Events	John	<p>MYC 6th Birthday Party Evaluation: Issues 1) The turnout wasn't good (only 4-8 people from the community came), 2) The peeps that turn up were quite young, which made it awkward and harder for us to manage as that youth was not the target audience, it was also hard to tell if they knew about the event through our promotions (facebook) but still appreciate them for coming, 3) The interaction with guests was good, but could've been better 4) There was lack of purpose that could be the reason for our turn out 5) Going over budget ;</p> <p>Potential Improvements: stronger in promotion, stronger in the event's purpose, stronger in interaction, to consider the target audience of each event and make sure its not too generic: e.g. youth, event leads to supporting the treasurer by planning on and when the spending and sticking to the planned budget ; Ideas on further events: mental health awareness, pride month/ self expression, talent show, study group; discussed in depth on vision/outcome on what we want our mental awareness event, ideas: have practical workshops, guest speakers who inspire and make us leave the room learning something new about themselves and each other, a guest speaker who educate boys and men about mental health, educate how to handle difficult problems, talk about how youthline split off the audience into smaller groups and each working on a workshop and having breaks, decided a subcommittee on a mental awareness event (Matthew, Sally, Harleen, Thomas, Adrienne, Tui, Quinita, Fa'apaia, Janny) ; Sarah discussed on having a conference for the youth council to 1) enlighten that flame on inspiration and motivation 2) to educate us on how to deal with people in need, Sarah will keep updating on further details and dates</p>	Move that we accept the presentation and will support it	Quinita
