

## Upper Harbour local board – 2017/2018 Annual budget work programme (workshop # 3)

### Input and direction into 2017/2018 work programme: notes and follow-up actions

Activity name	Comments	CF Response
<b>Albany Hall</b>	Change Albany Hall to its historic name - George V Coronation Hall, Albany.	In the council asset register, the hall is called "Albany Village Hall". Research by the archives team shows that the halls original name was "Albany Coronation Hall" . Staff will amend in the asset register list to reflect this and the pipeline (work programme) will use this name so there is consistency.
<b>Meadowood Community House</b>	item 4- more information as to scope of works required item 5- more information required on scope item 6 - Which library does this work refer to?	Item 4 - baseboard replacement, exterior repaint including roof, repairs and repaint to entrance Item 5 - this centre has a heatbox system installed and cooling will be added to existing system Item 6 - this works refers to the main community library
<b>Albany Domain Reserve</b>	More information is required for courts and carpark works. Which area of the Domain does the work pertain to (there are two carparks that could be affected) the local board would like to see what is proposed for the court renewal and would like input into the design.	The carpark referred to here for the Albany Coronation Hall and the project involves re-surfacing. The court renewal is `like for like' to the existing court with enhanced recreational application. Staff will also replace the perimeter fencing.
