

Taharoto Road / Anzac Street Corridor Safety Study

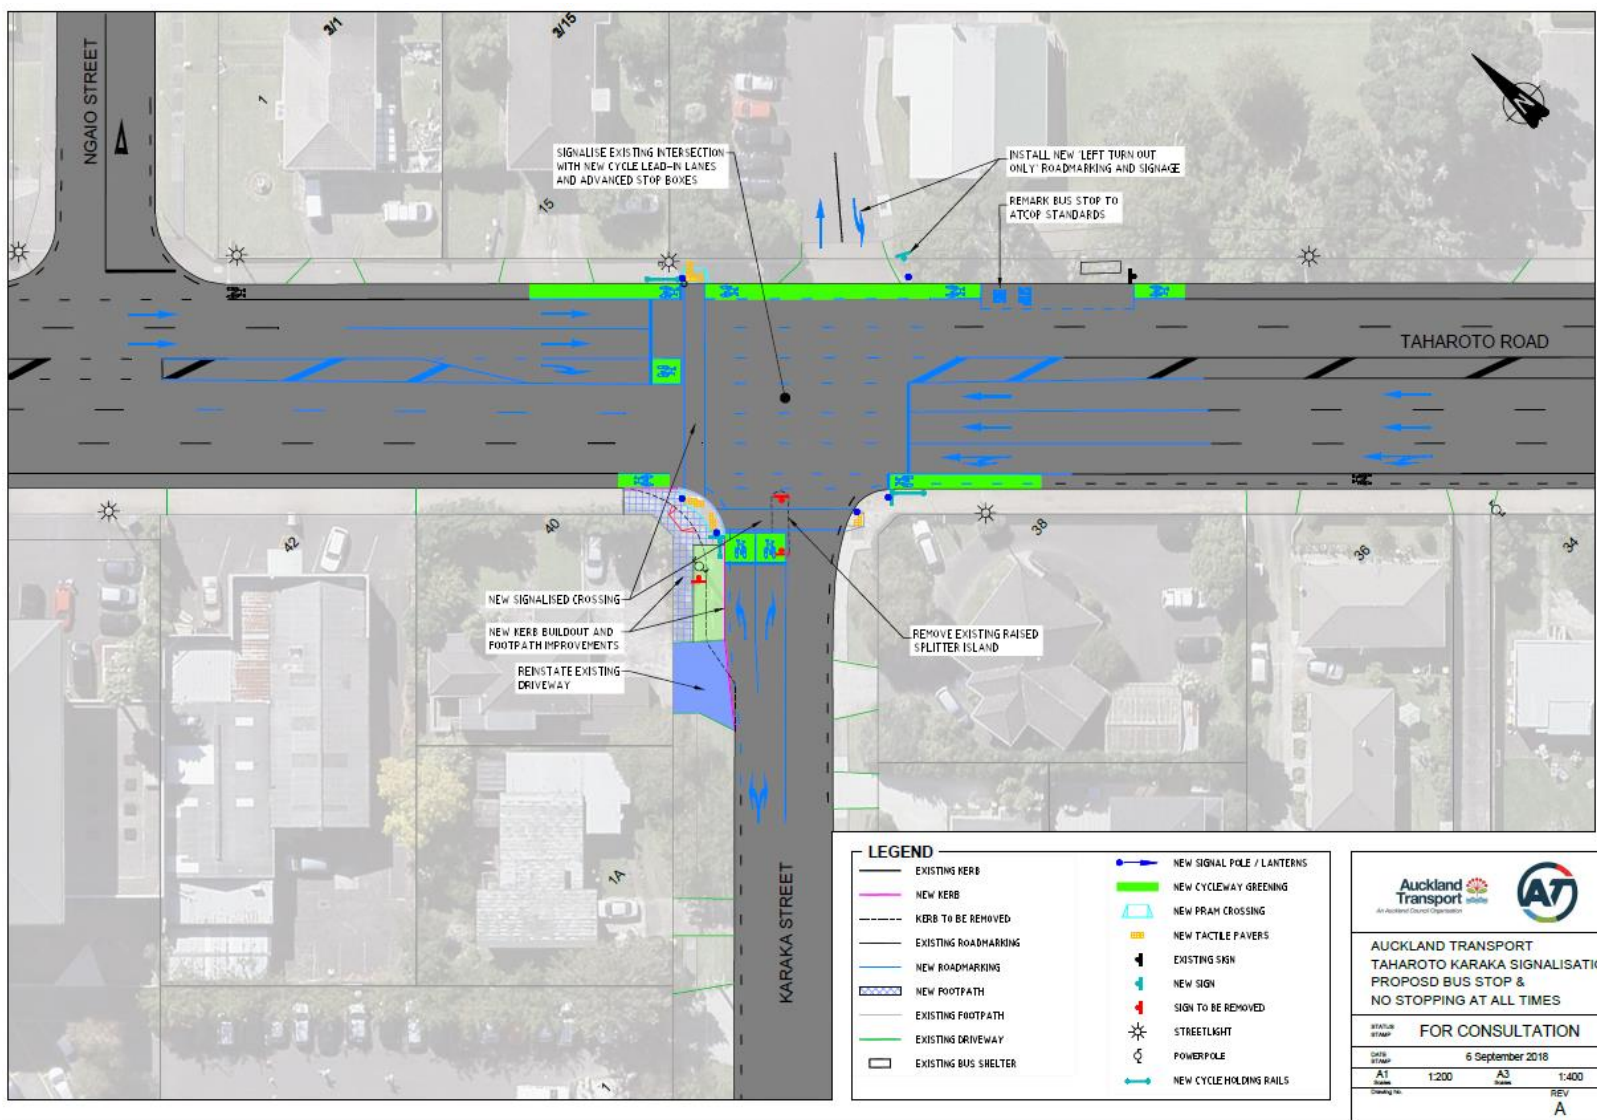

(from Northcote Road to Barrys Point Road)

- Why we need changes:

- Taharoto Road is one of 11 high risk corridors in the Auckland urban area currently under investigation for changes
- High risk corridor
 - In the 5 year period from 2013 to 2017 there have been 91 reported crashes
 - 18 injury crashes (inc. 1F 3S)
- In-depth risk assessment
 - Corridor risk (likelihood/severity/exposure)
 - Multi-user assessment (site inspections/ RSA/ risks to VRU)
- Limited crossing facilities

Karaka Street / Taharoto Road Intersection

Taharoto Road / Anzac Street: areas of interest

- Potential safety improvements
