Project title	Kahurangi Ki Uta		
Dates	01/05/2017 - 22/12/2017		
Location	Papakura High School - Willis Street Papakura. However this group attends at various venues.		
Summary	The object of this group is to support/tautoko local community and be role models for other young Maori in our area.		
Cost of participation	Generally a koha is given (this may vary in size and can sometimes be food)		
Requesting grant for	Supply each member of the roopu with full attire (skirt/dress pants/dress shirt/blazer).		
Active participants	100	Audience size	Over the year I would estimate hundreds
Promotion of activity	Yes		
Local board recognition	As above; we would love to get the students to show their support in their new attire to the board (possibly at a meeting that is held) - through a performance. Also, through our school newsletters, Facebook, BOT report etc.		
Alignment with local board priorities	<ul style="list-style-type: none"> Protect Maori cultural heritage, help our young people to contribute prosper and thrive. <p>Students within this roopu are not only building their own cultural identity but they are a significant group of students who are steering other youth towards wanting to embrace and learn about their own cultural heritage. By building their sense of identity and purpose they are able to prosper and thrive in our community and be successful citizens of Papakura. By being granted this funding we would be able to ensure all members have suitable attire that they can stand tall and proud in. Although this is one group of youth, the influence they have on others is hugely significant.</p>

Demographics

Maori outcomes	<p>Yes, 80% of the young people referred are Maori and research shows for each cohort of Maori students entering Year 9 approximately 60% will leave school before they reach Year 13 (Ministry of Education, 2009a).</p> <p>A lack of engagement with schooling and educational qualifications is connected to low-paid employment; unemployment; benefit dependence and crime and imprisonment (Department of Corrections, 2007). Most concerning statistic of all, is that Maori make up 51% of the prison population despite being 15% of the population and that generally, prison inmates have significantly lower rates of literacy and numeracy than the rest of the adult population (Department of Corrections, 2007; Lashlie, 2003; Walker, 2007)</p> <p>New Foundations Trust programmes have been successful in addressing these issues</p>

We took photos and displayed in the newsletter. This year we are creating a Facebook page so going digital and spreading the word. We would also like to say a public thank you via the Courier that might double as advertising for the club.		
Alignment with local board priorities	<ul style="list-style-type: none"> Promote Papakura as a destination for sporting competitions and events, help our young people to contribute prosper and thrive, We have children within age range 3 - 11 who gets exposure to gymnastics as a sport but also an opportunity to develop physically and challenge their bodies while having fun with like-minded children from the same age group, making friends from a mixed ethnicity membership. We provide a cost effective opportunity to families with low membership fees and thus draw members from Hunua to Manurewa. We encourage the Papakura youth to upskill and coach the younger children, with guidance from a head coach.

Project details

Project title	SAPACS Arts Festival 2017 - at Hawkins Theatre		
Dates	18/07/2017 - 13/08/2017		
Location	Hawkins Theatre, 13 Ray Small Drive, Papakura		
Summary	<p>53rd annual Festival Competition of Piano, Instrumental, Junior & Adult Vocal, Highland & National Dance, Ballet & Tap/Jazz, Speech & Drama.</p> <p>Over 2000 items are presented each year, mostly by children and teens, in front of an experienced adjudicator in each art form. The audience encourage the performers with their presence.</p> <p>Most sections are now held at the Hawkins Theatre, Papakura, because of the availability of a grand piano for the music sections and a full size stage.</p>		
Cost of participation	<p>We have to pay up to \$10,000 each year to secure adjudicators, feed them, accommodate them and transport them.</p> <p>The festival itself needs between \$40, 00 and \$45,000 to run each year. Therefore the competitors MUST pay a small entry fee per item. We also have to pay the website administrator as all entries are done online, and we also pay our Treasurer as it is important that all financial matters are handled in a professional manner. The entry fees DO NOT cover our costs and we are therefore very reliant on grants to keep the entry fees affordable for our competitors. Door charges to watch are minimal for the public. \$2 for seniors and children and \$5 for adults. Once again, we want to ensure that the festival is affordable for everyone to enjoy.</p>		
Requesting grant for	<p>The hire of Hawkins Theatre in Papakura. The increased charges meant our festival ran at a loss last year and is set to run at a substantial loss this year. We have reserves, but should they run out (we estimate there are only two years left) then the 2,000 items currently presented will no longer happen! A great shame after 53 years.</p>		
Active participants	450 individual performers presenting at least 2,000 items. Plus groups of varying sizes, so probably up to 550 performers all told.	Audience size	It varies from day to day and from art form to art form. Whenever groups are performing Hawkins is usually about 2/3rd full. Other times there may be only 30 to 50 people in attendance.
Promotion of activity	Yes		
Local board recognition	It can be included in information supplied to the local papers; it can go on the website home page and at the venue in whichever manner you instruct us to. We are more than happy to acknowledge anyone who supports the festival in the festival programme.		
Alignment with local board priorities	<ul style="list-style-type: none"> Contribute to the economic and cultural attractiveness of Papakura town centre, help our young people to contribute, prosper and thrive. 		

	The Hawkins Theatre is very accessible to the people of Papakura. Because families normally accompany their children to the Performing Arts Festival, the competitors are given plenty of support and encouragement by an appreciative audience. Members of the general public are welcome to attend, and they often do. The whole purpose of the Performing Arts Festival is to gain experience in several different ways in the process of growing up into fine and contributing members of society (please see our Mission Statement, listed under 'primary objectives')

Organisation/individual	OUTLine New Zealand Incorporated	Main focus	Community

Project details

Project title	Providing gender identity and sexual orientation counselling and support		
Dates	01/06/2017 - 31/05/2018		
Location	level 2, 31 Hargreaves Street, St Marys Bay, Auckland		
Summary	OUTLine already works with individuals and professionals in the Papakura area, providing initial help and ongoing support from a free, confidential phone service. OUTLine collaborates to address needs of high risk people, especially for young people struggling with their identity and their ability to engage fully with their peers and educational processes. OUTLine recruits and trains volunteer phone counsellors from all areas of Auckland.		
Cost of participation	No fee to volunteers or callers to participate. Face-to-face clients pay a below-market rate for counselling. Donations are encouraged.		
Requesting grant for	OUTLine estimates approximately 300 calls in the last year from people in Papakura, as well as making professional face-to-face counselling available where needed and training phone counsellors volunteering from Papakura. We estimate about 2.5% of our current resource is deployed for Papakura people.		
Active participants	140	Audience size	11250
Promotion of activity	Yes		
Local board recognition	We produce an annual report detailing our community partners. We would include acknowledgement of the local board, as well as on our website.		
Alignment with local board priorities	<ul style="list-style-type: none"> Help our young people to contribute prosper and thrive, People experiencing gender/sexuality issues often have fear and shame, and feel stigma. LGBTI youth are 4-6 times more likely than other youth to self-harm. Young people of Papakura suffer invisibly. <p>OUTLine trains LGBTI volunteers to provide a professional service. Trained volunteers lead the organisation and operate the free helpline. They respond to despair with empathetic listening and experience in their own lives. Approximately half of new volunteers are under 30.</p> <p>Whether by contacting OUTLine or by volunteering, people develop confidence and engage more effectively in their community.</p>

Project title	Counselling Services for Older Adults		
Dates	03/07/2017 - 29/06/2018		
Location	Cambria Park Homestead, 250 Puhinui Road Papatoetoe		
Summary	It is recognised that older people often experience numerous changes and challenges of aging, such as health issues, relocating, death of a spouse, family concerns, relationship issues, and may experience stress, depression, and anxiety as a result. Since 2013 we have provided a counselling service to older adults in a number of wards in South Auckland thanks to the support of local boards. We want to continue to offer this to older residents. Counselling can be effective in minimising or preventing the need for referral to mental health services even while older people are on medication for anxiety and depression. One manager of a retirement village mentioned that the majority of women entering the village are on anti-depressants.		
Cost of participation	No though we encourage clients to become members and always welcome donations.		
Requesting grant for	Salary and travel costs of the counselling service, shared between the six local boards.

There is a culture of ages and we need to celebrate older people in our community and value the contribution they make to our society by providing them information and support. In this application we have shared the cost of an FTE across the 6 local boards in South Auckland based on the older people population in each of these areas. At the moment we have one qualified experienced counsellor who works 30 hours per week delivering the service to whole region and this funding will enable us to increase her hours to 1 FTE 2 x 0.5 FTEs.

Project details

Project title	Papakura Maker-y
Dates	24/07/2017 - 20/12/2017
Location	The six Papakura schools of the Kootuitui ki Papakura cluster and the Papakura Library.
Summary	The aim of this project is to support schools to deliver new creative technologies and makerspaces which align with the Kootuitui teaching and learning pedagogy as they would enable our students to engage more fully with the potential in new digital technologies. Makerspace practices encourage innovation through learning by doing – testing and iterating concepts in practical ways. Maker-y programme aims not only to benefit our students but to more fully engage our whānau into their children’s learning and the wider community in the opportunities in creative technologies to encourage new skills and innovative thinking and creating in our communities.
Reason for the project	Support was investigated for Maker-y activities in the Kootuitui schools through having meetings with the principals, senior leadership teams and some of the teachers of all the Kootuitui schools. The outcome was unanimous supported for this project. Some schools had invested in teacher professional development in robotics but they did not have the budget to purchase the equipment so nothing had been offered at the curriculum level. In early May, we carried out pilot activities in robotics and CAD drawing at one school and two other schools have since offered to participate in further pilots.
Long term goals and objectives	Kootuitui maker-y programmes will have a strong aspect of community and whānau engagement, eg some schools may invite parents to learn alongside their children in maker-y classes and some schools will run community Maker-fairs to share the outcomes and new knowledge. These activities support student learning and extend the reach of access and knowledge into the wider community in a structured, supportive way. Furthermore, the public library will support whānau and youth by offering free use of the technologies during the school holidays. We will collect quantitative and qualitative data from whānau and community participants to measure engagement and impact.
Requesting grant for	Funding is requested for the rental of new digital technology for use in the classrooms, which consists of robotics kits and 3D printers and laptops which have the coding and drawing software installed on them. Funding will also provide expert facilitators who will lead in-class coaching for teachers and after-school professional development workshops.
Cost of participation	There is no cost to participate as the costs will hopefully be met through

	sponsorship funding.		
Active participants	1500+ students and their whānau, teachers	Audience size	not relevant
Promotion	The Trust will use its website (www.kootuitui.org.nz) and accompanying links, eg to YouTube. This site details all the activities of each part of the Kootuitui programme. Employees will disseminate information through the education, health and homes strands, especially in communication with the whānau champions involved in the homes strand. Schools will use their communication channels such as website, newsletters, facebook pages.		
Local board recognition	<p>We will acknowledge Local Board partnership on our website, at our AGM in September in our Annual Report, in our communications with all stakeholders, through schools' communications with their parents/whānau. We will also invite Local Board members to school and community Maker-y events and include Local Board signage and on advertising materials.</p> <ul style="list-style-type: none"> - acknowledge the local board on the "Our Partners" page of our website - invite local board members to maker-y fairs and expos - put local board logo on any advertising material - digital and non-digital - advertise this project "In partnership with the Papakura Local Board....." in marketing 		
Alignment with local board priorities	<ul style="list-style-type: none"> • help our young people to contribute prosper and thrive • support innovation and social enterprise <p>Maker-y ideology champions learning and innovation through making, testing and sharing knowledge. Enabling schools access to new creative digital technologies would allow students to be ready for the new workforce interacting with the internet of things and support the development of resilient problem-solving in our young people. Building maker-y capability in schools would align with Local Board Priorities by supporting students to prosper and thrive through the provision of more diverse digital literacy and process-driven problem solving which fundamentally lays the foundations for an innovative and entrepreneurial Papakura.</p>

If full amount requested is not able to be funded, would a smaller amount be of assistance?	We would provide the digital resources and expertise to the teachers and students but not to the full extent of time that the full amount requested would cover. For example, it may be that each school would get in-class support every fortnight rather than every week for the two terms.
