SOMERVILLE HOCKEY

ESTABLISHED 1915

TURF BASE FOR THE FUTURE OF THE SOMERVILLE HOCKEY CLUB

Attachment A
Item 8.1
Somerville Hockey Club History

- Established 1915
- Oldest and most successful Club in Auckland
- 44 Teams in 2018
- Turned away approximately 80, Year 5-12’s in 2018
- Significant Growth constrained by Turf availability
- Consequently impacts on Club Viability and the existing members.
- 2016 Clubroom lease extinguished by AGS

TOTAL: 3
Somerville Hockey Club
Schools in the Orakei Ward

- Primary & Intermediate
  - Schools: 19
  - Roll 2017: 9092

- This is the critical stage of providing access for children to the sport to ensure hockey skill development. Training and playing facility access is paramount. Somerville currently use various indoor and outdoor areas which are not turf based in a range of facilities around the area all which come at a significant and increasing cost for usage by the Club.

- **HOCKEY** is a option for a more diverse range of nationalities, ethnicities and cultures and is able to played actively for a much longer time than many other contact sports which dominate the open space recreational facilities across the region and Ward.
Somerville Hockey Club

FUTURE TURF DEMAND BASED ON

- Auckland Regional Hockey Facilities Report - 2014-2031
- Hockey New Zealand Strategy Update - June 2016
- Auckland Association

2013  -  Were 4 full size turfs short
2018  -  Are now 6 full size turfs short
2031  -  Projected to be minimum 10 turfs short.

In the Orakei Ward there are currently no full size community turfs. SHORE ROAD IS AN IDEAL LOCATION for a new Turf/s for the Orakei Ward and can be facilitated by Somerville Hockey Club and others.
Somerville Hockey Club

Existing Shore Road East plan – 2 Junior Rugby Fields and 1 Cricket Oval

Existing Shore Road 12 Cricket wickets & 3 Senior & 8 Junior Rugby Fields

Cricket and Rugby participation numbers are falling. Hockey participation numbers are growing.
Somerville Hockey Club
Single Turf Option – Shore Road

Somerville Hockey Clubroom

Shared facility with other sports and community activities.

Ability to provide planting and other site development to ensure public usage.
National Secondary Schools Sevens Finals

Condor Rugby

Sacred Heart College, Nov 29th – Dec 2nd 2018
Condor sevens – Review 2017

Drop 2017 event saw a 10% increase in teams entered. Growing from 90-100 teams.

SKY TV covered the event with more television coverage than ever before. Going from six hours to twelve hours coverage.

Sacred Heart College continues to be a popular choice.

Event continues to grow in popularity with increased teams, increased sky viewership, increased exposure.

Great engagement from Sacred Heart community.

This resulted in more teams using East Auckland and Otakio Board geographical area amenities, eateries and accommodation.

Video: Auckland teen bamboozles defenders with stunning footwork and power at national Sevens competition

3:58pm Source: 1 news

Sacred Heart College’s Taufa Funaki is a talent to keep an eye out for after his sensational outing for his high school team at the New Zealand secondary schools Sevens tournament in Auckland over the weekend.

Hayze Perham was also being looked at by Super Rugby teams, but he says the Warriors always came first. Source: 1 NEWS

2017

We will have 112 teams for 2018 which is massive growth from 16 teams seven years ago.

Continued extensive Sky TV coverage.

Partnering with local businesses including scaffolding, portaloos, first aid, physio etc.

Three international teams coming from Tonga, Cook Islands and Malaysia.

Youhtown have recommitted to be the naming rights partner.

Players from the event are developing and representing New Zealand in both the mens and womens Sevens environments.
2018 and beyond

In 2018 we will see an increase of twelve teams to a grand total of 112 teams competing. Which is the most ever in our thirty two year history. Our budget is now over $300,000 to deliver the event which is raised through team fees, sponsorship and gaming trusts.

We would like to thank the the Orakei Board for previous support but would like them to consider partnering with us to the value of $20,000 investment in our event so that we can meet budget for 2018 and continue to host this tournament at Sacred Heart College at the professional level that we deliver this event.

Tāmaki Estuary Environmental Forum (TEEF)
A Local Board Funded Initiative

Co-Chairs: Julie Chambers, Carmel Claridge
To protect, sustain and advance the health of the Tamaki Estuary by enabling integrated environmental management to achieve minimised pollution, high water quality and biodiversity.

**OUR ‘how’:**
- Coordinate
- Communicate
- Educate
- Support
In the early 1980s we had thousands of shorebirds at just one roost in the Estuary, now we have only a few hundred spread over two main roosts.
“We will also continue to work alongside schools and community groups engaging in environmental projects, and seek opportunities to further extend the Enviroschools and other programmes within the board area.”
What we can do for you

- Provide Local Boards with "tangible solutions" to environmental problems.
- "On the ground" approach to engaging the public - 'real' relationships with 'real' people.
- Provide connections between neighbourhoods, boroughs, and wards.
- Bring together the people that share a vision to restore the Tamaki Estuary to its former glory.
- Coordinate efforts to achieve maximum gain.
ELLERSLIE PARKING PLAN CHANGES – ŌRĀKEI LOCAL BOARD FEEDBACK
SEPTEMBER 2018

Background:
Parking Changes in the Ellerslie Township area and neighbouring streets have been mooted over a long period. The streets subject to these changes are increasingly becoming destinations for long term parking commuters accessing the Ellerslie Train Station during the working week. Parking issues are infrequent in weekends. Residents report that the car parking capacity at the township for shoppers is not yet at capacity, and it is still relatively easy to find a carpark during the day. However, as visitor numbers and patronage of businesses increase, there will be need in the future to ensure there is adequate provision of short stay parks to service economic development of the town centre.

Public response to the proposals has been mixed. There appears to be both opposition and support to the proposed changes in equal measure.

Specific Comments -
1) The Ellerslie Business Association feedback for the Parking consultation advise that 70% are in favour of the proposals because it will free up carparks for shoppers and visitors to Ellerslie.
   The main feedback from the businesses is the concern that these proposals will mean even less parking for staff and suggest permits are allocated to workers so they can park.

2) The Board notes its concern that on roll out of the New Central bus network there has been a loss to the local community of bus routes that have previously provided essential linkages to the Ellerslie Train Station, in particular the 595 service. Frequent feeder bus services to the Train Station are an integral part of the network and unless there are viable options for point of origin to destination fully utilizing public transport options, it will continue to be difficult to dissuade people from using cars to access the train station, thereby requiring parking nearby.

3) The Board sees that people being able to move around our area easily and safely as a priority and supports the principle of Vision Zero.
   The Board requests that the safety issues on Tecoma and Somerfield Streets that could be partially addressed by parking reconfiguration form part of the scope of the parking changes.

4) Parking nearby local schools is at a premium. Consideration needs to be given to the need for some longer term parking in their vicinity to accommodate school visitors and parent helpers.

5) The Board supports installation of P120 on both sides of Main Highway from Ramsgate St – Cawley St to support businesses as shoppers can easily travel to and visit the town centre without being in conflict with commuter parking.
6) It is suggested that the extension of the P120 limit on Ladies Mile and Arthur St be pulled back somewhat to allow for some longer-term parking.

SUMMARY: The Board is generally supportive of these changes subject to comments as above.
