Recycling centre – social enterprise

Recycling centre creates jobs

RE
PURPOSE
DISCARDED - DESIRABLE

Community Recycling Centre

Open Thurs & Sat, 10am - 3pm

OUTCOME: THRIVING LOCAL ECONOMY AND GOOD JOB OPPORTUNITIES

Whakaotinga: He āhanga ā-rohe momoho me te whai mahi

Outcome: Thriving local economy and good job opportunities

Puketāpapa will enjoy the benefits of a strong local economy that provides better employment opportunities for everyone.

The local board has a development plan aimed at boosting the local economy. We will carry out its actions which seek to open up business and employment opportunities and foster innovation.

Whakaotinga: He taiao taketake ahurei me te manawanuitia

Outcome: Treasured and enhanced natural environment

Sustainable living

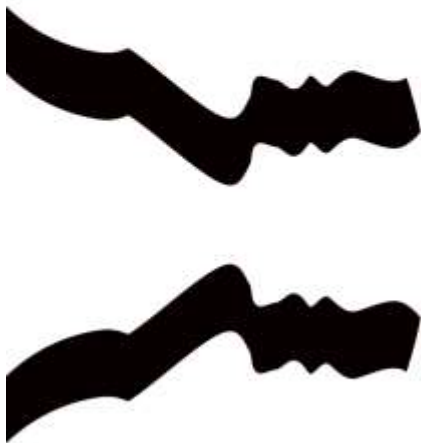

You've told us you like resources being reused and have pitched in with the reuse of materials removed from the former Mt Roskill Borough building. We'll support more local resource recovery like this.

The board is also working with other local boards on the Wai-ōrea community resource-recovery project in Western Springs, and advocating for a resource drop-off centre in Puketāpapa.

Working with our community, we're creating a low carbon action plan as one of our contributions to combating climate change. Cutting down our fuel use and waste will support Auckland's goal of being an energy-efficient and healthy city.

Challenges

- There is poor water quality in the Manukau Harbour and waterways.
- The Manukau Harbour coastline borders nine local boards, so a coordinated approach is required.
- Many pest and weed species are well established.
- There is low community participation in projects to decrease the amount of waste going to landfills.

About drop-off centre
