing, which could be affecting this result.
 - Number of visits to library facilities per capita. The targets for library visits are based on aspirational growth. However, visitor numbers have declined in the Rodney Local Board area and Auckland as a whole, as more people access library collections and services online.
 - Percentage of funding/grant applicants satisfied with information, assistance and advice provided. This result may be improved by community workshops that are planned for FY17 to build community groups' capacity to submit quality applications and to provide further advice to applicants.

How we measure performance

The following symbols are used to indicate our progress against targets set in the Long-term Plan 2015-2025 (LTP).

				
				
Achieved Target has been met or exceeded	Substantially achieved Target has not been met by a slim margin	Not achieved but progress made Target has not been met but the result is an improvement from the prior year	Not achieved Target not achieved and prior-year result has not been improved	No result The measure was not surveyed or no result was available

Other considerations

Target setting

Targets were set by considering service expectations as well as previous performance results.

As new performance measures were introduced in the Long-term Plan 2015-2025, some of the measures had no previous performance results. This made it challenging to set some of the targets. We will continue to refine future performance targets in the next annual plan (2017/2018) and long-term plan (2018-2028).

Results timeframe

We collect results at various frequencies, based on the nature of each performance measure. Customer satisfaction is currently measured by annual surveys, so we cannot provide a quarterly result.

The performance measures in this report that have Q2 results are based on the actual results for October and November, and an estimate of December results. This was done to ensure timely information could be provided.

Year-end outlook

Each performance measure has been given a year-end outlook. This is our best estimate of what the result will be at year end, based on prior-year results and work that is underway.

2. Detailed Performance Measure Results

Local Parks, Sport and Recreation

1. Percentage of residents satisfied with the provision (quality, location and distribution) of local parks and reserves

Rodney is experiencing large growth in its townships, particularly Riverhead, Kumeū, Huapai and Warkworth. The development and delivery of new reserves does not always match the growth in housing and there could be a timing issue.

2. Percentage of residents who visited a local park or reserve in the last 12 months

A recent change to the survey question provided a way for participants to easily identify which parks belong to their specific local board area. This may help to explain the decline in performance, as many residents live near the fringes of their local board area and use parks in other areas. In FY17, promoting our parks and facilities is one strategy being used to help increase the proportion of the population who visit local parks.

Performance measure	YE Outlook	YE Target	FY17 Q2 Result	FY17 Q2 Target	FY16 Result
3. Percentage of residents satisfied with the provision (quality, location and distribution) of sports fields	✓	75%	Measured Annually		81%

Local Community Services

4. Number of visits to library facilities per capita

The targets for library visits are based on aspirational growth. However, visitor numbers have declined in the Rodney Local Board area and Auckland as a whole, as more people access library collections and services online.

5. Percentage of funding/grant applicants satisfied with information, assistance and advice provided

FY16 was the first year of implementing the new community funding policy, which also saw the establishment of a dedicated funding hub. Funding hub members also worked closely with subject matter experts to reach relevant communities. A series of community workshops is planned for FY17 to build community groups' capacity to submit quality applications and to provide further advice to applicants.

6. Percentage of Aucklanders that feel connected to their neighbourhood and local community

People may not be feeling connected for a variety of reasons, including being new to the area, being too busy or preferring not to be connected. To a lesser extent there may also be lack of awareness about how to access activities that could contribute to feeling connected, and language and cultural barriers. A number of our activities such as arts programmes, community facility programmes and events seek to connect Aucklanders to their local communities. The empowered communities approach being implemented across these activities in FY17 aims to increase this.

Performance measure	YE Outlook	YE Target	FY17 Q2 Result	FY17 Q2 Target	FY16 Result
7. Use of libraries as digital community hubs: Number of internet sessions per capita (PC & WiFi)	✓	2.0	2.0	1.0	3.6
8. Percentage of customers satisfied with the quality of library service delivery	✓	85%	Measured Annually		92%
9. Percentage of visitors satisfied with the library environment	✓	85%	Measured Annually		85%
10. Percentage of attendees satisfied with council delivered and funded local events	✓	85%	Measured Annually		87%
11. Percentage of Aucklanders that feel their local town centre is safe (day)	✓	92%	Measured Annually		93%
12. Percentage of Aucklanders that feel their local town centre is safe (night)	✓	52%	Measured Annually		54%

Performance measure	YE Outlook	YE Target	FY17 Q2 Result	FY17 Q2 Target	FY16 Result
13. Facility Utilisation - utilisation at peak times for council managed community centres and venues for hire		15%	14%	15%	14%
14. Facility Utilisation - utilisation at off-peak times for council managed community centres and venues for hire		8%	8%	8%	8%
15. Percentage of community facilities bookings used for health and wellbeing related activity		20%	21%	20%	26%
16. Number of visitors to community centres and venues for hire		41,442	47,348	20,721	72,922

Local Planning and Development
