CLOVER PARK COMMUNITY HOUSE

Thank you so much for your support!
Otara Papatoetoe Local Board brief
By: Graeme Hansen, Yvonne Thomas
Date: Tuesday 17th April 2018
Ref: ATG activities and planned progress on OP sites.

East Tamaki
Close ties and on-going relationship with onsite Temple community, onsite and off.
ATG/Corrections 8 week programme recently completed, first for OP.
Police Youth plots and site training with Police onsite.
Poor light levels for produce growth and health, especially on northern boundary.

Middlemore
2K put to Middlemore Cres residents on education projects.
Solar power options.
Complaints on mentor performance in hand.
T Liew secures funding for specimen fruit tree planting on fencing boundary.

Charntay
Re-configured site plot design/arrangement for numbers increase. Potential site expansion to accommodate interest.
Solar power options.
T Liew secures funding for fruit tree planting on fencing boundary.

Stadium Reserve
TSI/Panuku/ATG Food Hub.
Long-standing plots allocated to local food bank, support in maintenance and production from the plots.
Significant damage sustained to site fencing from January storms, onsite ATG repairs to re-stand fallen fencing but this is not a permanent repair.

Auckland Teaching Gardens will protect Otara Papatoetoe's investment in the sites and resources, and the investment in ATG itself.
All sites suffering from poor response to contracted lawn mowing and maintenance.
Capital expenditure to improve site facilities for weather shelter from the elements for plotters and the public, will also improve storage capacity.
MM 2K project developed further for expanded off-site public education in conjunction with OPL8 targets.
All sites will pair off with local ECE, primary, intermediate and high schools; build the relationships and provide training onsite and off, provide plots if req, target 18/19 year.
Solar options mentioned means a basic off-grid solar package installed on those 2 sites for teaching facilities, charging stations for portable devices for the public on a as-needed basis, potential for emergency power in (disrupted) civil situations, targeted for 18/19 year.
ATG does not provide allotment plots, the aim is to provide the widest coverage per site for the local communities involved on the production, prep and cooking of good, home-grown food. Waste reduction techniques and strategies fit hand-in-glove with food production and will be provided to the communities.

Dawn Trenberth Report 17 April 2018

Our board had several big events this month. – the Diversity Festival and the opening of the Manukau bus station. The diversity festival was a fun event and will hopefully be the first of many celebrating the many cultures in our board area. The bus station is very impressive however there is still work to do in our board area and we need to have rail to the airport as well as out to Botany to meet the needs of our community. I also attended the Anzac day commemorations at Papatoetoe Central School.

I met with Leah Thompson at the Papatoetoe CAB and was very impressed with how they are progressing. They are now staffed with volunteers from Papatoetoe some of whom have now completed their training. They nearly have a full roster and will be able to resume full services of 9 to 4 in Papatoetoe from June. That will be much appreciated by people in our community. Great effort Leah and team.
