**Subject:** Grafton Mews proposal

Hi John

Thanks for your email of 31st July 2017 re the proposal to close off part of the existing roading system at the bottom of the Domain called Grafton Mews, as per the attachment above.

We feel that the Bowling Club and all those who work in Grafton Mews would be seriously affected by this proposal.

The existing access to Stanley street is an uncontrolled intersection that is ,at best, compromised.

The access via Domain Drive currently gives an option for traffic to exit via the Domain.

To close off this option should not be contemplated until the access to Stanley Street is improved with most likely the introduction of another phase to the lights and the widening of the access is made.

The additional loss of the existing car parks would also seem a very high price to pay to give better option to walkers and cyclist.

It is hoped other options are available and remain open to a comprehensive plan that addresses all transport issues in this location.

We look forward to having further discussions with those responsible for this proposal at your convenience.

Your faithfully

Greame Scott, Patron

And

Trevor Rands, Vice President
