1 Welcome

2 Apologies

At the close of the agenda no apologies had been received.

3 Declaration of Interest

Members are reminded of the need to be vigilant to stand aside from decision making when a conflict arises between their role as a member and any private or other external interest they might have.

The Auckland Council Code of Conduct for Elected Members (the Code) requires elected members to fully acquaint themselves with, and strictly adhere to, the provisions of Auckland Council’s Conflicts of Interest Policy. The policy covers two classes of conflict of interest:

i. A financial conflict of interest, which is one where a decision or act of the local board could reasonably give rise to an expectation of financial gain or loss to an elected member

ii. A non-financial conflict interest, which does not have a direct personal financial component. It may arise, for example, from a personal relationship, or involvement with a non-profit organisation, or from conduct that indicates prejudice or predetermination.

The Office of the Auditor General has produced guidelines to help elected members understand the requirements of the Local Authority (Member’s Interest) Act 1968. The guidelines discuss both types of conflicts in more detail, and provide elected members with practical examples and advice around when they may (or may not) have a conflict of interest.

Copies of both the Auckland Council Code of Conduct for Elected Members and the Office of the Auditor General guidelines are available for inspection by members upon request.

Any questions relating to the Code or the guidelines may be directed to the Relationship Manager in the first instance.

4 Confirmation of Minutes

That the Devonport-Takapuna Local Board Community Forum:

a) confirm the ordinary minutes of its meeting, held on Tuesday, 7 August 2018, as a true and correct record.

5 Leave of Absence

At the close of the agenda no requests for leave of absence had been received.

6 Acknowledgements

At the close of the agenda no requests for acknowledgements had been received.
7  Petitions

At the close of the agenda no requests to present petitions had been received.

8  Deputations

Standing Order 7.7 provides for deputations. Those applying for deputations are required to give seven working days notice of subject matter and applications are approved by the Chairperson of the Devonport-Takapuna Local Board Community Forum. This means that details relating to deputations can be included in the published agenda. Total speaking time per deputation is fifteen minutes or as resolved by the meeting.

8.1  Younite - September 2018 update

Te take mō te pūrongo / Purpose of the report
1. Henry Pivac, Chairperson of Younite will be in attendance to update the board on activities of Younite.

Ngā tūtohunga / Recommendation/s
That the Devonport-Takapuna Local Board Community Forum:
   a) receive the presentation from Younite and thank Henry Pivac for his attendance.

8.2  Shore Junction - September 2018 update

Te take mō te pūrongo / Purpose of the report
1. Melanie Barr, Community Director, Shore Junction will be in attendance to update the board on activities of Shore Junction.

Ngā tūtohunga / Recommendation/s
That the Devonport-Takapuna Local Board Community Forum:
   a) receive the presentation from Melanie Barr and thank her for her attendance.

8.4 Sam Yates - Bowling club facility in Devonport

Te take mō te pūrongo / Purpose of the report
1. Sam Yates will be in attendance to address the board with regards to a proposed tennis club facility at the Devonport bowling club site.

Ngā tūtohunga / Recommendation/s
That the Devonport-Takapuna Local Board Community Forum:

a) receive the presentation from Sam Yates and thank him for his attendance.

9 Public Forum

A period of time (approximately 30 minutes) is set aside for members of the public to address the meeting on matters within its delegated authority. A maximum of five minutes per item is allowed, following which there may be questions from members.

At the close of the agenda no requests for public forum had been received.

10 Extraordinary Business

Section 46A(7) of the Local Government Official Information and Meetings Act 1987 (as amended) states:

“An item that is not on the agenda for a meeting may be dealt with at that meeting if-

(a) The local authority by resolution so decides; and

(b) The presiding member explains at the meeting, at a time when it is open to the public,”
(i) The reason why the item is not on the agenda; and

(ii) The reason why the discussion of the item cannot be delayed until a subsequent meeting.”

Section 46A(7A) of the Local Government Official Information and Meetings Act 1987 (as amended) states:

“Where an item is not on the agenda for a meeting—

(a) That item may be discussed at that meeting if—

(i) That item is a minor matter relating to the general business of the local authority; and

(ii) the presiding member explains at the beginning of the meeting, at a time when it is open to the public, that the item will be discussed at the meeting; but

(b) no resolution, decision or recommendation may be made in respect of that item except to refer that item to a subsequent meeting of the local authority for further discussion.”

SHORE JUNCTION

TWO FLOORS OF AMAZING, WHERE IDEAS COLLIDE AND FUTURE PATHS FORGE
WHAT IS SHORE JUNCTION?

SHORE JUNCTION IS A SPACE FOR YOUTH INNOVATION, CREATIVITY AND CONNECTEDNESS. IT IS A VEHICLE FOR YOUNG PEOPLE TO ACCELERATE THEIR POTENTIAL, BUILD PATHWAYS TO SUCCESS, AND BECOME TOMORROW’S CHANGEMAKERS.

SUPPORTING YOUTH INNOVATION

Shore Junction is a youth innovation hub in the heart of Takapuna, Auckland, designed as a space for young people to connect, belong and grow.

It will offer youth-friendly facilities and integrated services that support innovation, learning, wellbeing and creativity.

We are creating a mechanism for young people to redefine their aspirations, whilst also developing the critical skills, connections and networks that they need to succeed.

At Shore Junction, young people will lay the foundations for their future roles as entrepreneurs, business leaders, community champions and influencers – tomorrow’s generation of positive changemakers.

- A HUB TO SUPPORT YOUTH INNOVATION
- CO-DESIGNED WITH YOUNG PEOPLE
- SUPPORTING YOUTH CONNECTEDNESS & BELONGING
- ACCELERATING YOUTH POTENTIAL
- PROMOTING CROSS SECTOR COLLABORATION
SHORE JUNCTION:

KEY MESSAGES

WHAT IS SHORE JUNCTION?

1. Shore Junction is a youth innovation hub designed to provide a safe space for young people to connect, belong, collaborate, learn and innovate.

2. It will provide opportunities for young people to connect socially outside of school, and to access a range of facilities, programmes and events that are designed to support their wellbeing and accelerate their potential.

3. Shore Junction will support young people to prepare for their future pathways by supporting them to develop key skills and by connecting them to business and enterprise.

4. The Shore Junction building offers “two floors of amazing” – flexible, shared spaces for young people to convene and collaborate. The use of space can be continuously refined in response to the needs and ideas of young people.

WHAT IS UNIQUE ABOUT SHORE JUNCTION?

5. Every aspect of Shore Junction has been driven by and co-designed with young people.

6. The building design and the programmes/opportunities that will be offered through Shore Junction reflect their vision, needs and ideas.

HOW DO WE KNOW SHORE JUNCTION IS NEEDED?

7. The concept and early development of Shore Junction has been driven by YOUnite, the Local Youth Board for Devonport-Takapuna. YOUnite is comprised of local young people appointed to represent the views and ideas of the youth community.

8. Consultation with local youth shows that:
   a. Two in five young people think that it is hard to meet other young people
   b. Nine in ten local youth would be likely to use a facility that is designed by youth, for youth
   c. One in two young people would use a youth space up to four times per week.

9. Local Board research shows that key priorities for North Shore young people include:
   a. Support for their overall wellbeing
   b. Opportunities for education, employment and volunteering
   c. Opportunities to belong and build social connections
   d. Space to hold and design youth-led events.

10. Shore Junction has been designed in response to these identified needs; as well as our own co-design process involving consultation events, surveys and workshops with local young people.
WHAT WILL SHORE JUNCTION OFFER?

(11) Shore Junction will create a vibrant, connected and participating youth community in the heart of the North Shore.

(12) Five ‘pillars’ have been developed as a way to define and prioritise the types of services, programmes, events and activities that young people will be able to access through Shore Junction.

(13) The five pillars are:
1. Community
2. Technology
3. Science, Engineering & Maths
4. Enterprise
5. Arts & Culture.

(14) Through these pillars, we will offer a range of activities and supports, including for example:
   a. Access to technology
   b. Education and study support
   c. Access to work experience and employment pathways
   d. Opportunities for youth-led enterprise
   e. Youth-led events, exhibitions and performances
   f. Youth wellbeing and development programmes
   g. Competitions, projects and challenges
   h. Volunteering and youth leadership opportunities
   i. Mentoring and peer support.

WHAT OUTCOMES WILL SHORE JUNCTION ACHIEVE FOR YOUNG PEOPLE?

(15) Shore Junction will provide safe spaces for young people to participate, connect, collaborate and belong.

(16) These positive connections will support measurable youth wellbeing outcomes, including increased confidence, self-worth, sense of purpose and resilience.

(17) Through Shore Junction, young people will be exposed to new opportunities, new ideas and new technologies that grow their skills, support entrepreneurship and help them to pathway towards successful futures.

(18) Shore Junction also offers opportunities for young people to have a collective voice and participate in local, regional and national decision-making, as well social problem-solving.

(19) This will help to develop purpose-driven young leaders with the agency, skills and connections to be future changemakers.

WHAT OPPORTUNITIES DOES SHORE JUNCTION OFFER TO ITS PARTNERS?

(20) Shore Junction is building reciprocal partnerships with local businesses, corporate partners, tech-based industries and local business leaders.

(21) Through these partnerships, we can offer young people access to industry expertise, technologies, work experience and other opportunities that support youth employment and entrepreneurship.
Engagement with Shore Junction offers our partners access to a youth talent pipeline and opportunity to address future skills gaps by helping to grow the potential of young people.

Shore Junction also provides a platform for youth consultation and advisory activities - enabling local authority, central government and other stakeholders to engage young people in planning and decision making.

**HOW WILL WE TRACK OUR IMPACT?**

A bespoke evaluation framework has been designed for Shore Junction. This helps us to collect data and other evidence in structured ways that drive continuous improvement - and help us to achieve better outcomes for young people.

The evaluation framework allows us to understand what works, and share this with other organisations so that they can be more targeted in supporting the potential of young people.

**HOW IS SHORE JUNCTION MANAGED?**

Shore Junction is governed and managed by the YES Disability Resource Centre Trust. YES is an established non-profit organisation with a strong reputation and track record of managing capital projects, successfully delivering government contracts and achieving high quality outcomes for its members and communities.

YES holds the Shore Junction building lease and provides all governance functions including financial responsibility, legal compliance, risk management and strategic planning.

The governance and management of Shore Junction by YES is further supported by an Advisory Committee. This committee includes young people and other external specialists whose knowledge and expertise strengthens the leadership of Shore Junction.

YES will continue to provide governance until Shore Junction is fully established as a stand-alone legal entity (expected 2020); at which time a new governance structure will be established and a transition plan can be fully enacted.

**HOW IS SHORE JUNCTION RESOURCED?**

Shore Junction is currently in a design and build phase. Funding for this phase of work has been provided through private donors and Council, and further funding is being sought through grants and donations.

Operational funding of approximately $425,000 p.a. will be required to run the Shore Junction facility and programmes.

This will be resourced through a diverse funding portfolio including grants, sponsorships, private donors, government funding contracts, social enterprise and corporate partnerships.
SHORE JUNCTION: PILLARS

SHORE JUNCTION HAS FIVE KEY PILLARS THAT WILL SHAPE OUR PROGRAMME DELIVERY. THESE PILLARS HAVE BEEN CO-DESIGNED WITH YOUNG PEOPLE.

THE PILLARS ENSURE THAT YOUNG PEOPLE WILL HAVE ACCESS TO THE TYPES OF LEARNING AND DEVELOPMENT OPPORTUNITIES THAT THEY VALUE, THAT SUPPORT THEIR ASPIRATIONS AND CONNECT THEM TO EXCITING FUTURE PATHWAYS.
TECHNOLOGY

THROUGH OUR TECHNOLOGY PILLAR WE WILL:

- Provide access to leading technology and digital platforms.
- Enable young people to explore their creativity and develop enterprise ideas through access to advanced technologies.
- Support young people to develop the technical skills that they need to be future-ready.
- Provide a space to explore how youth-designed technologies can change the way we live, work, and play.
2 ENTERPRISE

THROUGH OUR ENTERPRISE PILLAR WE WILL:

- Provide programmes that enable young people to develop key business skills.
- Create pathways into business and enterprise for emerging young talent.
- Connect young people with mentors and other resources to support their exploration of business ideas as emerging entrepreneurs.

As a space, Shore Junction is a blank canvas for social enterprise development. Young people can use the building for a wide range of enterprise activities - including marketing, hosting events, developing technology or testing new business ideas.
3 COMMUNITY

THROUGH OUR COMMUNITY PILLAR WE WILL:

- Offer integrated programmes and services that enhance youth wellbeing.
- Create opportunities for young people to connect with one another, developing an increased sense of belonging.
- Provide opportunities for young people to develop leadership roles and influence local, regional and national decision-making.
- Enable young people to engage with their wider community and grow their impact as young social changemakers.
4 

SCIENCE, ENGINEERING & MATHS

THROUGH OUR SCIENCE, ENGINEERING AND MATHS PILLAR WE WILL:

- Create an engaging environment that is focused on innovation and experienced-based learning.
- Support young people with resources and programmes that enhance their educational outcomes.
- Connect young people to higher education and employment pathways.
5

ARTS & CULTURE

THROUGH OUR ARTS & CULTURE PILLAR WE WILL:

- Support young people to explore their creativity.
- Develop self-expression and identity through engagement with visual, digital and performing arts.
- Enable young people to develop technical skills that support them with their future career aspirations.
- Connect young people to the wider arts community and provide a space to showcase emerging youth talent.
LOCATION

FOR YOUNG PEOPLE TO ENGAGE AND PARTICIPATE IN POSITIVE ACTIVITIES, LOW COST ACCESSIBILITY IS VITAL. SHORE JUNCTION IS CENTRALLY LOCATED IN TAKAPUNA. IT IS ALSO WITHIN WALKING DISTANCE OF FOUR NORTH SHORE HIGH SCHOOLS AND IS EASILY ACCESSIBLE BY PUBLIC TRANSPORT.

Takapuna has been identified as a potential innovation corridor within the Auckland region. Auckland Tourism, Events & Economic Development (ATEED) has established a regional economic development initiative called ‘Techapuna’, designed to promote Takapuna and the North Shore as a centre for high-tech industry.

Other regional economic development initiatives have a similar focus, such as the ‘Grow North’ partnership between Massey University, ATEED and BNZ.

These initiatives present wider opportunities for Shore Junction to develop financial partnerships and other relationships with local businesses and technology industries.

HOW CAN YOU HELP?

WE ARE LOOKING FOR PARTNERS TO HELP BRING THIS YOUTH-LED VISION TO LIFE. WE’D LOVE TO TALK TO YOU ABOUT HOW YOU CAN HELP US BUILD PATHWAYS TO SUCCESS FOR A GENERATION OF YOUNG PEOPLE.

SHORE JUNCTION HEROES

Shore Junction launches “Shore Junction Heroes”.

Our Heroes are the ones whose generous gift contributes to the creation of a mechanism for young people to redefine their aspirations, whilst developing critical skills, connections and networks essential for their success.

A donation as a Shore Junction Hero means that you understand just how important innovation and community is to the future of New Zealand.

Shore Junction and our community of donors are helping young people of North Harbour lay the foundations for their future roles.

Shore Junction Heroes will be featured on the Hero Wall and will receive a Hero Supporters Pack including an annual commemorative photo book.

If you are interested in becoming a Shore Junction Hero, please contact Melanie who will arrange your Hero pack.

SHORE JUNCTION HEROES ARE DREAM-MAKERS, YOU ARE A DREAM-MAKER AND TODAY WE WARMLY WELCOME YOU INTO OUR COMMUNITY.
- GARY MONK

SHORE JUNCTION LOGO

The team at Shore Junction are thrilled to reveal the Shore Junction logo!

Our logo has been co-designed by Benefitz and the Shore Junction Youth Advisors. To guarantee a logo that exudes both a professional impression and captures the enthusiasm of young people, Benefitz created a suite of stunning concept designs.

The Youth Advisors and YOUUnite local board shortlisted two designs, which went to a vote by both YOUUnite and the YES Board which currently governs Shore Junction.

The use of yellow has been used to evoke cheerfulness, energy, innovation, creativity, and intellect. While the road represents the physical location of our building and echoes the personal junction young people come to in their formative years as they start to define their future pathways.

WWW.SHOREJUNCTION.NZ
SHORE JUNCTION PILLARS

Shore Junction is an innovative youth initiative designed to provide a safe space for young people to connect, belong, collaborate, learn, innovate and realize their potential. To achieve this, a range of programmes, events, services and activities (‘content’) will be offered through Shore Junction. This content has been designed around five ‘pillars’ or subject areas:

1. Community
2. Technology
3. Enterprise
4. Science, Maths & Engineering
5. Arts & Culture

The scope and content of these pillars has been co-designed with young people. They are targeted to the key opportunities that young people feel will best accelerate them towards their futures, by providing support for their self-expression, personal development, entrepreneurship, leadership, learning and employment skills.

The pillar model is based on four skills or subject areas that are connected together by a fifth pillar – Community. Putting Community at the centre of our model recognizes the importance of creating a safe space where young people can convene, connect and build social connections outside of school. Building this community creates the context for the other pillars to achieve greater impact – supporting collaborative ways of working and learning. The four subject-based pillars are also interconnected. For example, there is potential for youth enterprise opportunities to be developed through exploration of technology and tech-based skills development. Collectively, the pillars ensure that young people will have access to the type of learning and development opportunities that they value, that support their aspirations and connect them to exciting future pathways.

SPOTLIGHT ON: SCIENCE, MATHS & ENGINEERING PILLAR

What is this pillar?

Shore Junction’s vision is to accelerate the potential of young people and support them towards their future pathways. Alongside local schools, Shore Junction has an important role to play in supporting stronger educational outcomes and positive transitions to higher education, employment and enterprise.

Through our Science, Engineering & Maths Pillar, we provide meaningful learning opportunities in ‘realworld’ contexts to help strengthen young people’s engagement with education.

The ultimate goal is to support young people to feel passionate about self-led learning, to achieve better educational outcomes in priority subject areas, and to be in stronger positions to use their learning in an employment or enterprise context, transitioning more successfully to their future pathways.

The Science, Engineering & Maths Pillar is where we:
- Spark engagement with science, engineering and maths as key subject areas
- Work alongside schools to achieve better educational outcomes for young people
- Offer study space and resources that support young people to engage in, and sustain, self-led learning practices
- Facilitate peer-to-peer learning and support
- Support pathways to tertiary education
- Nurture a youth talent pipeline that responds to current skills gaps and future needs.

Why do we need it?

Young people need a safe space where they can connect, belong, learn and develop. Consultation with local youth shows that they are looking to further their learning in the science, engineering and maths subject areas.

In particular, young people are seeking opportunities to explore the practical applications of learned concepts in the real-world environments of business and enterprise.

The youth that engaged in co-design of the Science, Engineering & Maths Pillar were hungry for experience-based learning and learning styles that contrast/ build-on the school environment.

The Science, Engineering & Maths Pillar will achieve positive long-term outcomes, including:
- Diverse young people engaging with key subject areas
- Young people with the knowledge and skills to transition more successfully to higher education, business and enterprise
- Gaps between school, tertiary and business are bridged
- A wider North Shore community that is more connected and is delivering for its young people.
Thank you so much for joining us and supporting the Shore Junction fundraising lunch at Regatta Bar & Eatery on Thursday 26 July.

We had an incredibly successful day with over 120 guests enjoying beautiful Babydoll Blush bubbles from Yealands, stunning food prepared by the chefs at Regatta Bar and Eatery and an exciting line up of speakers.

It was a perfect mid-winter day and the atmosphere was convivial and the bidding strong during the auction.

We also invited guests to become Shore Junction Heroes by donating over $1000, we had a strong uptake and 6 new Heroes committed to this great cause - in total we raised over $25,000 from the day!

It was a real opportunity to explain to our guests that Shore Junction will be a youth innovation hub, designed as a space for young people to connect, belong, and grow.

We shared how Shore Junction will positively influence children and grandchildren of community and especially the lunch attendees.

Our guest speakers were phenomenal. Sonia Thursby spoke of our journey to get us here to this point. Mae Everett, Shore Junction youth adviser shared her vision of Shore Junction from the perspective of a young person in need of such as space. Liz Blackwell just topped off the event with the inspiring story of her life journey so far. What an amazing selection of women who are leaders in our community!

Our MC Alexia Hilbertidou kept the event moving with her natural energy, and proudly boasted her new title of Shore Junction Ambassador. Alexia joins us as our inaugural Ambassador and we could not be more pleased.

The Shore Junction logo was officially unveiled at the Shore Junction fundraiser lunch, making us feel like a real grown up official organisation!
A NOTE FROM OUR COMMUNITY DIRECTOR - MELANIE BARR

Our community is steadily growing, the Shore Junction initiative and brand is spreading strongly north of the bridge. We now have strong support from high schools, community initiatives, SMEs and larger Shore based businesses.

While we are renovning (August - February) I will be working on our programming. Making sure that we are working with the best of the best to develop programmes, activities and events that encompass all the fantastic subject areas of Science, Technology, Engineering, Arts, Maths and Enterprise.

The Shore Junction community are already vocal ambassadors for reducing youth suicide, supporting talented young people in STEAM subjects, helping young people find their future pathway, and grow their own networks.

WHO MISSED OUT ON DOUGHNUTS?

Shore Junction hosted a tour week in late May. Each day from 3-5pm young people could come by to see the future site and imagine themselves as a member of Shore Junction. Everyone also walked away with a delicious Krispy Kreme doughnut!

We realise some of our incredible supporters may not have been able to make the 3-5 time slot, so we have FOUR HUNDRED Krispy Kreme doughnut vouchers to give away!

GET YOUR DOUGHNUT VOUCHER!
All you need to do to get YOUR free doughnut is to spread the word about Shore Junction. Share our newsletter (and copy Mel in!) or like the Shore Junction Facebook or LinkedIn pages. Let Mel know your address by sending her an email with your details.

Shore Junction is a youth innovation hub in Takapuna designed to provide a safe space for young people to connect, belong, collaborate, learn and innovate.

It will provide opportunities for young people to connect socially outside of school, and to access a range of facilities, programmes and events that are designed to support their well-being and accelerate their potential.

Shore Junction will support young people to prepare for their future pathways by supporting them to develop key skills and by connecting them to business and enterprise.

The Shore Junction building offers “two floors of amazing” - flexible, shared spaces for young people to convene and collaborate. The use of space can be continuously refined in response to the needs and ideas of young people.
MY SUPPORT FOR SHORE JUNCTION

Shaun Gear, Principal Adviser - Secondary Tertiary, Ministry of Education
Future Shaper for Youth

Shaun is a future focused Education to Employment specialist. Supporting change and thought leadership with education leaders, assisting the sector to make improvements that drive system change as young people move through education to employment.

www.linkedin.com/in/shaungear

FROM SHAUN...

"YOUNG PEOPLE ARE 20% OF THE POPULATION BUT ARE 100% THE FUTURE."

When I heard about Shore Junction, a facility designed for youth by youth, I was intrigued. I soon learnt the unique facility would be an asset to the community giving youth a safe space where they are able to be empowered and be themselves with their peers.

Shore Junction’s 5 pillars underpin a future focus with the facility: Community, Technology, Science, Maths, Engineering, Enterprise and Arts & Culture. Shore Junction will provide opportunities for our youth to access a creative, collaborative space and connect not only with their peers but also expert partners from the world of work. Shore Junction will also complement local Secondary School curriculum.

Working on the North Shore my goal is to drive thought leadership and a future focus for Secondary Schools, Tertiary and Businesses to partner and support every young person in the community to thrive and discover their potential.

Youth agency is powerful and it is in Shore Junction’s DNA. We have the opportunity to provide a facility which will not only benefit our community but will also provide a foundation for youth organisations throughout New Zealand.

The site sits in proximity to the innovation hub that is Smales Farm. This location will enable businesses to work closer with local youth to support innovation, inspiration and mentoring.

The future of work and the skills and competencies young people need to navigate in a highly connected online, offline will be challenging for most. With Education going through a large review with elements of the system potentially being redesigned, and adding the 4th Industrial Revolution happening, Shore Junction’s creation is timely.

I would recommend local Schools, Teachers, Education Leaders, Youth Organisations, and Tertiary to all connect with Shore Junction and discover what’s possible together.
CRICKET IN AUCKLAND – Devonport-Takapuna Local Board
Sustainability and the Changing Face of Cricket

AUCKLAND CRICKET ASSOCIATION and NORTH SHORE CRICKET CLUB (NSCC)

ACA, on behalf of its sixteen community cricket clubs would like to publicly acknowledge and thank Auckland Council and key stakeholders for the long-term support of cricket. Auckland Council’s support as the main provider of sports and recreation infrastructure enables thousands of cricketers to pursue their preferred recreation during the summer months and get active.

Auckland Cricket in the Wider Context

Current Environment
Cricket has in excess of 42,000 active participants in Auckland – this number excludes the many mums, dads, coaches, umpires and volunteers who support the game. Auckland Cricket has experienced an overall increase in numbers of 20% over the past three seasons.

Objective
To make cricket a game for ALL Aucklanders. By making our summer game; fun, accessible, inclusive, open, modern and time appropriate.

The Key Strategic Focus Areas

These initiatives will result in
- More Aucklanders engaging in cricket and getting active.
- More demand for grounds
  - Junior cricket (Year 6 – 8) will contain only 9 players not 11 per team, from 2018/19 onwards. Based on 2017/18 team numbers and no increase or decrease in membership, we will have 58 more teams, which increases demand for wickets by 29 per week.
- Better Utilization of grounds
  - More competitions will be played mid-week and on Sunday’s.
  - Shorter games, results in better utilization of grounds.
  - As games will be played during the week, more training facilities are needed.
Cricket in Devonport-Takapuna

North Shore Cricket Club Members - 828 in 2017/18

- Thank you to Landscape Solutions for their work over the summer maintaining Devonport Domain and surrounding grounds in the area.
- Auckland Cricket requests that the ‘summer booking period’ is pushed back to align with the summer season. According to the 2018/19 seasonal bookings, the summer dates end on 17 March – we need this to be pushed out to at least the last weekend in March to run our competitions.

North Shore CC are Leading the Way In

Junior Cricket
- NSCC ran the 25th annual Junior World Series, which continues to be an enormous success, with over 270 children involved from across Auckland.

Youth Cricket
- During the 2017/18 season, NSCC entered a development youth side into a senior T20 grade, that successfully bridged the gap between college and club and exposed the players to senior cricket.

Girls and Women in Cricket
- NSCC’s junior girls programme continues to grow, which now includes; six dedicated girl’s teams.
- As part of their women’s programme, NSCC:
  - Entered a Premier Reserve Women’s side into an ACA competition, for the first time.
  - Hosted an Auckland Hearts T20 game at Devonport Domain.

Mid-Week Cricket
- NSCC’s mid-week competition is thriving with 10 teams, this is a buoyant competition drawing many local families to the park mid-week.

Demand for Grounds in Devonport-Takapuna

| Current surplus/shortfall of wickets for Saturday play in Devonport-Takapuna |
|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| Sat AM Demand        | Sat AM Supply | Shortfall | Sat PM Demand | Sat PM Supply | Shortfall |
| 13.5                   | 6            | -8        | 13.5          | 11            | -3        |

Due to the change in team numbers in the Year 6 – 8 grades, with no increase or decrease in participation from 2017/18, we predict there will be a further 4 teams in the Devonport-Takapuna catchment, needing a further 2 pitches.

| Predicted surplus/shortfall of wickets for Saturday play in Devonport-Takapuna for 2018/19 |
|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| Sat AM Demand        | Sat AM Supply | Shortfall | Sat PM Demand | Sat PM Supply | Shortfall |
| 15.5                   | 6            | -10       | 13.5          | 11            | -3        |

Ground/Facility Developments in Devonport-Takapuna

- Realignment of the number 1 block to allow all four grass pitches to be used at once. Currently only three can be due to overlapping boundaries and health and safety concerns.
- The investment of additional indoor practice nets on the North Shore is crucial to the development of the five clubs that reside in the region. Currently there is only one facility at Massey University catering for all clubs.
- An upgrade and addition to the outdoor cricket nets currently at Devonport Domain.
- The spray zone at Devonport Domain to be extended to include the outfield, to ensure the ground is maintained to an adequate level for the community.

Auckland Cricket and North Shore CC would like to ask the Local Board for its continued support of cricket in the Devonport-Takapuna Local Board region.
