INNOVATION HUB AND MAKERSPACE

What is Shore Junction?

- Innovation Centre
- Makerspace
- Workshops
- Meeting rooms
- Two floors of amazing
- Our region | North Harbour
- Our location | Takapuna
JAMIE'S STORY

Outcomes for young people

- Pathways to success
- Belonging, community & connectedness
- Business exposure
- Opportunities to excel
- Turning passions and dreams into careers
- Access to existing services in a safe environment
- A safe place that is between school and home
ACTIVITIES AND PROGRAMMES

Delivery of programming through our pillars:

- Partnerships:
  - Z Energy
  - Google
- Community service providers:
  - 21C Skills Hub
  - Life101
  - OMGTech!
FUTURE PROOFING OUR YOUNG PEOPLE

Future Pathways
- Finding your path
- Up-skilling
- Training/Employment
- Internships
- University

Mental Wealth
- Resilience
- A safe place to try new things
- Mentoring support
- Dealing with difficult personalities
- Referrals to other agencies and support networks
WHAT OUR COMMUNITY CAN ACHIEVE

- Ian’s story of success
- Local Boards
- Local businesses
  - Subject Matter Experts
  - Mentors
  - Intern providers
- Rotary
- Schools
- Universities
- Grow North
- eCentre
- North Harbour Club

Whenuapai Restoration Group
With support from Auckland Council, Parks & Reserves
Email: Anna.Baine@aucklandcouncil.govt.nz & Annette Mitchell - anniem1401@gmail.com

Dear Whenuapai Restoration Group,

Auckland Transport is prepared to authorise the planting works on the Uniformed Legal Road (Paper Road) at the end of Waimarie Road, Whenuapai (Beach reserve section). This will be for the purposes of section 357 of the Local Government ACT 1974 subject to the following terms and conditions:

1. Auckland Transport as the Road Controlling Authority has authorised Whenuapai Restoration Group to plant native plants along certain sections of unformed legal road. (Refer to Appendix A, B & C)
2. Pedestrian and vehicle access will be maintained on the partially formed carriageway.
3. The native planting will be undertaken on sections of the unformed road, where pedestrian and vehicle access is not impacted. Therefore, a Corridor Access Request and Traffic Management Plan is not required in this instance.
4. The Whenuapai Restoration Group will be responsible for all costs associated with the planting and on-going maintenance while the planting is on this section of unformed road.
5. This approval may only be temporary, because Auckland Transport, Auckland Council or Utility service providers may require the unformed legal road in the future for any new developments or works. Auckland Transport will endeavour to provide Whenuapai Restoration Group prior notification of any new works being undertaken. However, Auckland Transport will not be responsible for any new plants, replanting or replacements and associated costs for removal.
6. Additional changes or expansion of the site may require a new written approval. This will need to be sought from Auckland Transport prior to the works being undertaken.
7. Any site issues would need to be discussed with Auckland Council in the first instance and if required, they will notify AT for further guidance or resolution.
8. A place name sign will also be installed at the entry of this location. It will not obstruct visibility or access for road users.
9. This letter will be kept on AT’s street files as a record of the encroachment.
The signing of this letter signifies agreement by the Whenuapai Restoration Group with Auckland Transport’s terms and conditions.

Kind regards,

Melanie Alexander
Traffic Engineering Manager

Acceptance of terms and conditions agreed to on behalf of the Whenuapai Restoration Group Team with Auckland Transports terms and conditions.

Appendix B: Planting Management Plan

Waimarie Beach Reserve 3yr Management Plan

Year 1
Pohutukawa Grove/Bank (Area A)
Cut privet stumps to ground level
Cut and paste Arum Lily, Cotoneaster, seeding Privet
Drill Privet stumps
Plant Pohutukawa grove with 100 low growing shrubs
Recommend planting 100 Muehlenbeckia through Kikuyu on steep bank area, control Kikuyu after the Muehlenbeckia has established (year 2 or 3) with Haloxypoo, grass specific herbicide.

Parking area & Corner (by stairs) (Area B)
Cut and paste Privet, Fig, Arum Lily and Bone seed
Knapsack spray Climbing asparagus, stinking Iris and Tuber Ladder Fern
Chainsaw and remove large Privet trees by stairs

Plant with 100 plants

Year 2
Main Bank (left hand side) to beach (Area C)
Chainsaw and chip Privet along bank from road corner to beach (boat ramp)
- Chip material back onto site
Cut and paste Cotoneaster, Bone seed, Woolly nightshade, Wattle and Hydrangea
Hand release and Quik-sprays Agapanthus, Tuber Ladder Fern, Tradescantia, Periwinkle, Kikuyu, Arilsea and Pampas
Hand release and knapsack spray Japanese honeysuckle and Jasmine

Plant with 600 low growing native shrubs

Year 3
Hedge trim and mulch down Pampas (Area D)
Quik-Spray Arista and Pampas regrowth

Plant with 300 Low growing shrubs and grasses

This plan does not include removal of the Agapanthus/Ladder fern border to the top, flat area due to ongoing dispute of land ownership or the large Flame tree.
