

## **Summary of major reinstatement works following March/April 2017 weather events**

### ***East Coast Road***

- Opened to one-way traffic.
- The final clean-up will take another 4 weeks' minimum to restore two-way traffic. This is because slip material continues to fall on the road.
- There are also 4 landslips along the edge of the road which will need to be repaired over the next 6 to 9 months.

### ***Kawakawa Bay Coast Road***

- The road is closed for public access, apart from residents and emergency vehicles.
- There are 5 landslips along the road. One large subsidence has reduced the road down to one lane only.
- AT is monitoring this and is programming the permanent repair urgently.
- The existing road has one-way sections along it due to the topography of the coastal edge.
- AT expects it will take 6 to 9 months to repair all the subsided areas.

### ***McNicol Road***

- There is one landslip 200m from the end of the road which has closed the road to the public. This is a low priority as there is only one resident at the end of the road that 4-wheel drive access can be maintained for.

### ***North Road***

- Open to two-way traffic.
- Two major landslips and multiple minor land slips.
- Repair works will be programmed during the next 6 to 9 months.

### ***Maraetai Coast Road***

- Open to two-way traffic.
- Minor coastal repairs required at Umupuia.
- Permanent repairs are programmed and will be undertaken within the next 3 months.

### ***Otau Mountain Road***

- Open to traffic.
- Three major landslips affecting the road carriageway with numerous land slips above the road that require slip debris removal.
- Repair works will be programmed during the next 6 to 9 months.

### ***Monument Road***

- Open to traffic
- Two large landslips.
- Temporary repairs completed.
- Permanent repairs works will be programmed during the next 6 to 9 months.

### ***Moumoukai Hill Road***

- Open to traffic.
- Two landslips.
- Repair works will be programmed during the next 6 to 9 months

### ***Clevedon–Kawakawa Road***

- Open to traffic.

- One landslip near Turei Hill.
- Repair works will be programmed during the next 6 to 9 months

#### ***Kawakawa–Orere Road***

- Open to traffic.
- Ongoing problem with landslips due to unstable nature of the adjacent land.
- Four landslips, repair works will be programmed during the next 6 to 9 months

#### ***Ponga Road***

- Open to traffic.
- Ongoing problem with ground movement due to unstable nature of the adjacent land.
- One landslip, repair works will be programmed during the next 6 to 9 months.

#### ***Ardmore Quarry Road***

- Open to traffic though restricted to a single lane in places.
- Three landslips, temporary repairs have been undertaken.
- Permanent repairs will be programmed during the next 6 to 9 months

#### ***Twilight Road***

- Open to traffic.
- One landslip affecting the road carriageway.
- Temporary repairs have been carried out.
- Permanent repairs will be programmed during the next 6 to 9 months.

#### ***Middleton Road***

- Open to traffic.
- Two landslips affecting the road carriageway
- Temporary repairs have been carried out.
- Permanent repairs will be programmed during the next 6 to 9 months.

#### ***Hunua Road***

- Open to traffic.
- One landslip affecting the road carriageway.
- Temporary repairs have been carried out.
- Permanent repairs will be programmed during the next 6 to 9 months.

#### ***Sinclair Road***

- Open to traffic.
- One landslip affecting the road carriageway.
- Temporary repairs have been carried out.
- Permanent repairs will be programmed during the next 6 to 9 months.

#### ***Whitford-Maraetai Road***

- Open to traffic.
- One minor landslip affecting the road carriageway.
- Permanent repairs will be programmed during the next 6 to 9 months.

#### ***Ararimu Road***

- Open to traffic.
- One landslip affecting the road carriageway.
- Permanent repairs will be programmed during the next 6 to 9 months.
