Ōrākei				From evidence made available to the Orakei Local Board by library staff and personal observation, the Board does not support the Mobile and Access Service (the mobile library) as proposed for the Board's area. The Board believes there are other more effective and efficient ways to provide a more comprehensive service to all of our residents, including those in retirement villages and rest homes, such as advertising the Libby electronic library app. (for those who are able to access that app). Savings in providing a mobile service within the Orakei Local Board area could and should be reallocated to enhancing library services, including opening hours and outreach programmes, in the two libraries within the Board's area.

Upper Harbour				This Local Board does not support the Mobile and Access service generally in either it's current or proposed future state. Does not believe it is needed in Auckland and views it as largely irrelevant and not a good use of ratepayer money.
