Local Board Event		Tuesday, 6 March 2018 - Waiheke LB HYS Roundtable - 10 Belgium Street 5.30pm-7.30pm				
Date Received from Event Lead		No of Attendees				
		11				
Name/Org (optional)	Comment	Question Type	Theme	Count	Topic	Subtopic
	Council were acknowledged for the development of the Waste Plan, noting a collaborative effort and approach was used.	WMMP - Form Questions	64.0 Q1 Waste outcomes	1	_64.7_Q1_other comments	
	KDD should be nationally funded.	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	If KDD is the priority, what happens to other priorities? The documents don't mention what will be cut due to KDD costs. Need to demonstrate the outcomes from previous Pest Management Plans. Where is the evaluation e.g. what was achieved for the funding and what wasn't. What were the learnings. It looks like the last plan failed. Very difficult to provide feedback otherwise.	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	Auckland Plan should address carbon neutral targets and priorities	APR - Form Questions	10.0 Q5 Protecting and enhancing our environment	1	_10.4_Q5 Protecting and enhancing our environment - other comments	
	We need to ensure businesses (e.g Fullers) pay their fair share on the Environmental targeted rates. It is a priority for citizens of the Gulf to understand Seachange. It is a powerful tool which will make an impact on our marine environment. How will the document be implemented? Suggest tax on commercial fishers.	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	Submission forms are very simplistic, there isn't a lot of space to suggest other priorities or broader feedback. Complex answers don't get considered.	LTP - Regional	42.0 Regional planning	1	_42.9_Air, land & water monitoring & management	
	Transport priorities do not mention climate change impacts / carbon neutral targets e.g. electrical vehicles and limiting number of vehicles. Broad generalities are not appreciated or useful.	LTP - Regional	49.0 Rating and funding	1		
	Transport priorities do not mention climate change impacts / carbon neutral targets e.g. electrical vehicles and limiting number of vehicles. Broad generalities are not appreciated or useful.	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	85% of public transport fleet to be electrified to meet carbon neutral targets.	APR - Form Questions	10.0 Q5 Protecting and enhancing our environment	1	_10.4_Q5 Protecting and enhancing our environment - other comments	_10.4.2_ Protecting and enhancing our environment - Other - climate change and greenhouse gas
	85% of public transport fleet to be electrified to meet carbon neutral targets.	APR - Form Questions	9.0 Q4 Moving easily around Auckland	1	_9.4_Q4 Moving easily around Auckland - other comments	_9.4.1_Moving easily around Auckland - Other - Overall transport vision
	Every house on Waiheke is already invested in water quality	APR - Form Questions	10.0 Q5 Protecting and enhancing our environment	1	_10.4_Q5 Protecting and enhancing our environment - other comments	_10.4.2_ Protecting and enhancing our environment - Other - climate change and greenhouse gas
	There is no mention of sedimentation / siltation in the plan	APR - Form Questions	9.0 Q4 Moving easily around Auckland	1	_9.4_Q4 Moving easily around Auckland - other comments	_9.4.1_Moving easily around Auckland - Other - Overall transport vision
	We have an increasing number of cars that impact our environment. We need a vision to move to electric cars.	APR - Form Questions	2.0 Q2 Water quality targeted rate	1	_2.3_Q2 Water quality targeted rate - Other	
	We have an increasing number of cars that impact our environment. We need a vision to move to electric cars.	APR - Form Questions	2.0 Q2 Water quality targeted rate	1	_2.3_Q2 Water quality targeted rate - Other	
	Roading pollutants become waterborne, resulting in increased pollution and heavy metals washing into the harbour. Needs addressing	LTP - Form Questions	10.0 Q5 Protecting and enhancing our environment	1	_10.4_Q5 Protecting and enhancing our environment - other comments	_10.4.2_ Protecting and enhancing our environment - Other - climate change and greenhouse gas
	Roading pollutants become waterborne, resulting in increased pollution and heavy metals washing into the harbour. Needs addressing	LTP - Regional	9.0 Q4 Moving easily around Auckland	1	_9.4_Q4 Moving easily around Auckland - other comments	_9.4.1_Moving easily around Auckland - Other - Overall transport vision
	Roading pollutants become waterborne, resulting in increased pollution and heavy metals washing into the harbour. Needs addressing	LTP - Regional	36.0 Roads and footpaths	1	_36.3_Other roading comments	
	Herbicide spray becomes waterborne and washes into our harbours. Needs addressing	LTP - Regional	41.0 Storm water management	1	_41.1_Urban stormwater quality and pollution	
	Herbicide spray becomes waterborne and washes into our harbours. Needs addressing	LTP - Form Questions	2.0 Q2 Water quality targeted rate	1	_2.3_Q2 Water quality targeted rate - Other	
	Boat cleaning - airborne pollutants / chemicals settle on roofs which provide water to tank. Needs addressing	LTP - Form Questions	2.0 Q2 Water quality targeted rate	1	_2.3_Q2 Water quality targeted rate - Other	
	Can we see a targeted rate for parking wardens	LTP - Regional	41.0 Storm water management	1	_41.1_Urban stormwater quality and pollution	
	Environmental protection should be a core part of council service	LTP - Regional	44.0 Solid waste and environmental services	1	_44.2_Environmental services	
	Opposed to ring fencing specific environmental funding. It should be core-funded not an optional extra / add-on	LTP - Regional	49.0 Rating and funding	1		
	Support intensification in areas where infrastructure exists but where areas are already paying for wastewater systems shouldn't have to pay regionally as well	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	Would pay the extra \$66 if I knew it would come back to Waiheke to assist with clean-up of local streams	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	Have spent extensive funding on own septic systems to ensure these work correctly. Happy to spend the \$66 to make sure other septic systems work. There doesn't seem to be flexibility, i.e. for another KDD type issue. Ring fencing for KDD means it can't be changed for 10 years. The 10 year budget needs flexibility to be adjusted when required.	LTP - Form Questions	2.0 Q2 Water quality targeted rate	1	_2.1_Q2 Water quality targeted rate - Support	
	Should Air B&B be a permitted activity at all? There are impacts on local residents. It seems council are encouraging this activity and then asking for money for it.	LTP - Form Questions	2.0 Q2 Water quality targeted rate	1	_2.1_Q2 Water quality targeted rate - Support	
	Seems like an indulgence to pay a targetted rate to allow noisy visitors in a quiet residential street. Isn't enforcement a better option potentially?	LTP - Form Questions	3.0 Q3 Funding environmental initiatives	1	_3.4_Q3 Funding environmental initiatives - Other	
	Waste tonnage per person on Waiheke is more like 750kg rather than one tonne, and much of this is commercial	LTP - Form Questions	5.0 Q5 Online accommodation provider targeted rate	1	_5.3_Q5 Online accommodation provider targeted rate - Other	
	Bulk of subsidy for Waiheke waste cost is commercial activity. There needs to be programmes to reduce commercial waste.	LTP - Form Questions	5.0 Q5 Online accommodation provider targeted rate	1	_5.3_Q5 Online accommodation provider targeted rate - Other	
	Bulk of subsidy for Waiheke waste cost is commercial activity. There needs to be programmes to reduce commercial waste.	LTP - Form Questions	69.0 Q6 Hauraki Gulf Islands	1		
	Good thing to remove food waste from general rubbish	WMMP - Form Questions	69.0 Q6 Hauraki Gulf Islands	1		
	A Resource Recovery Park on Waiheke would focus on 'Reduce' rather than 'Dipose'	WMMP - Form Questions	65.0 Q2 Commercial waste management	1		
		WMMP - Form Questions	66.0 Q3 Waste reduction	1	_66.5_Q3_Strongly agree	
		WMMP - Form Questions	69.0 Q6 Hauraki Gulf Islands	1		

Resource Recovery Park is important language (rather than Community Recycling Centre). Council spent \$1m from a targeted rate for property purchase and design of a Resource Recovery Park on Waiheke. This needs to be progressed.
 We have an on-island waste reduction solution - Engineered composite board. Seeking council support for a pilot plant and to approach central govt together to trial composite board prior to 2020.
 Otherwise a good Waste plan. Not so happy with co-mingle drop off. Local processing is the solution, other we are dependant on the price of diesel and when the barge comes in.

Submitters want the right to be heard with verbal submissions / hearings
 Stakeholder groups have previously had the right to meet with councillors. How does one individual get heard?

Want to see detail on what will or won't be funded under targeted rate option - i.e. what will suffer as a result.

Want to see detail on what will or won't be funded under targeted rate option - i.e. what will suffer as a result.
