Don Lawson
 Auckland Council/Local Parks North

Dear Don Lawson

Quote Number: **M16154** Job Name: **Rosedale Park Carpark**

We are pleased to submit our quotation of

\$ 6,935.79

Clarifications:

- It is Coastline Markers policy that its clients have an approved credit account with Coastline Markers prior to work commencing. We reserve the right to request that payment be made before any work commences.
- Our price is supplied on the basis that the customer has all required consents approved, in place and available to construct the works
- All Rates are exclusive of GST.
- The price is based on [tender documents/schedule/drawings/email/instructions](#) as received.
- The quote is Measure and Value and quantities will be subject to remeasure on completion of work. Any variation to the scope of work as priced in the attached schedule will be subject to additional charges at the unit rates applicable.
- The programme of works is to be agreed. We have allowed a total of (1) shifts for linemarking work to be carried out. The number of shifts required is based on the full scope of work for each site being available at the time of scheduling. The site should be clear of any obstructions and crews should have unrestricted access to the work areas. Any additional shifts as a result of site not being ready or cleared will incur an establishment charge of **\$195.39** per crew per visit.
- All set out will be carried out by Coastline Markers and must be approved by the [client/engineer](#) prior before marking is carried out.
- All marking will be with a single coat of an NZTA M/7 approved paint only. No allowance has been made for a second coat of paint or any long life marking.
- Coastline Markers advises that concrete has an inherent issue with efflorescence which is the formation of calcium carbonate on the surface. This material will have a dramatic effect on the performance of the paint and therefore Coastline is only willing to apply markings to your concrete surface under the following terms and conditions:
 - The Customer accepts that No warranty as to performance is provided as concrete is a difficult surface to apply paint to and retain its adhesion.
 - No paint will be applied unless the concrete surface is at least 3 months old.
 - We require to be advised of the age of the concrete, any surface treatment applied to your concrete i.e. if densifiers, curing compounds or sealants were used in the laying process and whether the surface has been acid washed, water blasted, sand blasted or ground.
 - To assist with adhesion Coastline recommends that the concrete is waterblasted, acid etched, acid washed or shot blasted. A primer may be used as well.
- No allowance has been made for any temporary or permanent linemarking removal work.
- All Traffic Management will be provided by the Head Contractor at their cost including any required consents such as CAR, WAP, TMP and other relevant permits. These must be in place prior to and during the period that the work is being carried out.
- No allowance has been made for the provision of a bond or retentions.

If you have any queries regarding the above, please feel free to contact me.

Yours sincerely

Mark Lobdell

Auckland Manager
