BEACH HAVEN CHILDRENS PLAY BOAT / FRANK’S BOAT

Lisbeth Alley, Stephen Chmiel + Ashleigh Johns
Beach Haven Placemaking Group
Opaketai Beach Haven Garden
Beach Haven Placemaking Group
Gateways + Signs
Beach Haven Placemaking Group
Murals
History

- Lifeboat from RMS Niagara
- Obtained by Frank Larking for use as a children’s play boat
- Placed on Beach Haven beach
- Maintained by Frank and the BBRA
- Enjoyed by generations of Beach Haven locals
Current State

• Rapid and visible deterioration
• Maintenance has been restricted in the past by water and currently by fencing
Current State
Proposals

- Work with KLB + AC
- Community Led Design
- Children’s Playspace
- Memorial to Frank Larking
- Use local resources to create a unique environment

To: The Chairperson and Members of Kaipatiki Local Board

From: Beach Haven Placemaking Group

With the support of Beach Haven Birkdale Residents Association

Re: The Beach Haven Children’s Playboat (aka Franks’ Boat) currently sited on Beach Haven Beach

The Beach Haven Placemaking Group offers to participate in the upcoming project to re-site the boat onto Larkings’ Landing and to restore the boat to a safe and sound condition, to enable it to continue to fulfill its purpose as the Beach Haven Children’s Playboat. The Playboat has been an icon in the Beach Haven community for over 50 years after being placed on the beach and maintained during this time by Frank Larking, who dedicated a large proportion of his life to improving and enhancing the Beach Haven environment. Frank died 10 years ago this coming October and there is a very strong desire in the Beach Haven Community for a lasting memorial to remember him and to recognise his efforts on our behalf. Re-siting and restoring the Playboat onto Larkings Landing will ensure the boat continues to fulfill its primary purpose as a creative and imaginative play space for future generations of Beach Haven children and create an appropriate memorial to Frank.

We are concerned that since the boat has been placed on the beach, it appears to be rapidly deteriorating with obviously widening cracks in the hull and chunks of concrete falling off. We
believe that action to support and preserve the integrity of the hull is urgently required, ideally before more winter storms impact.

As you know, the Beach Haven Placemaking Group has, since formation in 2010, completed several significant and successful projects in collaboration with the KLB, Auckland Council, Auckland Transport and the Kaipatiki Community Facilities Trust to improve the Beach Haven environment for the benefit of the Beach Haven Community. These projects include:

- The Rangatira Road and Beach Haven Road gateways
- The design, funding, construction and mounting of the Beach Haven Signs at the entrances to Beach Haven Village
- The Murals on the side walls of Rangatira Pharmacy and Harcourts
- Opaketai Beach Haven Garden

Beach Haven Placemaking Group continue to maintain Opaketai Beach Haven Garden community gardens and planter boxes, have created and maintained the garden on the Rangatira Walkway entrance into Beach Haven Primary School, and continue to work with all agencies necessary to ensure the best outcomes possible to suit the Beach Haven community’s needs.

We have consulted with several specialists involved in moving/lifting boats and have received advice that they are keen and able to work with us to complete this project. We have also begun brainstorming ideas for enhancing the play space around the boat once it is securely re-sited which will also emphasise the natural marine environment and facilitate creative play. We share some of those ideas with you today.

Frank’s Boat has been maintained over the past 10 years or so by several dedicated local men, with support and funding from the Beach Haven Birkdale Residents Association (BBRA). The BBRA and the Placemaking Group is committed to ensuring the boat will be carefully maintained once the restoration is completed.

We believe that restoration of the boat to create a safe and exciting play space for the children of Beach Haven is feasible and viable. We offer to work with the Kaipatiki Local Board (KLB) and Auckland Council to ensure a community driven and supported result.

Thank you for inviting us to present our ideas to the KLB today and we look forward to working with you in a very collaborative and productive process, to enable a truly successful outcome for the Beach Haven community.

Yours sincerely,

Lisbeth Alley - Chairperson, Beach Haven Placemaking Group

Ashleigh Johns – Landscape Architect, Beach Haven Placemaking Group
Steven Chmiel - Chairperson, Beach Haven Birkdale Residents Association

Experience and Community
Three steps to encourage and enable Cycling in Kaipātiki for all ages and abilities

Events & Bike Gala

Facilities

Infrastructure
Cycleways for Transport

- Safe
- Direct
- Connected
- Continuous
- Maintain Priority

"Build it and they will come..."
**Glenfield Road Corridor Current Situation**

- 5.4 Km total length
- 2.0 Km with cycle lanes
- No connection between Glenfield and Highbury centres
Glenfield Road Corridor

Future Situation

- 5.4 km total length
- 3.4 km with cycle lanes
- Final 2 km between Glenfield and Highbury centres still to connect
Glenfield Road

Alternative Proposals

- Steeper
- Less direct
- Not all-weather
- Loss of priority at crossings

But most of all

Not connected
## School focus

</tr>
<tr>
<td>Northcote Intermediate</td>
<td>3%</td>
</tr>
</tbody>
</table>

Why? Three key components:
- Core cycling infrastructure – Devonport Lake Rd cycle lanes
- Off-road links (Takapuna Grammar/BIS linkage, Western Green route)
- Quiet traffic-calmed streets (Winscombe St & Seacliffe Ave)

We can do the same for Northcote Intermediate. Here's how we start

Future Activities (to be arranged)

- Winter maintenance training sessions (indoors)
- Pub / Café meetings to canvas members and arrange next summer’s programme
- Kaipātiki Bike Gala planning – a bigger, better gala with possible shift to spring
Connected Kaipātiki

**Current Situation**
(assuming completion of the Northcote Safe Cycle Route)

The east of the area is connected via a network of existing cycleways, augmented by the Northcote Safe Cycle Route.

Some unconnected cycleways also exist in the north of the area.

**Next Steps (2020)**

Bike Kaipātiki would like to see the existing infrastructure leveraged by connections being made between the isolated infrastructure.

This involves the Glenfield Road corridor to connect both Glenfield and Highbury to the network and closing the small gap from the Wairau valley up Wairau Road.

Meanwhile, Skypath and Seapath add even more connections in the east.
Connected Kaipātiki (continued)

Complete Network (2030 +)
By filling the gaps and extending the network in small, manageable projects, a complete cycling network will emerge.

By concentrating on the routes between the main centres, transport hubs and schools, most of the Kaipātiki area is covered.

Local Connections
As each part of the main network is completed, the possibility exists to improve local connections. By using connecting walkways, upgraded paths in parks and traffic calming, walking and cycling access to schools can be improved.

Bike Kaipātiki believes this should be centred around intermediate schools and colleges, where pupils are of an age range to travel independently, but safety advantages will flow on to primary schools also.
