## Auckland Mataatua Society Incorporated

<b>Marae</b>	Mataatua Marae - Auckland Mataatua Society Incorporated
<b>Physical address</b>	17 Killington Crescent Mangere Manukau Auckland 2153

### Project details

<b>Requesting funding for</b>	Kitchen Upgrade - Equipment		
<b>Requested amount</b>	\$47,756.00		
<b>Project Manager</b>	Baari Mio		
<b>Timeframe</b>	25 days		
	May 29 <sup>th</sup> 2017	Preliminary work Strip and dispose/remove Clean and inspect Wiring check Gas lines	5 days
	June 5 <sup>th</sup> 2017	Re fit wiring/gas lines Fittings and plumbing fixtures Structural support if necessary Ceiling work	5 days
	June 12 <sup>th</sup> 2017	Start on relining walls and setting up work stations where all appliances will be installed etc.	5 days
	June 19 <sup>th</sup> 2017	Flooring, Fixtures secured, all wiring and lights fitted as well as all safety specs checked and met	5 days
	June 26 <sup>th</sup> 2017	Installation of all appliances Bench tops, Gas fixtures installed Hobs and stations Tidy up Site check	5 days
<b>Feasibility report</b>	Completed		
<b>The development will enable</b>	<ul style="list-style-type: none"><li>• Disability access</li><li>• Fire safety</li><li>• Health and safety</li></ul>		

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	YES. Southern Hospitality are the leading provider for all commercial kitchen renovations specialists and comply with all codes - they meet expected criteria for the site to be compliant.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Final Funding requested within this application will allow for the project to be completed.

<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	The local community who utilise the facility including organisations and tertiary providers support the upgrades so we can provide a high standard of service as well as functional facilities.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<p><u>Meet future needs</u> - we endeavour to provide a facility , that is functional, readily accessible and meets standards to be able to continue to deliver the services we provide from our site - moving in to the future, being able to provide such a facility that is complete, and functional means we are able to pursue a healthy future for the organisation.</p> <p><u>Promote access for the disabled</u> - the facilities are already wheelchair accessible etc and having safe and functional kitchen facilities means we can cater to all demographics</p> <p><u>Energy &amp; resource design efficient</u> - we are looking to stay with bottled gas and also use all kitchen appliances that are energy efficient but effective for the type of facility that we are.</p> <p><u>Be adaptable for a wide range of activities</u> - being able to cater to all walks of people from the community with the new kitchen facility means we can host a range of groups, and activities out of our site that require kitchen use. Currently we are limited as our facilities simply cannot produce the output that our site can host.</p>
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.	We are one of 6 Marae in Mangere and we have a high customer retention rate because of the size of the facility, the rate at which you can use our facility and the services we offer. Having a functional kitchen is a must. It allows us to be better equipped to deal with the group sizes that our Marae can meet at full capacity.
<b>Maintenance plans, budget forecasts and insurance</b>	
Do you have plans in place to manage the ongoing maintenance of the facility and protect it for ongoing and future use	Our site is currently insured with Rothbury insurance and is renewed annually - part of the operations plan shows an annual maintenance plan. see attachment. This is something that the society considers a priority, to maintain our facilities to a high standard to ensure its durability. The insurance we put in place 3 years ago was put in place after having fire safety requirements met and all conditions of the policy put in place in order to get full site cover.

## Funding history

Application ID	Project title <i>Round - Stage</i>	Decision <i>Total allocated</i>
RegRSR1646	<b>Mataatua Marae Sports and Cultural Activities Programme</b> Regional Sport and Recreation Grant 2015/2016 Round One Declined	Declined \$0.00
	<b>Marae upgrades and improvements</b> Mangere-Ōtāhuhu Local Board Community Group Funding -	Approved

MO15-1011	2014/2015 Round 1	\$20,000.00
	<b>Cultural Initiatives Fund 14/15</b> Removal & replacement of the Trapezoidal profile roof system, replacement of trapezoidal wall cladding system. Drainage, redecoration of concrete block walls, foundation slab and seating	Approved \$140,000.00
	<b>Cultural Initiatives Fund 15/16</b> Kitchen Refurbishment	Approved \$100,000.00
	<b>Te Puni Kokiri</b> To complete kitchen refurbishment	Declined \$50,000.00

## Motairehe Marae Trust

<b>Marae</b>	Motairehe Marae Trust
<b>Physical address</b>	Motairehe Road, Katherine Bay Great Barrier Island Auckland 0960

### Project details

<b>Requesting funding for</b>	Water Tank Installation & Painting
<b>Requested amount</b>	\$63,307.06
<b>Project Manager</b>	Hope Munro
<b>Timeframe</b>	5 months. Time is now getting on in terms of painting. It may mean waiting for summer.
<b>Feasibility report</b>	Completed
<b>The development will enable</b>	<ul style="list-style-type: none"> <li>• Fire safety, Water access (tanks)</li> <li>• Health and safety</li> <li>• Sanitary systems</li> </ul>

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	We have recently completed a Project with Auckland Council Marae Development Funding and all consents were processed at that time.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The Water tank will enable us to continue to the next phase.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes we have support from Aotea Health Trust, and The Aotea Family Support Group.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<u>Meet future needs</u> - Painting the Marae should take our mokopuna through another 15 years. Our current surface Water Tank is leaking, and has no cover. The new tank will be in place for the next 15 years at least.
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.	No our needs cannot be met through other facilities. We provide a place for whanau to sleep, eat, meet each other, listen to stories of our tupuna, and tangi for our dead.
<b>Maintenance plans, budget forecasts and insurance</b>	
Do you have plans in place to manage the ongoing maintenance of the facility and protect it	Plans are being worked on along with succession planning. That is making sure that our young people are

for ongoing and future use	learning Maturanga Maori into the future. Aroha, whakapono,rangimarie, tika and aroha.

## Te Ara Rangatu O Te Iwi O Ngati Te Ata Waiohua Incorporated

<b>Marae</b>	Tahuna Pa
<b>Physical address</b>	Tahuna Pa Road, Waiuku Franklin, Waiuku 2683

### Project details

<b>Requesting funding for</b>	Waste Water Treatment Plant
<b>Requested amount</b>	\$150,000.00
<b>Project Manager</b>	Warren James
<b>Timeframe</b>	5 Months - Commence December 2017 - Completed April 2018
<b>Feasibility report</b>	Completed
<b>The development will enable</b>	<ul style="list-style-type: none"><li>• Fire safety</li><li>• Water access (tanks)</li><li>• Health and safety</li><li>• Sanitary systems</li></ul>

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	See supplier quotation titled "WWT Quotes (1) (1).PDF" for compliance. During Stage 1 all of the necessary requirements were fulfilled in regard to the over master-plan i.e compliance with the Building Act health and safety requirements. (See also TMP Practical Completion Report for Stage 1.)
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Investment from Auckland Council will enable the project to be completed. This project is the last of two stages. The first stage completed the shell. This stage focuses on the fit out and treatment system.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	This project has support from Manawhenua, the local community and local Board. See Feasibility Report attached.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<ol style="list-style-type: none"><li><u>1. Meet Future needs</u> - will be met by providing a facility that meets the specific cultural aspirations of the local manawhenua Iwi to exercise manakitanga to whanau, hapu, iwi and manuhiri in upholding their disposition (mana) humility and tikanga.</li><li><u>2. It ensures access to disabled, kaumatua and tamariki</u> through specific tailored design inspired by these givens e.g whanau room, 4 x disabled friendly showers and kaumatua room.</li><li><u>3. Energy / resource efficient</u> - It has solar energy, large rain water holding capacity, energy saving lighting and</li></ol>

	is made to last (solid steel and concrete) 4. Be adaptable for a large range of activities - It can be used for small and large hui; service traditional settings, buffet and restaurant and be used for all kinds of events.
--	--

**Demonstrate how the facility will meet the present and future needs of users**

Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.	<p>The Iwi, hapu, whanau, papakainga, and other related users needs could not be met by other facilities. This is because the current marae is the heart of the culture, it is the the oldest standing marae in Tamaki Makaurau, it is the Ohaki (place where stories are told, commemorated and celebrated. It is a strong sense of identity and heritage)</p> <p>The Wharekai project will meet the needs of whanau, hapu, Iwi and manuwhiri by providing a facility that meets the specific cultural aspirations of the local manawhenua Iwi to exercise manakitanga to their people, community and manuwhiri in upholding their disposition (mana) humility and tikanga.</p>
---	--

**Maintenance plans, budget forecasts and insurance**

Do you have plans in place to manage the ongoing maintenance of the facility and protect it for ongoing and future use	<p>Ngati Te Ata has utilised the many voluntary efforts of its people to sustain Tahuna Marae for the past 129 years. There has never been a hui without the peoples support, mostly through the work ethic of ringawera and guidance of kaumatua, at times through financial contributions of whānau or organisations directly participating or affected and at other times through the financial support of Land Trusts, the Iwi even non-members.</p> <p>In particular, Te Ara Rangatu o Ngati Te Ata Waiohū Inc has specific tikanga regarding supporting Tahuna Marae, hence the significant support toward this project. And although not written in any document, from the contributions received by the various whānau and Trusts for this project, ongoing support toward the Marae from whanau, hapu, Iwi trusts and the community is evident.</p> <p>Koha from hui at Tahuna Marae is another contributing factor to ongoing sustainability. The Marae has always been available for hire. This is likely to increase due to the new Wharekai and the ongoing daily activities currently held at the Marae including, adult education courses, the Te Kahui Iti Nei o Te Kopu/ Early Childhood Centre, the Whare Oranga/Gym Health Centre, the Doctors Clinic, and the future planned Kura Kaupapa.</p> <p>Further, the Wharekai is designed to provide for a commercial kitchen and be utilized as a training venue. This will enable Ngati Te Ata to run catering, cooking, health and hygiene and a chef's training course. The Marae also intend to hold student evening restaurant meal nights to provide another source of income for the Marae and the opportunity for students to test their newly acquired skills</p>

## Papakura Marae Society Inc

<b>Marae</b>	Papakura Marae Society Inc
<b>Physical address</b>	29 Hunua Road, Papakura, Auckland 2244

### Project details

<b>Requesting funding for</b>	Sprinkler System Installation
<b>Requested amount</b>	\$150,000.00
<b>Project Manager</b>	Hine Joyce Tahere
<b>Timeframe</b>	Installation in 2017/2018 financial year. See attached timeline. 6 months from funding sign off from Auckland Council and other funders
<b>Feasibility report</b>	Not completed/Not applicable
<b>The development will enable</b>	<ul style="list-style-type: none"> <li>• Fire safety</li> <li>• Health and safety</li> </ul>

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	<p>Installation of a fire protection sprinkler system across all Marae buildings.</p> <p>The buildings are all building code compliant with certification in August every year.</p> <p>The Fire Protection System Sprinkler System adds value to the Marae assets as well as added Health &amp; Safety for whanau staying overnight at the Marae.</p>
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	<p>Yes.</p> <p>Auckland Council Funding would enhance Health &amp; Safety for all who visit or sleep overnight at the Marae. The Sprinkler System goes a long way to protecting the assets of the Marae inclusive of TAONGA - Carvings and Tukutuku panels which adorn the Whare nui and many other buildings on site.</p> <p>Auckland Council funding coupled with funds from Lottery grants and Marae savings would complete and fully install a Marae wide fire protection system (sprinkler system).</p>
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	<p>Our relationship with the Local Board and Mana Whenua is great. Papakura Marae has for the past 4 decades enjoyed a healthy relationship with the Local Board.</p> <p>The Local Board are frequent users and attendees at Marae events and celebrations.</p> <p>I would be happy to get a minute from the Local Board as endorsement or a letter of support from the Chair</p>

	Brent Catchpole if needed.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<p><u>Meet future needs:</u></p> <p>An investment in Papakura Marae is an investment into the future. The Papakura Marae was established in the 1970's and has grown from strength to strength now providing a range of Health, Education, Justice and Social Services to the wider community.</p> <p>Although 90% of our users are Maori; our services are open to all.</p> <p>Papakura Marae would engage with near on 25 - 30 thousand people every year.</p>
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.	<p>There are other service providers in Papakura. However none are Marae based and have an integrated approach to service and care.</p> <p>The demand for our support is evident in the 25 - 30 thousand visitors and requests we get every year for support.</p> <p>The sprinkler system enables the Marae to provide these services knowing our facility is enhanced with the fire protection system in place.</p>
<b>Maintenance plans, budget forecasts and insurance</b>	
Do you have plans in place to manage the ongoing maintenance of the facility and protect it for ongoing and future use	<p>Papakura Marae allocates a maintenance budget every year. The 2016/2017 maintenance budget was \$50K however in March 2017 a further \$37K was approved for maintenance across the Marae. Total \$87K to 30 June 2017.</p> <p>The Marae has insurances as follows:</p> <ul style="list-style-type: none"> <li>+ Building</li> <li>+ Contents</li> <li>+ Business Continuity</li> <li>+ Professional Indemnity</li> <li>+ Public Liability</li> <li>+ Fleet vehicle insurance</li> </ul>

<b>Requesting funding for</b>	Feasibility Report & Concept Design	
<b>Requested amount</b>	\$102,350.00	
<b>Project Manager</b>	Jamie Forsman	
<b>Timeframe</b>	1 month for feasibility report - Indicative Project Timelines Below for entire project Indicative timeline:	
	<b>Proposed milestone</b>	<b>Date</b>
	Wānanga with Ngāti Paoa members and Māori design and planning professionals to begin inclusive design process, including considering possible tourism and economic activities associated with pā	March – June 2017
	Investigate opportunities to access funding	March – June 2017
	Prepare feasibility study for pā development including outline of housing model and phasing of development	June 2017
	Release Expression of Interest or Request for Proposals	March – June 2017
	Prepare resource consent (and subdivision consent if required) for pā development	May – December 2017
	Prepare building consents for pā development	May – December 2017
	Confirm finance for pā development	May – December 2017
	Earthworks and construction period	May 2018 – May 2020
	Opening of pā	June 2020
<b>Feasibility report</b>	Not completed/Not applicable	

<b>The development will enable</b>	<ul style="list-style-type: none"> <li>• Disability access</li> <li>• Fire safety</li> <li>• Health and safety</li> <li>• Sanitary systems</li> </ul>
------------------------------------	---

## Criteria

<b>Compliance with building and health and safety requirements</b>	
<p>Will this project enable the marae to comply with Building Act and health and safety requirements?</p>	<p>The feasibility study will consider all relevant regulatory requirements under the Building Act, Health and Safety Legislation and Unitary Plan. A feasibility study and concept design must include the following aspects</p> <ul style="list-style-type: none"> <li>– the size and scale of the project</li> <li>– a discussion of the current situation and what's needed</li> <li>– options to deal with existing problems</li> <li>– review and consideration of all applicable regulatory requirements under the RMA, H&amp;S legislation and Building Act.</li> <li>– comments on risks and benefits of each option</li> <li>– comments on the best option or options</li> <li>– an outline for the planned approach</li> <li>– an assessment of the group's ability to deliver the project and the results over time</li> </ul>
<b>Readiness to proceed / funded to completion</b>	
<p>Will investment from Auckland Council enable the project to continue to the next phase or complete the project?</p>	<p>Yes. The completion of a feasibility study and concept design will support our engagement with the community and local board, and initiatives to seek funding for capital expenditure from other sources, including the Lotteries Commission and Foundation North.</p>
<b>Local Board and community support</b>	
<p>Does this project have support from your local board and / or local community and /or mana whenua?</p>	<p>This a mana whenua organisation application. The return of this land to Ngāti Paoa is not supported by the local community.</p>
<b>Sustainable, accessible, adaptable, future-proofed</b>	
<p>This project will:</p>	<ol style="list-style-type: none"> <li>1. <u>Meet future needs</u></li> <li>2. <u>Promote access for the disabled, kaumātua, and tamariki</u></li> <li>3. <u>incorporate energy / resource efficient design features and materials</u></li> <li>4. <u>Be adaptable for a wide range of activities</u></li> </ol> <p>We conceptualise this development as re-establishing the Ngāti Paoa footprint within Tāmaki, and enabling Ngāti Paoa members to be repatriated within Te Tauoma. The new pā will sit within the cultural landscape of Te Tauoma, which includes extensive pā sites at Mokoia and Mauinaina, as well as a rich network of wāhi tapu, rawa tūturu, and korero tūturu. We consider the site at Paoa Whanake to be the heart of the Tāmaki Regeneration Area, and we see this development as an opportunity to provide a beacon for the wider Tāmaki community. We intend to engage further with our community to determine the nature and</p>

	scale of development, including providing a nursery for native plants, early childcare education centre, kaitiaki activities and papakāinga associated with the marae complex. Energy efficient design will be critical towards enhancing the mauri of the receiving environment and will include consideration of sustainable design features such as solar power, insulation/heat retention technologies and building orientation to maximise solar gain. It is critical that the marae complex is financially sustainable and incorporates supporting community/economic uses. Ngaati Paoa is eager to investigate innovative design solutions that can temporarily increase the capacity of the marae during peak use periods and therefore reduce capital expenditure.
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.	We consider the site at Paoa Whanake to be the heart of the Tāmaki Regeneration Area, and we see this development as an opportunity to provide a beacon for the wider Tāmaki community. We intend to engage further with our community to determine the nature and scale of development, including providing a nursery for native plants, early childcare education centre, kaitiaki activities and papakāinga associated with the marae complex
<b>Maintenance plans, budget forecasts and insurance</b>	
Do you have plans in place to manage the ongoing maintenance of the facility and protect it for ongoing and future use	NA - concept design required before maintenance plan and budgets can be developed.

<b>Marae</b>	Ngā Whare Waatea Marae (Manukau Urban Māori Authority)
<b>Physical address</b>	31 Calthorp Close, Favona, Auckland 2024

### Project details

<b>Requesting funding for</b>	Feasibility Report & Concept Design
<b>Requested amount</b>	\$150,200.00
<b>Project Manager</b>	Wyn Osborne
<b>Timeframe</b>	The overall plan is still to be finalised as it is a large-scaled project involving a number of partners and stakeholders. This particular phase of the project, which is to support the completion of a feasibility report, has an expected end date of 30 June 2017.
<b>Feasibility report</b>	Not completed/Not applicable
<b>The development will enable</b>	<ul style="list-style-type: none"><li>• Disability access</li><li>• Fire safety</li><li>• Health and safety</li></ul>

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	Yes, the project will identify and ensure that building plans and future development adheres to appropriate legislative and health and safety requirements. This includes ensuring buildings are fit for purpose and of appropriate size to ensure capacity and emergency exit procedures are provided for appropriately.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The investment will assist in project initiation to help better plan this large-scale marae development programme of works.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes, MUMA has met with representatives from local government, community and mana whenua to develop the project. MUMA has also met with representatives from central government and various government agencies.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<p>The overall marae project incorporates bringing together whānau and community through education, community services, and social and emergency housing. The marae will be at the centre of this development project, to support community togetherness and collaboration.</p> <p>On the marae, we currently operate a partnership school, early childhood centre, various whānau-focused services and a radio station. We are seeking support to</p>

	<p>help develop the marae facilities and future planning for community needs. This requires intensive planning and resources to be injected so as to support initial research and development phases.</p>
<p><b>Demonstrate how the facility will meet the present and future needs of users</b></p>	
<p>Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.</p>	<p>The needs of our community are dynamic and require facilities which are easily accessible and centralised. Through our marae development plan, we will be able to ensure that those needs are met.</p> <p>We envision our marae to act as a community beacon. Centre to this is increasing safety and security of our tamariki and future tenants. We are creating opportunities in the community development space, but lack the facilities to deliver on these opportunities for our whānau stymies our efforts to do so, easily. These include partnerships with local PTE's to support literacy and numeracy, licensing programmes, and trades training; appropriate learning spaces for adult learning centres; and facilities for community organisations to hold hui and wānanga, and engage with our locals.</p> <p>Our attempts at developing a kaumatua rōpu have been neglected due to the lack of space available for them to meet and whakawhanangatanga. As one of the busiest urban marae in Tāmaki Makaurau, we have the potential space to develop facilities which support the kaupapa of South Auckland - community pride and unity.</p> <p>A pātaka kai is also on site, in partnership with the Auckland City Mission, to support our community. These are families in need and would benefit from MUMA's development into skills for life and adult learning programmes during day time hours. The development of the marae would also better support those whānau whose tamariki attend our Kura and ECE to attend similar programmes.</p> <p>Our vision for our marae is to centralise as many resources for our whānau, so that they have all the support they need. This includes developing our partnerships with the likes of organisations like Aotearoa Credit Union (financial services) and Turuki Health Care (health and health promotion) to support growing a financially strong and healthy community. These two organisations are currently part of our Collective Impact Project, alongside Papakura Marae, Te Kaha O Te Rangatahi, and Radio Waatea, which aims to support deeper engagement from our whānau with local community services, and supporting development in education in all aspects (education system, financial management, health care, community access points, etc).</p>
<p><b>Maintenance plans, budget forecasts and insurance</b></p>	
<p>Do you have plans in place to manage the</p>	<p>The operations of MUMA and its subsidiaries will</p>

<p>ongoing maintenance of the facility and protect it for ongoing and future use</p>	<p>support the ongoing maintenance and support of the implementation and deployment phases of the project. We have the resources and capacity from years of working for our community to deliver on outcomes and meet expectations of community development.</p> <p>The operations of the MUMA Group (including MUMA, Radio Waatea, Te Whare Wānanga o MUMA, and Waatea Funerals) will help to support the ongoing maintenance of the marae via regular occupancy payments (status quo).</p>

## Piritahi Marae Trust

<b>Marae</b>	Piritahi Marae Trust
<b>Physical address</b>	53 Tahatai Road, Blackpool, Waiheke Island Auckland 1081

### Project details

<b>Requesting funding for</b>	Kitchen Oven Replacement / Roof Maintenance / Generator Installation
<b>Requested amount</b>	\$54,215.50
<b>Project Manager</b>	Sally Smith
<b>Timeframe</b>	Immediate purchase of new oven as needed urgently Roof work - January 2018 over a 2 week period ASAP for generator due to lost power in civil defence emergency recently
<b>Feasibility report</b>	Not completed/Not applicable
<b>The development will enable</b>	<ul style="list-style-type: none"><li>• Health and safety</li></ul>

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	The new oven will lift the level of hygiene to meet the required Health & Safety requirements for a commercial kitchen as the new oven is more easily broken down for cleaning than the current oven. The roof repairs will ensure clean non contaminated water is collected in our water tanks which are used for our potable water supply. The generator was requested at late notice due to recent power outages at Marae when being used for Civil Defence emergency – cannot operate in this capacity without power
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The funding will enable all 3 both projects to be 100% completed and fulfilled.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	This project has support from the wider community as the Marae is key community centre that provides support from all members of the community. This is shown through the letter attached from our Local Board. We were awaiting a letter from Ngati Paoa at the time of submitting this application and will forward it when it arrives.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<u>Meet future needs / health &amp; safety and incorporate energy / resource efficient design features and materials</u>

	<p>The new oven and roof repairs will see the Marae secure for the next 10-20 years as a facility that can feed and roof our community for significant community events.</p> <p>The new oven is more energy efficient than the existing oven and the roof being painted a light grey will mean a more energy efficient roof that reflects the heat in summer and helps control the internal temperature of the building thus not requiring the use of electrical fans to cool the building.</p>
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.	<p>Piritahi Marae is the only Marae on Waiheke Island and as such is the only facility that can act as a turangawaewae, carry out tangihanga, and uphold other traditional Maori traditions such as kawemate, tikanga, reomaori etc. Without Piritahi operating the Waiheke Māori community has no place to stand.</p> <p>The Marae is also used for civil defence purposes.</p>
<b>Maintenance plans, budget forecasts and insurance</b>	
Do you have plans in place to manage the ongoing maintenance of the facility and protect it for ongoing and future use	<p>The Marae buildings all have annual ongoing maintenance including immediate repair of any damage, repainting and recladding as required.</p> <p>The roof once repaired will be annually washed and checked for damage.</p> <p>The Marae is fully insured with a replacement policy by STATE insurance.</p>

## Komiti Marae Orakei Trust

<b>Marae</b>	Orakei Marae
<b>Physical address</b>	59B Kitemoana Street, Orakei, Auckland 1071

### Project details

<b>Requesting funding for</b>	<b>Repair &amp; Maintenance of Whare for educational purposes</b>
<b>Requested amount</b>	\$200,000.00
<b>Project Manager</b>	Wyllis Maihi
<b>Timeframe</b>	12 months
<b>Feasibility report</b>	Not completed/Not applicable
<b>The development will enable</b>	<ul style="list-style-type: none"> <li>• Disability access</li> <li>• Fire safety</li> <li>• Health and safety</li> <li>• Sanitary systems</li> </ul>

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	Previously the house was used as a Kohanga Reo and also a Kura a-iwi. It is currently in a much need of repair and renovation. This renovation will enable us to return the whare to its original educational purposes. The renovations will make the whare compliant.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The investment by the Auckland Council will enable us to complete the renovation. After that we will be able to relocate the weaving team to the whare to allow them to continue their craft and will also give them space to continue having wananga.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes the project has support of the marae committee which meets monthly with our local maori community. The Komiti Marae OrakeiTrust also prioritises this development of the marae site so that other building developments can occur at a later date by freeing up space. It will be mainly an educational space for raranga and te reo maori classes in the first instance.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	<ul style="list-style-type: none"> <li>– <i>meet future needs</i></li> <li>– <i>promote access for the disabled</i></li> <li>– <i>kaumātua, and tamariki</i></li> <li>– <i>incorporate energy / resource efficient design features and materials</i></li> <li>– <i>be adaptable for a wide range of activities</i></li> </ul> all the above

**Demonstrate how the facility will meet the present and future needs of users**

Can the needs of your local community be met through other facilities? If not, what community need will this project meet and explain why and how this project will meet those needs.

No. The marae complex has very few spaces that can cater for raranga and te reo maori. What spaces that are available are designated eating areas which in certain scenarios are not suitable in regards to maori tikanga, it breaks tikanga. Furthermore, the spaces we have are not big enough to cater for the numbers we have hence this space will be a multi-use space as well until other areas of the marae are upgraded and developed to cater for the growing need and expanding cultural and educational developments.

**Maintenance plans, budget forecasts and insurance**

Do you have plans in place to manage the ongoing maintenance of the facility and protect it for ongoing and future use

Yes, we have appropriate insurance on current buildings.

**Funding history**

<b>Application ID</b>	<b>Project title <i>Round - Stage</i></b>	<b>Decision <i>Total allocated</i></b>
QR1612-102	<b>Orakei Community Patrol Group</b> Ōrākei Quick Response, Round One, 2015/16 Process accountability	Approved \$2,900.00
	<b>Current Project</b> Komiti Marae Orakei will be self-funding the labour portion of the current project	Estimated \$50,000 - \$80,000
