

Reconciliation of final Watercare Statement of Intent 30 June 2017 with shareholder comments

Specific examples of collaboration with council group need to be mentioned.	New page has been inserted called "Working together with the Council group". Page 6.
Reference to balancing Watercare's operational needs should be deleted.	This has been corrected (page 3).
Collaboration to be committed to at an operational level, both with elected members and staff of Council, other Council-controlled organisations, and local boards.	Page 6, and pages 11-12.
Commitment to HIF.	Page 6.
Commitment to VFM agenda.	Page 6, in reference to s17A reviews.
Commitment to contributing to a three waters strategy.	Page 6.
Include reference to out of sequence urban development and working with Council on this issue.	Page 8.
Activities for the year in respect of demand management included.	Page 7.
Commit to a Māori responsiveness plan in 2017/2018.	Page 11.
Enabling growth section to be improved, with better strategic frame and timelines.	Expected completion dates (or milestones where that's more relevant) have been included.
Projects needed to service greenfield areas in FULSS decade 1 identified.	Map on page 7 does this, plus final paragraph page 7.
Commitment to joint decision-making on CANOPY (Central Auckland Network Optimisation Project) should be given.	Page 6 (reference to western isthmus water quality project, which is successor to CANOPY).
Climate change resilience plans to be more prominent.	Done. Whole of page 10 on this.
In respect of measures, explanation should be given as to why several	Further explanation through quarterly reporting and refinement

targets (e.g. sewerage overflow response time, complaints, wet-weather overflows) are significantly above achieved actuals for 2015/2016.	of measures through LTP will be required.
