

nature of your business	How long operating	what are the major parking issues
laughing and puns	10 years	
Promotional products distributor	6 months	the parking spaces on Beachfront Lane need to be marked as people hog 2 spots by parking inconsiderately which reduces overall numbers available. Need to have dedicated motorbike spots as you often find them hogging car parks when they could fit in the tiny left over spots.
Education	20 years	Too many people and too few car parks.
Travel Agent	25+ years	lack of free parking for staff and generally the lack of parking during the day especially around us where we have the bust stop out front.
Funeral Home	Since the late 70s	Tradesmen at the various construction sites using street parking. Surely the construction site should make parking available. Browns Bay is suffering already from this congestion particularly the elderly who attend the CAB and their facilities. The selfishness of the businesses in the Glen Road area who continually tow vehicles from their "private parks". They show no community spirit to the persons they tow. Serious consideration should be given to building a council owned multi-level carpark.
Chartered Accountants	25 years plus	There has been an influx of workers building the New World and the new apartment blocks, and there just isn't enough all day parking for people who work in Browns Bay. There is going to be another apartment block built in the near future too. Perhaps a parking building is needed?
We sell travel	20 years	We need a parking building.
Banking	15+ Years	too many timed parking zones
Travel Agency	25 years	Hard for staff to find free parking and also congestion just because of the number of cars in a small area.
Accounting	+ - 40 years	Time restrictions and not enough full day parks available for working staff
Optometrist	22 years	Harder for workers to find parks, people complaining that very hard to find parks yet more and more shops
Banking	??	Difficulty to find free all day parking within reasonable distance to the Branch. Staff start at all times of the day so most free parking is taken by the time some start.
accountancy	40 years	the shortage of all day parking for all the workers - happy to park there but with new world moving and all the gyms that all day parking is all ways full very early
Retail - Cupcakery	2	Lack of monitoring of the time zones, we are luck to have monitoring 1 day a week, for maybe half a day.
Op Shop	10 years	The council offices should be doing something to accomodate there customers who park outside the small bussineses across the road. The two supermarkets do not allow there staff to park in there parking areas so there staff park all around Browns Bay all day. This makes things very hard for the small bussineses in the bay who are already struggling to stay afloat. I think we should have had a paid highrise parking lot years ago.
Digital Printing	2004	People who work in Browns Bay parking in restricted areas and a general shortage of long-term car parks
retail	27 years	long term all day parking

Work / lesure (I also live in browns bay)	50+ years	In my view, not enough free parking for people working in browns bay all day. I find the parking fine if im going down to shop or on days off, can just drive behind ASB or near Acers sports bar. there is always a park there it never gets used. I think people don't know about it? its honestly always empty, apart from Sunday morning during market times.
Accountants	24 years	There are now many more cafe's, bars etc, which all require parks available for their customers. At night time that's fine, but in the day time, they are additional parks taken up and not available for staff, shoppers and beach goers. Maybe a several storey parking building instead of the current ground level carparks are what is needed. Also more apartments are being built, and I am sure that more will be in the future, creating even more people competing for the limited parking. /
retail store	40 years	Having traffic wardens scaring people away when they are shopping!
Fiancial services / banking	a very long time!	Not enough parking for everyone and very little all day parking for staff of businesses.
Butchery	2 years	There is allot of growth for new businesses but not enough parking. / With this growth there are also new people working in Browns bay and there should be more free untimed off street available for them.
Accounting practice	20+ years	Some peak times there is just not enough parking; often the beach parking is packed which deters people from visiting the beach; there is not enough all day parking for people working in Browns Bay
Hairdressing,	30 + years	Not enough parking we need more
Pharmacy	27yrs	The Esplanade/ Beach Lane should be made one way only and replace with angle parking so that we done have people using the parking on Clyde Rd when going to the beach for 4 to 5 hrs! Also Clyde Rd and Beach Lane should be regularly monitored for times of parking.
English school	25 years	Not enough all day parking - shoppers only park on Clyde Rd between Anzac and the Police Station as well as the two major supermarket car parks. Other parking areas outside this area should have longer limits!!!!
Engineering Consultancy	3 Months	Too few parking spaces and people being to lazy to walk from spaces further away.
Retail	33 Years	A general lack of public spaces.
International Education	27 years	Specially in Summer time, find a free space
Optometrist	20+years	Trade vehicles from apartment construction workers have and will continue to occupy many of the non-metered spaces. Also the many apartment residents are overflowing into the non metered zones intended for shop workers. / Consider only P30 and P120 zones in the main areas, this satisfies the pop in customer and those who have business to do and may stay and visit other shops
Supermarket	Since 1960's	There is a significant problem on Sundays with the Sunday Market but apart from that parking is generally quite adequate as is.

retailer	8years	i believe that if traffic wardens were visual around our streets,it would educate drivers,to be aware of their time limits...hence freeing parking up for all visitors to brownsbay.
Hair Salon	15-20yrs	Time restrictions. NOT ENOUGH PARKING!
Financial and Accounting Service	more than 20 years	There should be more unlimited parking in Browns Bay as there are increasing number of employees in Browns Bay due to increasing number of new businesses.
Accountants	23 years	not enough free all day parking for staff of businesses. traffic volumes have increased meaning more people competing for carparks.
hairdressing salon	8 weeks	
Optometrist	22 years	
Accountancy Practice	30+ years	
Professional	30+ years	
Banking	not sure - very many years
