

Draft Council-Controlled Organisation Accountability Policy

1 The council's expectations for CCO's contribution to the council's objectives and priorities

Section 90(2) of the Local Government (Auckland Council) Act 2009 (LGACA) sets out the requirements of the accountability policy, and states that:

“(2) *The policy must—*

- a) *include a statement of the Council's expectations in respect of each substantive council-controlled organisation's contributions to, and alignment with, the Council's objectives and priorities.*
- b) *include a statement of the Council's expectations in respect of each substantive council-controlled organisation's contributions to, and alignment with, any relevant objectives and priorities of central government.”*

Central government departments have been involved in the development of plans and strategies of the council, including the Auckland Plan and the Auckland Transport Alignment Plan. Therefore, the objectives and priorities of central government are reflected in the expectations set out in this policy.

1.1 Common expectations

Auckland Council has a number of expectations of each of its substantive council-controlled organisations in respect of their contribution to, and alignment with, the council's objectives and priorities. Each substantive CCO is to meet the common expectations set out below and the specific expectations for each.

1.1.1 Build public trust and confidence in the council group

Each substantive CCO is to be response

ble for building public trust and confidence in itself and the council group. This is to be achieved by:

- Acting in the interests of all Aucklanders, both current and future.
- Recognising that the services and assets it may own or manage are public services and assets, which should be managed in the best interests of Aucklanders.
- Meeting the public's expectation of transparency and accountability, and always considering the council group's reputation.
- Improving the public's perception of transparency and accountability by tracking and reporting investment and performance data in a clear and accessible manner.
- Operating under a 'no surprises' policy, which means informing the council well in advance of any events, transactions or other issues that could be considered contentious or attract wide public interest, whether positive or negative.
- Ensuring excellent customer service, including understanding the communities it serves.
- Ensuring that any conflicts of interest or potential conflicts of interest (whether actual or perceived) are declared and managed appropriately.
- Providing transparent information about the activities and services it provides to the community.

- Including customers and communities in decision-making where appropriate, using the principles in the Significance and Engagement Policy.
- Being aware, as a public entity, of the need to be especially prudent around sensitive expenditure such as travel and entertainment, and ensuring that it only occurs where there is a justifiable business purpose.
- Engaging with central government on central government policy issues through the council parent (note that engagement on day-to-day issues that is in the normal course of the CCO's business does not need to be carried out through the council parent).
- Improving the recognition of ratepayer funding for public services and assets through the use of consistent, group-wide branding in accordance with the council's Brand Navigation Guidelines.

1.1.2 Provide value for money

Each substantive CCO is to ensure that it provides value for money for Aucklanders, which means achieving the outcomes and levels of service specified by the council as efficiently as possible. This is to be achieved by:

- Being accountable for decisions about spending and the use of council group resources and assets.
- Ensuring that all activities and services are underpinned by prudent use of resources and assets.
- Ensuring that there is a high degree of transparency in financial planning, budgeting, and sources of revenue.
- Informing the council well in advance of entering into any commitments or obligations that may:
 - have financial impacts which are outside of approved funding; or
 - negatively affect the group's prudential ratios¹ through a significant increase in group debt or reduction in revenue.
- Providing transparent information to Aucklanders on financial and non-financial performance to demonstrate value for money.
- Ensuring that there is a justifiable business purpose for all spending.
- Ensuring that investment is supported by robust business cases which meet the standards of any relevant group policies and provide a clear and strategic rationale for investment.
- Ensuring that the delivery of activities and services is as efficient as possible, and that corporate spending is kept to a minimum.

1.1.3 Building a group approach to achieve outcomes for Aucklanders

The substantive CCOs are to work with the council and with each other to achieve outcomes for Aucklanders. This is to be achieved by:

- Working together to align and achieve group strategies as set out in the Auckland Plan and prioritised through the Long-term Plan.
- Building and maintaining a culture of collaboration across the group to achieve the objectives and priorities of the council and to provide value for money.
- Open and transparent sharing of information where that is required to achieve outcomes for Aucklanders.

¹ The council has established prudential limits for the group that ensure borrowings (which can include things such as lease commitments) and interest expense do not grow too large relative to rates and other revenue. These are set out in Section XX of the Long-term Plan.

- Presenting a unified front with the parent and with other CCOs on key issues facing Auckland.
- Implementing agreed group policies such as those on Treasury, Insurance and Procurement², and participating in the development of any further group policies, for example 'Our Charter', which includes foundation principles and standards for staff behaviours.
- Participating proactively and constructively in efforts to achieve efficiencies and savings for the council group and make the most of its size and scale, including group procurement and the use of shared services.
- Acknowledging the council's wider policy settings in its own decision-making and considering issues from the perspective of the council.

1.1.4 Improve outcomes for Māori

The substantive CCOs are to give effect to the council's Māori responsiveness framework and foster more positive and productive relationships between the council group and Māori, develop the ability of the council group and its people to respond more effectively to Māori and contribute to Māori wellbeing by developing strong Māori communities in Tāmaki Makaurau. This is to be achieved by:

- Ensuring that the principles of te Tiriti o Waitangi, such as shared decision-making, partnership and mutual benefit, are applied consistently in activities and decision-making.

1.1.5 Health and safety

Each substantive CCO is to give effect to the group Health, Safety and Wellbeing Policy and Behaviours Statement. This sets out principles and behaviours to give effect to the health and safety vision of the group.

1.1.6 Manage risk appropriately

Each substantive CCO is to proactively manage all their risks including strategic, financial, operational, and reputational risks (including the risk of fraud and/or corruption). Each CCO must:

- Manage, monitor and report on their risk management activities undertaken in accordance with either the council's Enterprise Risk Management Policy and Framework, or the CCO's own risk management framework.
- Actively report on the effectiveness of their risk management processes and outcomes.

² The group policies on insurance and procurement were approved by the Finance and Performance Committee on 19 September 2017 (Resolution FIN/2017/121). The same committee approved the policy on treasury management subject to receipt of a signed service level agreement between Watercare Services Limited and Auckland Council on 21 November 2017 (Resolution FIN/2017/161).

- Proactively report on all significant risks and issues and their management to ensure no surprises, transparency and that the significant risks are being appropriately managed.

Section 2.5 contains specific reporting requirements relating to these provisions, including quarterly reporting and appearing before the Audit and Risk Committee for the purpose of addressing risk management and risks.

1.1.7 Understanding and giving effect to Auckland’s shared governance

Both the governing body and the local boards are responsible and democratically accountable for the decision making of Auckland Council.

The governing body has, among other decision-making roles, decision-making in relation to the governance of the council’s CCOs. Therefore the substantive CCOs are directly accountable to Auckland Council through the governing body, and the board of each CCO has a direct governance relationship with the governing body. The substantive CCOs should

- Understand the role of the governing body.
- Proactively build and maintain good relationships with members of the governing body.
- Actively engage with the relevant ward councillors on projects and issues within their ward areas that are likely to be of interest.

Local boards make decisions on local activities and services, and play an important role in representing local communities. The activities of CCOs are very important in local communities, and each CCO must ensure that it works effectively with local boards. The substantive CCOs should:

- Understand the role of local boards, both their role as local decision-makers and their responsibility to identify and communicate the views and preferences of the communities in its local board area.
- Proactively build and maintain good relationships with each local board.
- Consult with local boards genuinely and early in a way that allows them to influence decisions that may:
 - affect a local board’s governance role.
 - have a significant local impact (taking into account any mitigation measures).
 - require a CCO to undertake local or regional community consultation.

Substantive CCOs will need to recognise local interests while ensuring that regional priorities and strategies are achieved.

4.1 Definition and identification of strategic assets

Strategic assets are defined in section 5 of the Local Government Act 2002 (LGA) as assets that a local authority needs to retain if it is to maintain its capacity to achieve or promote any outcome that it determines to be important to the current or future well-being of the community. This includes:

- a) any asset or group of assets listed in the local authority’s Significance and Engagement Policy; and
- b) any land or building owned by the local authority and required to maintain the local authority’s capacity to provide affordable housing as part of its social policy; and
- c) any equity securities held by the local authority in—
 - a) a port company;
 - b) an airport company.

For the purposes of this policy, the council considers that the “current or future well-being of the community” means the economic, social, environmental and cultural well-being, and the health and safety of communities.

The strategic assets owned and/or managed by the council’s CCOs are any scheduled heritage buildings or structures and the assets set out in table 1.

Table 1 – Strategic assets owned or managed by substantive CCOs

4.2 Requirements in relation to the management of strategic assets by CCOs

4.2.1 Principles for the management of strategic assets

Each substantive CCO must manage the strategic assets set out in Table 1 in a way that:

- maximises the long-term benefit of the strategic assets to Auckland.
- gives effect to the expectations set out in Part 1 of this policy and the performance measures set out in this long-term plan.
- enables the CCO to achieve the objectives and performance measures set out in its statement of intent.

In making a decision about a strategic asset that may affect the council's long-term interest in that asset or the associated service delivery to Aucklanders, each substantive CCO must consider the following factors in relation to the proposal, in addition to any of its own considerations:

- the contribution of the issue or proposal to meeting the expectations set out in this policy and in the statement of intent.
- any impacts on the council's other objectives or priorities (both positive and negative).
- its consistency with the council's other plans and strategies, including area-specific plans.
- the likely financial impacts of the proposal, noting the opportunity cost of any investment or expenditure.

4.2.2 Additional requirements for Auckland Council Investments Limited

Auckland Council Investments Limited (ACIL) must:

- give effect to the council's Auckland Airport Shareholding Policy.

- not make any decisions that are inconsistent with that policy.

4.2.3 Shareholder oversight of significant decisions and major transactions

The table below sets out the approach to shareholder oversight of decisions about strategic assets and major transactions.

Table 2 – Shareholder oversight of major transactions and significant decisions

Where a CCO proposes to	The shareholder must be involved in the following way
<ul style="list-style-type: none"> • Carry out a <i>major transaction</i> (defined below) • Undertake an action or make a decision which may affect the council’s long-term interest in a strategic asset or the associated service delivery to Aucklanders and: <ul style="list-style-type: none"> ○ which represents or may represent a departure from an agreed strategy of the council; or ○ where there is no agreed strategy of the council 	Approval of the governing body of Auckland Council is required except where it is already provided for in the Long-term Plan. Note that some major transactions must be set out in the Long-term Plan. ¹³
<ul style="list-style-type: none"> • Undertake an action or make a decision which may affect the council’s long-term interest in a strategic asset or the associated service delivery to Aucklanders which is consistent with an agreed strategy of the council 	<p>Provide information to the governing body through a workshop or memorandum.</p> <p>Engage with relevant local boards to the degree required by the principles in Section 1 of this policy.</p>
<ul style="list-style-type: none"> • Undertake any operational action decision that are part of day-to-day business, or which implement agreed decisions 	<p>No governing body involvement is required.</p> <p>Engage with relevant local boards to the degree required by the principles in Section 1 of this policy.</p>

Where it is not clear if the proposed action or decision is consistent with an agreed strategy of the council, a CCO should engage with council staff to assess its alignment with the objectives and priorities of the council.

4.2.4 Definition of major transaction

For the purposes of this accountability policy, a “major transaction¹⁴” is:

¹³ Some decisions must be included in the long-term plan: section 97 of the Local Government Act 2002 requires that (a) a decision to alter significantly the intended level of service provision for any significant activity undertaken by or on behalf of the local authority, including a decision to commence or cease any such activity and (b) a decision to transfer the ownership or control of a strategic asset to or from the local authority must be consulted on during the development of a long-term plan.

¹⁴ Note that this is a different definition of “major transaction” to that provided for in the Companies Act 1993, which has different requirements associated with it.

- a) Any acquisition, disposal or replacement of a strategic asset, other than ongoing asset renewal in accordance with a CCO's asset management plan
- b) Any transaction or dealing in relation to a strategic asset:
 - o That will affect the asset's control (whether directly or indirectly)
 - o Reducing or materially affecting the asset's value
 - o Granting any legal interest in the asset to a third party
 - o That affects the CCO's or council's ownership of the asset
- c) Any long-term contracts for the development or operation of a strategic asset (being a contract binding the CCO to a term exceeding fifteen (15) years, including any renewals at the contractor's option)
- d) Any matters covered by Section 3.4 (rights and securities issues) or Section 3.5 (takeover offers, mergers and capital restructuring) of the Auckland Airport Shareholding Policy.

In relation to network infrastructure, a transaction only qualifies as a major transaction if it relates to any part of a network which:

- is integral to the functioning of the network as a whole, or
- substantially affects the level of service provided to the community.

A lease granted by a CCO on a strategic asset is not a major transaction if the lease:

- i. is granted in the ordinary course of the CCO's business on arms-length terms; and
- ii. does not exceed fifteen (15) years in duration (including any renewals at the lessee's option); and
- iii. does not exceed \$500,000 in rent per annum.

4.2.5 Situations where the council's approval may not be required

Where a proposal requires the approval of the shareholder according to Table 2 above, but is not material to the council's long-term interest in the strategic asset and the associated service delivery to Aucklanders, approval from the council may not be required. This can be granted at the discretion of the Mayor, Chair of the Finance and Performance Committee and the council's Chief Executive, according to the criteria in the council's Significance and Engagement Policy.

4.2.6 Process where the council's approval is required

Where approval of the council is required, it will be assessed against the following criteria:

- The contribution of the proposal to meeting the expectations set out in this policy and in the statement of intent, and other plans and strategies of council.
- The financial impacts of the decision.
- Whether the relevant CCO's Board has considered all of the relevant information which would influence the decision, including the risks and mitigations; and
- Any other factor that the council considers to be relevant.
