

**HGI Waste Plan Waiheke section- agreed Waiheke Local Board additions**

Goals	Key Actions	
	Community Will	Council Will
Investigate Opportunities for the reduction of cleanfill entering landfill sites on the island		Undertake research to quantify the average annual amount of cleanfill generated each year.
		Investigate issues related to cleanfill in terms of assessing capacity, infrastructure and feasibility for on-island solutions compared to off island solutions
		Investigate an exchange scheme for sites wishing to remove cleanfill to exchange with those requiring cleanfill
		Work with planners to find creative solutions to reduce removal of earth and redistribute fill on site
Investigate the issues related to road construction waste and opportunities for diversion		Work with Auckland Transport to investigate issues and opportunities to recycle road construction waste and identify actions that will enable this
