Project: Counselling service for Older Adults

Location:	Cambria Park Homestead, 250 Puhinui Road Papatoetoe		
Summary:	<p>It is recognised that older people often experience numerous changes and challenges of aging, such as health issues, relocating, death of a spouse, family concerns, relationship issues, and may experience stress, depression, and anxieties a result. Since 2013 we have provided a counselling service to older adults in a number of wards in South Auckland thanks to the support of local boards. We want to continue to offer this to older residents.</p> <p>Counselling can be effective in minimising or preventing the need for referral to mental health services even while older people are on medication for anxiety and depression. One manager of a retirement village mentioned that the majority of women entering the village are on anti-depressants.</p>		
Dates:	02/07/2018 - 28/06/2019	Rain dates:	-
People delivering:	1	People reached:	150
Promotion:	Not stated The service is advertised in our newsletters, on our website and Facebook pages as well as neighbourly local papers and word of mouth and referring agencies.		

Community benefits

Identified need:

Thanks to the Auckland local boards in our Counties Manukau region we have been able to provide the counselling service for 4 years and we have continued increased demand for the service over this period. It provides a means to access counselling for older adults in our region who may not be able to access it any other way. Our Elder Abuse social workers have found the ability to refer their clients to a counsellor for additional support has been extremely valuable

Identified community outcomes:

Older people their carer and whanau have increased wellbeing when they are supported and able to access counselling. Counselling is a way to work through a variety of issues e.g.: dysfunctional relationships, grief and loss, abuse and isolation and carer stress.

This improves the wellbeing of the older person undergoing counselling and the wellbeing of their whanau, carers and community as a whole.

Alignment with local board priorities:

Howick

- Share and celebrate our culture through events
- Increased participation of people in sport, leisure and recreation activities

Culture comes in many forms; it is not just about ethnicity. There is culture of ages and we need to

celebrate the older people in our communities and value the contribution they make to our society by meeting their needs. Howick has the largest population of older people in South Auckland. Ageing is a matter that affects all of us. In a world in which life expectancy is increasing at the rate of over 2 years per decade, the need to prepare for these changes is both urgent and timely.

Māngere-Otāhuhu

- neighbourhoods and communities feel safe and connected across diverse cultures
- increased community capacity to prevent harm from alcohol, drugs and substance abuse

Providing information, support and services for older people their whanau and carers contributes to a safe connected community across diverse cultures. Ageing is a matter that affects all of us. In a world in which life expectancy is increasing at the rate of over 2 years per decade, the need to prepare for these changes is both urgent and timely. A number of issues raised with our counsellor often are because of alcohol, drugs and substance abuse by family members.

Manurewa

Financial information

Amount requested: \$64500.00

Requesting grant for: Contribution towards the cost of providing the counselling service to older adults. Wages, travel, supervision and overheads.

If full amount requested is not able to be funded:

The salaries are the essential component. We run a tight ship with low overheads and deliver high quality services. In this application we have shared the cost across 5 local areas (as the 6th board's funding round is not open yet). This service has proved essential since being delivered so will definitely try to continue to deliver it should you only part fund the grant requested but obviously our preference would be to receive the funding requested to enable at least some of the older people resident in your board areas to access this valuable resource.

This includes food grants, rent arrears, and emergency housing. 65 people/ whānau are supported at each of those offices every Thursday and Friday and more are taken to surrounding W&I offices in South Auckland. Over 130 people are supported through this activity each week. The people we see consistently tell us that without our support they are unable to access their lawful entitlements and meet their immediate needs.

Community benefits

Identified need:

Our South Auckland advocates are seeing around 5000 people a year at the Manurewa and Clendon Work and Income Offices, and assist these people to get their full entitlements from Work and Income. The need for benefit assistance and advice in the South Auckland area is significant and AAAP are seeing more people access our service from this area.

Identified community outcomes:

The best way to ensure the safety of a community is to support a safety net for community members to improve their life outcomes and well-being. Our benefit advocacy service assists whānau to access their legal entitlements from Work and Income including access to food grants and emergency accommodation. We support a diverse range of whānau from diverse ethnicities. The majority of people we work with are Māori and Pasifika. We also work alongside new migrant whānau and refugees to access their full entitlements. Many of the people who come to see us are from the Māngere-Otāhuhu area.

Alignment with local board priorities:

Māngere-Otāhuhu

- neighbourhoods and communities feel safe and connected across diverse cultures

The best way to ensure the safety of a community is to support a safety net for community members to improve their life outcomes and well-being. Our benefit advocacy service assists whānau to access their legal entitlements from Work and Income including access to food grants and

emergency accommodation. We support a diverse range of whānau from diverse ethnicities. The majority of people we work with are Māori and Pasifika. We also work alongside new migrant whānau and refugees to access their full entitlements. Many of the people who come to see us are from the Māngere-Ōtāhuhu area.

Manurewa

- activities that are aimed to improve the overall wellbeing of the Manurewa community;

We provide a beneficiary advocacy service which meets whānau where they are to increase access to Work and Income entitlements. This includes having advocates outside Clendon

Work and Income, just west of Manurewa, every Friday to support people getting access their legal entitlements including accessing food grants and emergency housing. We see over 65 people every Friday mainly from Manurewa, but also from other suburbs in South

Auckland who need assistance but are denied from their own Work and Income office.

Ōtara-Papatoetoe

- Enable young and old to participate in employment, education, training and community service

A community can only thrive when the people that make up that community have access to resources necessary for their sustained wellbeing. AAAP offers practical support at Work and Income offices, predominately in South Auckland. We assist people with Work and Income to ensure whānau can thrive and fully participate in their community. We provide advocacy assistance with rent arrears so whānau are not evicted, advocacy for food grants so children can fully engage in schools, and essential household items such as fridges and washing machines.

Papakura

- help our young people to contribute prosper and thrive

The best way to ensure youth can prosper and thrive, is to ensure that their whānau have access to basic necessities and financial resources to house, cloth and feed young people. AAAP provides benefit advocacy for whānau to ensure they can participate and thrive through accessing entitlements from Work and Income. Without access to economic resources, parents are unable to provide the necessities for youth to prosper.

Community benefits

Identified need:

- Yes, Kids for Kids acts as a great event to help introduce children to the creative arts, with each event creating a sense of community and pride amongst all involved, teaching our kids on what it means to be a kiwi.
- In the past we only visited each region bi-annually across NZ, however, the overwhelming support of schools asking for the event to be produced in Auckland-South annually was overwhelming (evident with 42+ schools, 1300+ children participating + performing in Kids for Kids).
- Feedback from teachers thanks the Kids for Kids team on making the event so enjoyable for all involved, with comments on how valuable the event is as part of introducing their students to kiwi

music and creative arts.

Identified community outcomes:

- Approximately 2000 primary aged children from 50+ schools will participate in our Kids for Kids South Auckland event, with 50% of children involved experiencing and participating in a creative show like this for the first time. (We are adding another show day for three performances in 2018 after two in 2017).
- Introduce all primary aged children to NZ Music through our 'Kiwi As' theme. (All songs performed are written and produced by New Zealand artists).
- Assist primary school-aged children to develop self-confidence and teamwork skills through their participation in Kids for Kids concerts;
- Encourage primary school aged children to acquire knowledge and skills in choir performances, becoming musically aware and appreciative of kiwi songs;
- Educate and inform primary aged school children about global citizenship through their participation in Kids for Kids.
- Advance and promote global citizenship within the community by encouraging schools and communities to participate in the Kids for Kids concerts.

Project: LifeKidz Trust - Support Workers Wages

Location:	The Depot, Sir Lloyd Elsmore Drive, Highland Park, Auckland		
Summary:	LifeKidz Trust provides after school and school holiday programme care for children with disabilities and special needs, in doing this we are also allowing families to have much need respite. We have an amazing team of youth workers that support the children in our programmes, without these guys and girls we wouldn't be able to run the highly successful programmes that we have done for the past 14 years.		
Dates:	01/06/2018 - 31/12/2018	Rain dates:	-
People delivering:	60 plus	People reached:	300 plus
Promotion:	Not stated Within the Auckland media and in all newsletters to schools, families and caregivers. On website, in brochures and flyers, these get sent out to a very wide area.		

Community benefits

Identified need:

There is a desperate need in the entire Auckland area for programmes for children and youth with special needs/disabilities to attend during holidays and after school, we have been in operation for over 14 years and get more and more families requesting our services than ever before. We have families travelling from all over the Auckland area to attend. We also know there is a major gap in the services for transitional programmes for young adults leaving school. We have fabulous facilities available to us to run a programme and the knowledge of what is required for it to be successful and rewarding to those that will be attending.

Identified community outcomes:

The community will benefit by having a well-established programme for children and youth that is set in a positive environment, it is encouraging, rewarding and promotes a sense of belonging. The need for our service is crucial to families so that they can have the respite needed when trying to need the demands of special needs/disabled children. Unlike other programmes we have a very high ratio of support workers to children, in receiving this funding we are also able to continue offering rewarding employment opportunities to the youth of Auckland, and to provide them with the training to continue along the path of working with children who have disabilities should they wish.

Community benefits

Identified need:

The demand for LiteClub is huge: 117 clubs registered and are waiting for our service, including 10 of the 42 nominated clubs in this application. Community sports clubs are facing difficult financial times. Many are experiencing membership decline, decreasing profits from bar facilities, and club operating costs are rising. Leading scientists conclude that we're depleting Earth's resources faster than nature is able to replenish them. LiteClub is measuring genuine impact reductions by reducing electricity consumption and emissions from waste sent to landfills.

Identified community outcomes:

By implementing the 42 community sports clubs across the Pukatapapa, Otara-Papatoetoe, Henderson-Massey, Mangere-Otahuhu, Howick, Hibiscus & Bays, Devonport-Takapuna, Kaipatiki, Waitemata, Albert Eden, Maungakiekie-Tamaki, Orakei, and Franklin Local Board areas approximately 18,000 club officials and club members will be exposed to our messages. We believe these people and their clubs will benefit in terms of: Improved infrastructure for community sport; reduced electricity, water and waste disposal costs for clubs; improved human health and safety; improved aesthetics and functionality; enhanced 'feel good' via Litefoot Ambassadors inspiring change; enhanced cultural awareness of sustainability issues; increased awareness and uptake of electricity, water and waste minimisation practices.

Financial information

Amount requested: \$36727.00

Requesting grant for: So far, we have received \$50,846 towards the general costs of the implementation from Auckland Council's RENH grant, New Zealand Community Trust, and J A Redwood Trust. In this application we request that the respective Local Boards consider funding a contribution towards the overall costs of the project. The costs include salaries, materials installed at the club, administration costs, travel costs, and promotion.

If full amount requested is not able to be funded:

If we cannot raise the \$129,559 that we require to implement 42 clubs then we will reduce the number of clubs that we implement based on the level of funds that we are able to raise.

A general contribution of any level towards the cost of implementing the 42 community sports clubs would be very much appreciated. Any level of contribution will assist us in helping clubs in Auckland save money on their bills and reduce their environmental impact.
