Road Safety for Walkways and Crossings

Presented by: Mr Peter Conroy (School Principal)
Mrs Jenna Jacobsen Toeono (Parent Representative)

On behalf of all the children, staff, whanau, aiga, parivar of Papatoetoe North School and the local community

Otara-Papatoetoe Local Board Meeting: Tuesday 21 August 2018, 5pm
Severe flooding at Papatoetoe North School
‘On a good day’

- 940 children (school roll)
- Rapid Water flow.
- Pupils taking run ups to jump over the flow onto the crossing.
- Pupils standing up to their mid calves.
Narrow footpaths – constant flooding

- Mr Conroy's Office door 900mm
- Huge puddles directly on the footpath
- Limited space – Parents with prams, older siblings holding hands with younger siblings.
- People forced to walk on the verge – Hazardous surfaces directly next to moving vehicles

"The existing grass berm provides good separation between the footpath and road side and NO CHANGES TO THESE ARE CONSIDERED BENEFICIAL."

At Traffic Engineering Team, 28 June 2018

Indicated area flood zones: BOTH FOOTPATHS AND ROAD

1200MM wide
Directly outside the school gate
Correspondence with Auckland Transport

Papatoetoe North Requests

1. Fix flooding issues
2. Removal of grass verges
3. Fence/Barrier near the entry gate
4. Judder Bars
5. Raised Zebra crossing
6. No stopping signs/ yellow lines
Mr. Conroy – contact David (Project Manager - South) directly during rainy days when the issue is worse so they can investigate further.

Low Priority in South Auckland – Walking and cycling projects
Manukau Courier 24 July 2018

Associate minister pushes for more walking and cycling in south Auckland

Jarred Williamson
Last updated 16:52, July 24 2018

Genter said there were some plans, but had previously been made "a low priority" by Auckland Transport. "We see a real opportunity to make a huge difference to some of the communities in south Auckland by making it a priority to have safer walking and cycling," she told Stuff.

"There is a lot of severance," she said. "The community is not doing it because the infrastructure is not there."
Our Reality at Papatoetoe North School

Forever it's been the south that are the ones that have to suffer,” he said. “The wealthiest suburbs are looked after and we in the south are getting dumped on”.

Ótara-Papatoetoe Local Board deputy chairman Ross Robertson echoed that sentiment in a recent board meeting.

Safe walkways is what we need!

Pictures of Suburbs outside of South Auckland with the necessities of safe walk ways and crossings.
An example of our reality

“It is not best practice to concrete the berm and install a fence as this could create further safety hazards with children climbing over the fence and additionally could reduce car park availability with cars being unable to park on the road side where the fence is in place”.

AT Traffic Engineering Team 28/6/2018
QUESTIONS?

Thank you for the opportunity to present this evening.

Fakaauie Lahi, Kia Mōuina.

PAPATOETOE NORTH SCHOOL
Tuesday 21st August 2018

Greetings Otara Papatoetoe Local Board Members,

Thank you for the opportunity to meet and present our concerns for the road safety of our children and whanau that attend Papatoetoe North School. Our school population consists of over 900 pupils with over 50 staff members.

An appendix of my correspondence with Auckland Transport is attached for further reference showing communication commencing from 2016. Including the powerpoint presentation as well.

The key actions that we need assistance with are:

1. To resolve flooding issues which occur through the main Graeme Ave entrance of Papatoetoe North school, which include footpaths on both sides of the street and the road itself.

2. Fully concreted berms which widen our footpath for our children to walk on, providing for a safer walking environment.

3. A fence at the bottom of the school footpath installed to stop children running/tripping and ending up on the road. It would only need to be as wide as the gateway. Where the proposed fence would go is directly is where broken yellow lines are currently.

I trust that you will hasten actions towards helping to resolve these issues presented this evening. With the current situation that we are in at Papatoetoe North I fear that there is a disaster just waiting to happen. Please make these actions a priority in ensuring the safety of our children, whanau, parivar, aiga and wider community.

I am happy to be contacted to address any concerns or questions that you may have.

Yours Sincerely,

Mr Peter Conroy (Papatoetoe North School Principal)

Local Board Report August 21 2018.

Dawn Trenberth

This has been a busy month. Were many highlights One of these was the opening and blessing of the Te Puke Otara facility. It was a great day – a very joyful occasion for the community.

Another was the visit with the Manukau Harbour forum to the water care treatment plant in Mangere. It was great to learn about the innovative ideas that are being developed to treat our wastewater and keep our harbours clean. I also learned about some of the issues they are facing. The only things that should be flushed down the toilet are poo, pee and toilet paper. Anything else is hard to process and is quite a problem. There is a real problem with baby-wipes being marketed as flushable. You may be able to flush them but they do not break down easily and are a real problem with processing the products and returning them to the landfill.

I visited the tree planting event at the Puhinui reserve and was very impressed with the enthusiasm and hard work of the volunteers many of whom were Auckland Council employees and also the defence force members who provided transport.

I also enjoyed the enviro schools visits and was pleased to learn about all the initiatives being taken to help children learn about the importance of being kaitiaki of our environment. The enthusiasm and extra work put in by teachers to keep these projects going is to be congratulated. We visited Papatoetoe East School, Dawson Rd Primary and De La Salle college. I hope one day that enviro-schools will be a compulsory part of the curriculum supported by the Ministry of Education. The 50s fashion exhibition organized by the historical society was another highlight which was a pleasure to attend.

The Papatoetoe Markets have been very slow in getting stall holders and this has been disappointing to residents who are very keen for the markets to succeed. I hope that there will be more stall-holders keen to give it a go so the Papatoetoe residents can enjoy their own local markets.

17 July Papatoetoe Historical Society.
20th July Mangere Wastewater Treatment site visit.
21 July Opening and blessing of the refurbished Te Puke Otara facility.
24 July Auckland South Citizenship Ceremony.
Combined Pacifica and Ethnic people’s meeting.
attended Papatoetoe Garden and Floral art club.
25 July Papatoetoe West Rotary Club meeting
28 July Planting Day Puhinui reserve.
5th and 12th Aug Visited the Papatoetoe markets.
7 Aug Enviro Schools visits
11 August 50s fashion exhibition.
14 August Transform Manukau update.
17 August Manukau Harbour Forum workshop and meeting.
