154	Our natural heritage and resources are preserved and nurtured for future generations	I&ES: Environmental Services	Puhinui Stream restoration project (Manurewa)	To restore a portion of the Puhinui Stream to support inanga spawning habitat, and improve water quality. This project will work with council and community partners, such as Panuku Development and the Manukau Beautification Charitable Trust.	Improve the biodiversity values of the stream environment, in particular restoring inanga spawning habitat. Planting will support improvements to water quality. A longer term outcome will also be general amenity and aesthetic improvements. No specific consultation with Maori has been undertaken for this project. However, Manurewa Marae have been involved in discussions around undertaking environmental projects within the Puhinui stream area.	None.	Q3; Q4	LDI: Opex	\$ 40,000
77	Our natural heritage and resources are preserved and nurtured for future generations	I&ES: Environmental Services	Support for participation by local schools in environment and sustainability education (Manurewa)	To support Manurewa schoolchildren to attend education for sustainability programmes at Botanic Gardens, Zero Waste Zone, Ambury (and other) Experience Centres across Auckland. The recommended budget of \$1500 will subsidise bus travel for up to ten schools to attend an experience centre.	The six experience centres offer education for sustainability experiences, inspiring children to make a difference for their environment. Financial assistance will provide the following benefits: <ul style="list-style-type: none"> • Allow schools within the local board to have the opportunity to attend experience centres • Engage students in developing a lifelong love of learning through sustainability • Improves understanding of the impact of sustainability in action, including behavioural change impact on restoring waterways • Provide examples of sustainability in action designed to empower students to take action at home and at school • Improve understanding and capability to engage in citizen science programmes • Improve connectedness to local places, encouraging local communities to better utilise their natural spaces 	None	Not scheduled	LDI: Opex	\$ 2,000
32	Our natural heritage and resources are preserved and nurtured for future generations	I&ES: Healthy Waters	Manukau Harbour Forum - Manurewa	To continue support for the Manukau Harbour Forum.	The Manukau Harbour Forum enables shared decision making and collaboration on issues impacting on the Manukau Harbour. Engagement and collaboration with mana whenua is required to ensure that the Manukau Harbour is enhanced and protected.	Any new work programme will require board approval.	Not scheduled	LDI: Opex	\$ 8,000
