### Local board views about air quality and sustainable lifestyles

In their 2017 local board plans, nine local boards identified specific opportunities, challenges and objectives that related to air quality or promoting sustainable lifestyles, as summarised below.

| Local board               | Opportunities, challenges and objectives identified in local board plans for 2017   |
|---------------------------|---|
| <b>Devonport-Takapuna</b> | <p><b>Objectives:</b><br/>Protect and enhance our natural environment</p> <p><b>Initiatives:</b><br/>Establish an Eco Neighbourhoods programme to create and maintain more sustainable lifestyles within homes and communities.</p>   |
| <b>Henderson-Massey</b>   | <p><b>Opportunities and challenges:</b><br/>New technology and new ways of thinking are creating new approaches to waste reduction, alternative energy and pollution prevention.<br/>Urban development and population growth are causing further strain on our environment.</p> <p><b>Objectives:</b><br/>People are central to maintaining our environment.</p> <p><b>Initiatives:</b><br/>Bring communities together at neighbourhood level through environmental projects on waste and pollution reduction, water and energy saving, and stream restoration and enhancement.</p> |
| <b>Hibiscus and Bays</b>  | <p><b>Opportunities and challenges:</b><br/>Access to retrofit programmes and other household initiatives contribute to a healthier environment.<br/>Growth and intensification will put more pressure on our environment.</p> <p><b>Initiatives:</b><br/>Continue to work with the community, volunteer groups, schools, iwi and businesses to protect and enhance the environment.</p>  |
| <b>Howick</b>             | <p><b>Opportunities and challenges:</b><br/>Raise awareness and provide more community education around sustainable practises, e.g. water butts, additional permeable surfaces, compost bins.</p>   |
| <b>Upper Harbour</b>      | <p><b>Opportunities and challenges:</b><br/>The use of best practice environmental and sustainable design principles, as well as utilising new technologies, should prevent or minimise negative environmental impacts from urban development and improve resilience to climate change.<br/>Upper Harbour's rapid growth is having a significant impact on our water, soil and air quality.</p>   |
| <b>Waiheke</b>            | <p><b>Initiatives:</b><br/>Foster sustainable living and healthy homes.</p>   |
| <b>Waitākere Ranges</b>   | <p><b>Objectives:</b><br/>Our visitors and residents make everyday sustainable living choices.</p> <p><b>Initiatives:</b><br/>Support local projects which make a positive difference to their environment.</p>   |

| Local board      | Opportunities, challenges and objectives identified in local board plans for 2017   |
|------------------|---|
| <b>Waitematā</b> | <p><b>Opportunities and challenges:</b><br/>In response to what city centre residents have told us, we will work to enable access to air quality information and champion sustainable transport options which reduce fossil fuel emissions.</p> <p><b>Objectives:</b><br/>Improve air and water quality and the health of our waterways</p> <p><b>Initiatives:</b><br/>Progress initiatives which improve air quality in the city centre and provide air quality information for our residents</p>          |
| <b>Whau</b>      | <p><b>Opportunities and challenges:</b><br/>We will continue to encourage more homeowners and landlords to take up the support available to install insulation, and address water and energy efficiency in older homes. This should also decrease household costs to our most vulnerable residents.</p> <p><b>Objectives:</b><br/>Whau is living more sustainably.</p> <p><b>Initiatives:</b><br/>Fund and promote environmental, waste minimisation and low-carbon activities and education programmes</p> |
