Project details

Project title	Liquid Amber Pruning
Location	2 Pembroke Crescent
Summary	<p>The tree (Liquid Amber) needs regular pruning as it is very near the house, overlaps the roof, and is also overlapping neighbours' property. In my opinion it is too high and although a beautiful specimen, poses a danger to property and people in the event of high wind (a 'twister' in the winter two years ago severely damaged trees and fences etc)</p> <p>We had it pruned by an arborist five years ago and he recommends either taking it down completely, or bringing it back to a more manageable, safer size.</p>
Requesting grant for	To prune liquid amber at the property.
Alignment with local board priorities	<ul style="list-style-type: none"> • Provide owners of all notable trees within the Orakei Local Board area access to grants to support tree works that support the long term health and retention of notable trees. <p>Pruning of this tree will bring it to a safer and more manageable size minimising any risk of damaging the tree or its surrounding.</p>

Project details

Project title	Golden Totara removed of Deadwood
Location	21 Buttle Street, Remuera Auckland 1050
Summary	Thin Golden Totara of deadwood and branches overhanging boundary. For its own survival and safety of surrounding houses this tree needs to be pruned of deadwood. This tree is in excess of 150 years old, and was a landmark on the Glen Esk property. It was listed on a tree plan when we originally bought the house in 1998 (since seems to have disappeared off any record).
Requesting grant for	Removal of deadwood
Alignment with local board priorities	<ul style="list-style-type: none"> Provide owners of all notable trees within the Orakei Local Board area access to grants to support tree works that support the long term health and retention of notable trees. Removal of deadwood will contribute to the wellbeing and longterm health of this notable tree of the area.

Project details

Project title	Reduction of Mature Oaks
Location	47 entrican Avenie, Remuera Auckland 1050
Summary	<p>A major reduction sought for 2 mature oaks in our property. You will note from the photographs attached we are at the end of a cul de sac and all the storm water runs to a drain outside our property and the leaf fall from these oaks does cause significant blockage.</p> <p>To have them reduced substantially will alleviate this problem.</p> <p>Please describe how this tree meets eligibility criteria *Required These oaks are thought to be over 80 years old and join a number of substantial mature trees in the street that contribute to Entrican Avenue being a sought after road that the local neighbourhood enjoy walking down and through the lane at the end of our property that then joins up with Rangitoto Avenue.</p>
Requesting grant for	To re-reduce and shape two Oak Trees
Alignment with local board priorities	<ul style="list-style-type: none"> • Provide owners of all notable trees within the Orakei Local Board area access to grants to support tree works that support the long term health and retention of notable trees. <p>Reduction for safety of mature trees to maintain clearances from service lines.</p>

Project details

Project title	Thinning and reduction of Liquid Amber
Location	16 Rukutai Street, Orakei Auckland 1071
Summary	<p>This is an attractive tree that we would like to keep. However we have a concern that although healthy could cause danger in storm or high winds at current size and this risk will increase as the tree continues to grow.</p> <p>The tree is close to the street so potential risk for pedestrians Visible from the road and part of the street scape Maintain sunlight in the mornings Partially restore neighbours view</p>
Requesting grant for	Thinning and reducing the height of the crown. Tree is 20 year old liquid amber
Alignment with local board priorities	<ul style="list-style-type: none"> Provide owners of all notable trees within the Orakei Local Board area access to grants to support tree works that support the long term health and retention of notable trees. <p>Reduction of liquid amber for safety. Reduction in size will contribute to its long-term health.</p>

Carl Bergstrom

Organisation/individual	Individual	Main focus	Environment
Applicants perceived conflicts of interest:	None identified		

Project details

Project title	Oak Tree Maintenance
Location	273 Riddell Road, Glendowie Auckland 1071
Summary	This is a nice oak tree, in very good health, certainly over 40 years old and possibly over 60 years. There are relatively few oak trees in the locality, and this is an excellent example. It is a large tree, and although situated up a right-of-way, the upper half of the tree can be seen from the road, and the tree can be seen from at least 3 blocks away (depending upon the vantage point, as it is a hilly area). It can also be clearly seen from the Tamaki River.
Requesting grant for	Pruning, shaping, and removal of deadwood and surplus branches.
Alignment with local board priorities	<ul style="list-style-type: none"> Provide owners of all notable trees within the Orakei Local Board area access to grants to support tree works that support the long term health and retention of notable trees. <p>Pruning of this tree will bring it to a safer and more manageable size minimising any risk of damaging the tree or its surrounding.</p>

Sally Blyth

Organisation/individual	Individual	Main focus	Environment
Applicants perceived conflicts of interest:	None identified		

Project details

Project title	Pruning of Camphor Lauren
Location	110 Orakei Road, Remuera Auckland 1050
Summary	Retrenchment pruning of large camphor laurel tree on property - it is declining as a likely result of altered growing environment. The tree's health is a concern, as well as safety as large branches are falling off and there are areas of decay and dieback in the crown. Further branch failure is likely. Our house is directly under the crown of the tree where branches are falling.
Requesting grant for	To Prune and maintain tree
Alignment with local board priorities	<ul style="list-style-type: none"> Provide owners of all notable trees within the Orakei Local Board area access to grants to support tree works that support the long term health and retention of notable trees. <p>Pruning of this tree will bring it to a safer and more manageable size minimising any risk of damaging the tree or its surrounding.</p>
