

Children's Autism Foundation

Legal status:	Incorporated Society, Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Outreach Family Support: families of children with Autism Spectrum Disorder

Location:	Family homes		
Summary:	<p>Family Consultants assist families in their own homes. This individual service helps families address issues and develop coping strategies to help their autistic child. Typically, families seek assistance with dealing with anxiety, sensory issues, managing behaviour and developing social skills. Skills gained help reduce isolation and give the child and family confidence to participate in community activities. Families are supported through crisis and transition times, reducing family stress and breakdown.</p> <p>CAF provided 2289 Outreach consults in 2017-2018 financial year.</p> <p>This service available to those before or after a medical diagnosis has been made. It is free to families. Common issues that are raised are: anxiety/depression, sensory sensitivities, behavioural challenges and stress and isolation for the whole family.</p>		
Dates:	01/11/2018 - 30/04/2019	Rain dates:	-
People delivering:	8	People attending:	40-60
% of participants from Local Board		90%	

Community benefits

Identified community outcomes:

- Families are informed and able to discuss specific concerns and strategies.
- Families request assistance at times of crisis and are helped to problem solve
- Families gain confidence to help their child through transitional periods and build resilience
- Assistance to access other support services
- Young people learn, social skills, how to cope with sensory issues and reduce anxiety
- Young people gain confidence and strategies, enabling them to be included in school and community.
- Strengthen relationships.
- Youth participate and contribute to society
- Communities have a greater understanding of those with autism
- Inclusion and acceptance of difference is enhanced in communities
- All aspects of CAF's service delivery are reviewed and evaluated on a regular basis.

Workshops: Participants at workshops are asked to complete a questionnaire at the end of each workshop.

Outreach: People who receive support services are emailed surveys. Surveys include feedback on; client satisfaction, how they have benefited, timeliness of support, venues, accessibility and affordability, staff knowledge, on-going participation in programmes and workshops, community issues.

CAF keeps a record of the number of workshops held, where, who for, numbers.

Staff meetings are held fortnightly to discuss cases, incidents, feedback, strategy and review of services.

Alignment with local board priorities:

Promote better health and wellbeing in the community

The Children's Autism Foundation's mission is to provide direct support to families of children affected by autism by providing them with professional advice and services, to manage the emotional and practical impacts of autism.

Our vision is to enable children affected by autism to have the ability to lead rewarding and meaningful lives within their families and the community now and in the future.

Our aim is to equip families with the strategies and mechanisms to demonstrate valuing and including a person with autism in the wider community. Thus reducing isolation and dependency on care.

Collaborating organisation/individual	Role
Yes Disability Resource Centre	Administration support, dissemination of information
Disability Connect	Dissemination of information, resource for families

Demographics

Maori outcomes:	<i>Māori participation - Māori priority group, target group, high representation or Māori staff delivering</i> CAF believes that autistic young people should have all the support they need to grow, learn and thrive alongside their peers. CAF has embraced Maori values of tikanga Maori, respect, consultation and cooperation and applies these values to how they work with all people. We emphasise a family/whanau directed approach, encouraging whanau and communities to identify their own needs and work alongside them to enable and empower. This results in resourceful people who, with greater understanding, often find their own solutions to difficulties. This applies to autistic children as well as those who care for them.
Target ethnic groups:	All/everyone
Promoting SmokeFree:	Our organisation is based in a health services non-smoking building. Our organisation has a smoke free policy.
Zero waste minimisation	Yes, CAF uses a number of waste minimisation strategies. No disposable cups, email information rather than printing, print the exact number of documents required for clients, car pool whenever possible, offer surplus food to clients, take recyclables home rather than bin, use metal cutlery.

Financial information

Amount requested: \$2,000

Requesting grant for: Service delivery of Outreach Family support including salaries and wages for a Family Consultant, planning preparation and review of meetings with families, mileage, administration/operation support.

If part funded, how would you make up the difference:

CAF Family Consultants would support families to the extent that is sustainable with existing funding. This is likely to lead to greater waitlist times for support.

Cost of participation: Koha/donation, Give a little, Fundraising events throughout the year

Kiwi Supertots Learning Centre Limited

Legal status:	Limited Liability Company	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Kiwi Supertots Market Day

Location:	Kiwi Supertots Learning Centre - 37/39 Bishop Dunn Place, Botany		
Summary:	Our event is a community market day that will have a range of activities, rides and market stalls for the community to participate and enjoy. The purpose of our event is to bring the community together to help build and foster stronger relationships. This is the second year we are running the market day. Last year's event attracted close to 1000 people from the community. This is a family friendly fun day out for children and parents to all enjoy. Proceeds from the event including from rides, food and stall purchases will be donated towards a selected charity.		
Dates:	17/11/2018 - 17/11/2018	Rain dates:	-
People delivering:	20	People attending:	1,000
% of participants from Local Board		80%	

Community benefits

Identified community outcomes:

We are hoping to achieve community empowerment, community growth and family togetherness by creating an event that the community can not only attend but be a part of. This is an opportunity for small local businesses to sell their products to their community.

We will measure these outcomes by how many people we get purchase a stand, and by their feedback. We can also measure this by how many people attend the event.

Alignment with local board priorities:

Community capacity building and empowerment

Our event is a community market day that will have a range of activities, rides and market stalls for the community to participate and enjoy. The purpose of our event is to bring the community together to help build and foster stronger relationships. This is the second year we are running the market day. Last year's event attracted close to 1000 people from the community. This is a family friendly fun day out for children and parents to all enjoy. Proceeds from the event including from rides, food and stall purchases will be donated towards a selected charity.

Collaborating organisation/individual	Role

Financial information

Amount requested: \$2,000

Requesting grant for: We are requesting funding to go towards advertising our event. Advertising is a huge cost and is extremely important when it comes to hosting an event.

If part funded, how would you make up the difference:

We would minimise our advertising budget and have to use a few cheaper, less efficient strategies. However, this would have direct impact on number of attendees and social impact.

Cost of participation: No entrance fee.

Project: UN Globalisation tour

Location:	East and South East Asia (Visiting Singapore, Jakarta, Ho Chi Minh City, Shanghai, Guangzhou & Tokyo)		
Summary:	The Tour is an opportunity to gain first-hand insight into different business cultures in Asia and how New Zealand engages with our Asian trading partners. The Tour involves meetings with many prominent businesses, government agencies, international organisation and universities, such as Tencent (Asia's most valuable company), Huawei, New Zealand Trade and Enterprise, and the China Foreign Trade Centre. This is organised by the UN Youth NZ. The tour takes place in East and South East Asia.		
Dates:	09/02/2019 - 06/03/2019	Rain dates:	09/02/2019 - 06/03/2019
People delivering:	12 tertiary students and two co-directors	People attending:	1000
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

To receive this grant will help contribute the funds needed for the UN Globalisation tour, organised by the UN Youth NZ; which takes place in East and South East Asia. This is the biggest investment into my academic career so far, it will advance my studies providing a practical aspect of the career I long to be. The advancement of my studies I will be able to use as an example to inspire the youth in our community, especially those who are vulnerable and lost. It is also an opportunity to celebrate the success of the Pasifika community as well, that a young adult from South Auckland has made it this far, therefore we can too. This inspiration of this personal achievement of mine will allow youth to dream big! I never expected myself to come this far, but hard work and passion pays off and it always worthwhile.

I expect three outcomes for this project to occur and it involves the development of the youth.

I hope this project will enable the youth in our community to empower & motivate them to chase their aspirations. The uprising and current generations are living in the now, and not tomorrow. Causing them to think small and view things, belittling its value.

I hope this decreases the act of youth crime of the Maori and Pasifika people in our community. That they will set their minds to what matters most - their future. To also develop a mature mind to make wise decisions that will impact them for the future.

Also, for the youth will chase their goals that make them feel wholesome and happy. Suicide is at its highest and I believe this is due to the lack of support and empowerment they are exposed to.

Alignment with local board priorities:

Promote youth leadership and participation in employment, education training and business

The United Nations Youth NZ is organising a Globalisation tour in East and South East Asia. The Tour is an opportunity to gain first-hand insight into different business cultures in Asia and how New Zealand engages with our Asian trading partners. The Tour involves meetings with many prominent businesses, government agencies, international organisation and universities, such as Tencent (Asia's most valuable company), Huawei, New Zealand Trade and Enterprise, and the China Foreign Trade Centre. There are 12 delegates attending this tour, who were selected from all universities in New Zealand. I am the only Pacific Islander on this tour, and I believe this will influence current and uprising generation in our community. To decline the act of crime committed in our community, and to also encourage our youth that anything is possible when you put your heart and soul towards it. I believe this will be one of many celebrations of the successes our generation and uprising generations will contribute to the migrant dreams our parents, elders and ancestors have dreamed of. This is an achievement that celebrates the community as well. It takes a village to raise a child and the community I was raised me has played a massive role that has led me to this achievement. Therefore, this is how I believe my project will support the selected priority.

Collaborating organisation/individual	Role

Papatoetoe Athletics Club Incorporated

Legal status:	Incorporated Society	Activity focus:	Sport and recreation
Conflicts of interest:	None identified		

Project: Athletics as a family sport

Location:	Omana Park, Omana Road, Papatoetoe		
Summary:	Our project is to make athletics accessible and available for ALL ages in the Otara-Papatoetoe area. By doing so, it will create more if not better interaction from Parents of children registered with the club		
Dates:	16/10/2018 - 19/03/2019	Rain dates:	-
People delivering:	10	People attending:	1000
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

1. To enable local talent whether young or old to be able to represent the Otara-Papatoetoe area.
2. To foster health literacy within our parents/club members - we have a higher representation of Pacific Island cultures who have a higher burden of ill-health within the Counties Manukau region than other cultures.
3. For children to widen their social connections, have fun, be active and make friends.
4. For the children to be sun safe in hot weather - covered by shade provided by Gazebo.

Measurement will be based on:

- Attendance at club nights
- Participation in events at regional and national levels
- Athletes returning year on year due to enjoyment, friendships, success.
- Parent surveys.

Alignment with local board priorities:

Promote better health and wellbeing in the community

We promote health and wellbeing in our community through our Athletics Club.

Traditionally we have catered for ages 2 years old to 14 years old. We have now opened to older athletes for ages 15-17 Juniors as well as Seniors and Masters.

By promoting athletics as a family sport that multiple generations can participate in, we have a wider stake in the community.

Our Athletics club is situated in a very diverse cultural population. There is a high percentage of registered athletes who identify as Pacific Island. Being fit and active is a top health priority within Counties Manukau DHB in relation to the poor physical health outcomes of Pacific and Maori. We

are promoting an active life for children and encouraging parents to be present and involved in the running and participating in activities.

We have huge talent within the local community and offer cheaper fees than most other clubs - due to the lower socio economic status of many of our community members.

We want to grow our local talent and keep them in Otara/Papatoetoe area. We need better equipment to retain and grow the sport.

Collaborating organisation/individual	Role

Auckland Seniors Support And Caring Group Incorporated

Legal status:	Incorporated Society	Activity focus:	Community
Conflicts of interest:	None identified		

Project: 2018 Christmas Party and Chinese Spring Festival celebration

Location:	Te Puke Otago Community Centre		
Summary:	Christmas is an important celebration in New Zealand. We migrants enjoy the celebration. Chinese spring festival is the most important celebration in tradition. Chinese people like to get together to share their happiness and best wishes on the festival. It is a special day for Chinese ,esp. for the Chinese seniors who enjoy the traditional culture so much.		
Dates:	06/12/2018 - 06/12/2018	Rain dates:	-
People delivering:	150-200	People attending:	200
% of participants from Local Board		90%	

Community benefits

Identified community outcomes:

People esp. old people meet together to celebrate traditional festival by watching performances and sharing food . Some of them come from the rest homes; some from other ethnic groups; most of them from our group members and volunteers. They can be able to feel happy and gay through the community event. They are like brothers and sisters in a big family.

Must be no more than 200 words. Describe three things you want the project to achieve in terms of benefits for participants and/or others.

The whole event will be taken by photos and videos which will be shown in our Facebook. More and more local people will know us and join us next time. The attendees will tell other people about our interesting event also.

Alignment with local board priorities:

Celebrate heritage and cultural diversity of our communities

Chinese spring festival is one of the most important celebration Festivals in tradition. Chinese people like to get together to share their happiness and best wishes on the festival. It is a special day for Chinese, esp. for the Chinese seniors who enjoy the traditional culture so much. Christmas party for Chinese is also important, just to celebrate heritage and cultural diversity of our communities.

Project: Cultural assimilation by celebrating Christmas the New Zealand way

Location:	Girl Guide Hall, 68 Everglades Drive, Goodwood Heights, Auckland		
Summary:	<p>Celebrating Christmas, the New Zealand way as a group, which will provide relief from boredom and facilitate bonding among the members of the association who are senior citizens of the local community. Providing them relief from general chores and from isolation. This will have positive effects on the general quality of their lives.</p> <p>Providing the members entertainment with cultural items, music, dances, etc.</p> <p>Facilitating cultural assimilation between senior citizens of Maori and Indian descents by celebrating Christmas together as a group. Raising awareness of Christmas by celebrating it with people of different cultures.</p>		
Dates:	22/12/2018 - 22/12/2018	Rain dates:	-
People delivering:	11	People attending:	120
% of participants from Local Board		60%	

Community benefits

Identified community outcomes:

- 1) Celebrating Christmas, the New Zealand way as a group
- 2) Assimilation of Maori and Indian cultures by celebrating Christmas together
- 3) Enabling the members to be connected and their families supported and strengthened. Enhancing the quality of life and well-being of the members.

The seniors of the association, who are mostly immigrants, will have a better insight into the New Zealand way of celebrating Christmas

Increased awareness of Māori culture by members of the association.

Alignment with local board priorities:

Celebrate heritage and cultural diversity of our communities

Facilitating cultural assimilation between senior citizens of Maori and Indian descents by celebrating Christmas together as a group. Raising awareness of Christmas by celebrating it with people of different cultures.

Celebrating Christmas, the New Zealand way as a group, which will provide relief from boredom and facilitate bonding among the members of the association who are senior citizens of the local community. Providing them relief from general chores and from isolation. This will have positive effects on the general quality of their lives.

Providing the members entertainment with cultural items, music, dances, etc.

Collaborating organisation/individual	Role
None identified	

Demographics

Maori outcomes:	<i>Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)</i> The local Maori elders will be invited to attend the function. The local Kaumatua will be requested to perform the powhiri. This will increase the awareness of the Maori culture among the immigrant community - Indians
Target ethnic groups:	Specific ethnic group New Zealand European, Māori, Pacific Peoples, Indian
Promoting SmokeFree:	All members are non-smokers. General announcements will be made prohibiting smoking during the celebration
Zero waste minimisation	Attempts will be made to minimize the use of disposable plates, utensils & plastic ware

Project: Establishment of a library for the Bipolar Support Group

Location:	28C Lambie Drive, Manukau		
Summary:	We are a peer led Bipolar support group for people living in the Counties Manukau District Health Board area. We would like to establish a library for group members to access up to date and relevant resources giving them information in regard to living with Bipolar. We believe having a library of resources for members to access will be empowering as we read about other people living with this mental health illness with positive outcomes. We would like to see our group contributing to the de-stigmatisation and reduction of harm in this era of high suicide rates.		
Dates:	02/11/2018 - 29/01/2019	Rain dates:	-
People delivering:	5	People attending:	Anyone living in the Counties Manukau District Health Board area living with Bipolar
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

Having resources available to members of the community that can be recommended by current members of our group would be beneficial in learning about living with Bipolar. Being educated about the various ways in living with Bipolar is very empowering. Having access to books about real life experiences in regard to Bipolar is a way in which we can contribute to reducing the stigma around living with mental illness.

People borrowing the books would be the most obvious measurement of positive outcome. But, the discussions that would occur due to members reading the resources would be the most remarkable outcome. Then, from these discussions we would encourage other members to read the same material. We would like to encourage a book club like discussion around the topics raised in the resources.

Alignment with local board priorities:

Promote better health and wellbeing in the community

We are a volunteer, peer led support group for people living with Bipolar operating in the Counties Manukau District Health Board area. We are reliant on DRIVE Consumer Direction Counties Manukau and other health professionals in the Counties Manukau District Health Board area for referrals of new members. We would like to establish a library to give members of our support group, and their families and friends, access to up to date and relevant information which would promote better health and wellbeing in the community.

UNITING CHRISTIAN CHURCH YOUTH PAPATOETOE

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: "Christian Youth Empowerment' (CYE)

Location:	87 Hillside Road Papatoetoe		
Summary:	<p>-Our project named" CHRISTIAN YOUTH EMPOWERMENT (CYE) is initiated to help support our family and youth in our community to break the cycle "Our motto is to encourage the youth to become confident, self-efficacy & Resilience to choose a healthy lifestyle. Our project has a plan for 3 months from 1st of October to December (for the1st cohort) and 2nd cohort starts from December to February 2019 before school starts. We have two team challenge project:</p> <p>1) "WE ARE FAMILY " challenge 10 families to register and celebration plan of success is a plan for X-mas.</p> <p>2) "POINTVIEW WALK CHALLENGE"- will be for 4 age groups : (50-60 yrs)(50-40)(30-20) & (15-8)</p>		
Dates:	20/10/2018 - 22/12/2018	Rain dates:	-
People delivering:	30 to 40	People attending:	50
% of participants from Local Board	80%		

Community benefits

Identified community outcomes:

Obesity and diabetes rate is increasing leads to depression, diabetes and heart disease.

Behavioural and mindset changes are the keys to a healthy lifestyle. Our children have the higher level of inactivity than any other group in NZ (Ministry of Health, 2016)

Our project named" CHRISTIAN YOUTH EMPOWERMENT (CYE) is initiated to help support our family and youth in our community to break the cycle "Our motto is to encourage the youth to become confident, self-efficacy & Resilience to choose a healthy lifestyle

-empowerment/self-efficacy and become more resilience

-healthy life and improve wellness

Weight monitoring, blood pressure and blood sugar monitoring will evident the success of the project.

The volunteer nurse will invite to have health talks and will also assess their level of health knowledge if need support there are health resources available to offer.

The success of weight loss and determination to make difference to own life will be gifted as reward.

-will be open in public but the venue will be an issue due to size allowed

-photos of activities and our future and past activities /project will be provided if requested.

Alignment with local board priorities:

Promote better health and wellbeing in the community

Pacific people have the poorer health and are dying young due to unhealthy lifestyles. The latest health survey reported Pacific people to have the lowest life expectancy rates and face an inequitable burden of chronic disease including obesity and diabetes. (Ministry of Health, 2016) Obesity and diabetes rate is increasing leads to depression, diabetes and heart disease. Behavioural and mindset changes are the keys to a healthy lifestyle. Our children have the higher level of inactivity than any other group in NZ.

Our project named" CHRISTIAN YOUTH EMPOWERMENT (CYE) is initiated to help support our family and youth in our community to break the cycle "Our motto is to encourage the youth to become confident, self-efficacy & Resilience to choose a healthy lifestyle. Our project has a plan for 3 months from 1st of October to December (for the1st cohort) and 2nd cohort starts from December to February 2019 before school starts. We have two team challenge project:

1) "WE ARE FAMILY " challenge 10 families to register and celebration plan of success is a plan for X-mas.

2) "POINTVIEW WALK CHALLENGE"- will be for 4 age groups : (50-60 yrs)(50-40)(30-20) & (15-8)

There will be a volunteer nurse to monitor the weight, blood pressure, blood sugar and give health talks at church and youth gathering. Other activities will continue to support our programme is Zumba, practising singing and dancing every Saturday evening and get together to boost their confidence. Our youth program has been running and the need of ongoing support will help their mindset to positive thinking regards healthy living and wellbeing.

The funding we are asking will help support our activities with expenses to buy a scale, watercooler to use by the group and to pay for the venue we used most as our centre and at last, we would like to reward the successful team /group after every 3 months of the challenge. We will measure the successfulness of this project against the weight loss and empowerment to make own healthy choices.

Thank You

Parenting Place Charitable Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Provision of Toolbox parenting courses, focusing on Maori & vulnerable families

Location:	Community venues, social service agencies and private homes within the Ōtara-Papatoetoe local board area		
Summary:	Our 6-session parenting courses provide practical skills and strategies to build strong healthy families. We request funding towards running 4 courses, which will benefit approx. 40 parents and their families. Toolbox encourages collaboration within the community and works closely with social service agencies and community groups. Our aim is to equip parents with the skills they need to build strong families which will lead to stronger communities.		
Dates:	05/11/2018 - 30/08/2019	Rain dates:	-
People delivering:	6	People attending:	40
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

The community outcomes Toolbox courses in Ōtara-Papatoetoe will provide are:

1. A foundation for long-term systematic social change through its impact upon families involved. For an alarmingly large number of attendees, the material is completely new. They may be several generations removed from functional family life and for them, the knowledge presented is revolutionary. As individual lives are transformed through parenting education, the community is transformed.
2. Ensuring that every person who wants to improve their wellbeing through parenting by attending a Toolbox course is able to.
3. Ensuring the courses are engaging, relevant, up-to-date, applicable to life and enjoyable so that most participants attend at least 5 out of the 6 sessions.

We will know that we have achieved these outcomes by successfully running at least 4 Toolbox courses in the Ōtara-Papatoetoe local board and receiving positive feedback from participants, indicating parents are making positive choices in their parenting through gaining new skills.

Participation and completion rates will be monitored, as there is a much greater likelihood of participants trying new concepts and strategies if they have completed the whole programme.

We will measure the level of subsidies given and offer up to 100% subsidy to those participants who need it, so that financial circumstance is not a barrier to participation.

We will ensure our facilitators are well trained and measure the participant attendance on each course.

Alignment with local board priorities:

Promote better health and wellbeing in the community

The aim of the Toolbox parenting programme is to help parents create strong and healthy families, by providing them with a 'toolbox' of parenting education skills and strategies. When families are flourishing then it will result in improved health for the whole community, as the skills learned enable parents to provide a safe, healthy and nurturing environment in which to raise their family. As young peoples' lives are transformed through receiving parenting education, communities will also be transformed.

Collaborating organisation/individual	Role

Papatoetoe Seventh-Day Adventist Church	Community venue hosting & promoting Toolbox parenting courses.
Wiri Central School	Community venue hosting & promoting Toolbox parenting courses.
Footsteps Preschool Papatoetoe	Community venue hosting & promoting Toolbox parenting courses.

Demographics

Maori outcomes: *Māori participation - Māori priority group, target group, high representation or Māori staff delivering*

The Building Awesome Whānau Toolbox course is designed specifically for Māori families. It was developed in collaboration with Māori staff, Toolbox facilitators, educators, kaumātua, social service agencies and Māori families. This Toolbox considers needs, strengths, and socio-economic nature of Māori. The best evidence-informed parenting techniques and insights are presented in a way that is understandable, relevant and culturally appropriate. Particular attention is paid to using appropriate and understandable language in all material. Although designed for Māori it has proven to have appeal and efficacy with a wide range of vulnerable families. Our ultimate aim is that it will increase the number of at-risk families completing a parenting programme and reduce disparities in health and social outcomes within this sector.

Target ethnic groups: All/everyone

Promoting SmokeFree: Toolbox courses aim to improve the wellbeing of Ōtara and Papatoetoe families and young people. Toolbox participants receive messages about the importance of creating family values and living by them. Through this process, parents are encouraged to examine their beliefs, habits, routines and home life and this often leads to a reduction in negative habits such as smoking and drinking happening in the home.

Zero waste minimisation We don't specifically include any content about waste minimisation.

0-5 years	< 15 years	15-24 years	25-44 years	45-64 years	>65 years	All ages
%	%	30%	70%	%	%	%

Financial information

Amount requested: \$1,940

Requesting grant for: If successful, a grant from the Ōtara-Papatoetoe Local Board would be used to contribute towards additional fee subsidies for low income parents, the printing of course handbooks to provide them free to participants, and coordinator & volunteer facilitator expenses.

If part funded, how would you make up the difference:

If we are unsuccessful in raising enough funds we will still run Toolbox courses in Ōtara and Papatoetoe however we may deliver fewer courses than the number requested by the community and will not be able to offer as many subsidies as needed.

Cost of participation: Toolbox course fees are subsidised by our fundraising to \$75 per individual and \$110 per couple (incl. GST). We often subsidise this further, sometimes up to 100% if funding allows.

Legal status:	Limited Liability Company	Activity focus:	Sport and recreation
Conflicts of interest:	None identified		

Project: QES Sports Event

Location:	Papatoetoe Recreation Centre		
Summary:	<p>QES Sports Day is designed to get participants involved and positively impact them through sports and other activities. We are promoting mental and physical well-being, team work and participation.</p> <ol style="list-style-type: none"> 1. Some equipment will need to be purchased. 2. There is a cost for the venue hire 3. Lunch and Hydration will need to be purchased 4. External staff members with experience in Sport and Recreation to help facilitate the sports day with activities and proper umpiring will need to be sourced. 5. QES will provide transport to and from the venue. 6. QES will provide staff members to supervise and 7 drivers for vehicles 		
Dates:	06/12/2018 - 06/12/2018	Rain dates:	-
People delivering:	Approximately 90 participants plus any other community members	People attending:	300
% of participants from Local Board		60%	

Community benefits

Identified community outcomes:

The benefits to the community will be obtained through the positive impact a sports will have on our students who are members of this community.

1. The sports day is designed to teach the students team work. They will need to work together to strategise as a team.
2. To enhance their communication and participation skills. .
3. They will also understand rules and compliance within a time frame and structure of a game.
4. Most of all it is really good for their well-being to do physical exercise and participate in some sports as a team.

Our incomes are measured by:

1. Improved Attendance
2. Positive Participation
3. Genuine Feedback

What we hope to see are the following changes:

1. Participants will be open to more communication, verbal and non-verbal
2. Participants will try new activities and feel comfortable to try new things

3. Participants will interact positively in a group and team environment

Alignment with local board priorities:

Promote youth leadership and participation in employment, education training and business

QES has the largest intake of Maori and Pasifika youth at risk in the PTE sector between the ages of 16-19 in the Manukau area, this information is from Tertiary Education Commission Nga Kete data. Our programmes cover NCEA level 1 & 2 and vocational programmes in Trades, ECE, Automotive and Computers. We promote leadership and education which also leads to better employment skills.

Collaborating organisation/individual	Role
Sporting Edge	Provision of expertise
Papatoetoe Recreation Centre	Some Equipment provided
Life Leadership College	Provide mentors for students

Demographics

Maori outcomes: *Māori led - either a Māori organisation that is applying or Māori directed (came about as a request from Māori).*

QES is the largest Maori and Pasifika Youth Guarantee PTE provider in the Manukau Area. Our ratio of Maori staff is very highly represented and with this brings a high level of Maori Competency - QES works closely with AKO Aotearoa around our Maori and Pasifika competencies to ensure we have a focus to close the parity gap for not only our Maori students but also our Pasifika students.

Students 47% of Maori descent 45% Pasifika and 3% other
 Drivers 5 x Maori descent 2 x Pasifika descent
 External Staff 2 x Maori, 1 x Pasifika
 Staff 3 x Maori 3 x Pasifika 2 x other

Target ethnic groups: All/everyone

Promoting SmokeFree: All our events are SMOKEFREE - there is no smoking allowed in the vehicles or at the site.

Zero waste minimisation Our message is mainly focused around our hydration and the use of Paper cups instead of individual plastic bottles

Manukau Taniwha BMX Club Incorporated (formally Papakura City BMX Club)

Legal status:	Incorporated Society	Activity focus:	Sport and recreation
Conflicts of interest:	None identified		

Project: Power Up

Location:	Manukau Taniwha BMX Club, Colin Dale Park, Prices Road, Wiri, Auckland		
Summary:	Manukau Taniwha BMX Club (formally Papakura City BMX Club) is currently building a new BMX track at Colin Dale Park, Wiri. There is no power, water or services at the park. In order for us to run our BMX start gate, computers, water pumps and lights we require power. Two inverter generators are an absolute necessity to power our site.		
Dates:	05/11/2018 - 30/11/2018	Rain dates:	-
People delivering:	70	People attending:	approximately 10,000 per year
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

The club is able to provide a safe, supervised environment that not only assists children and adults in learning to ride, it encourages them to extend their skill capabilities. Riders find navigating uneven terrain, jumps, and corners improves their balance, their ability to anticipate what is happening on the track, and the evasive options available to them if another rider changes their racing line, falls off or physically leans on them. A natural extension of these skills is evident in their awareness of their surroundings so are better equipped to undertake safe manoeuvres when riding unsupervised on the road. By providing a challenging physically demanding course it naturally appeals to the 9 – 12 age group who are likely to indulge in high risk behaviour and provides a natural safe outlet for their risk taking behaviour. Skill levels of riders continue to increase, and the extreme nature of the sport, combined with the camaraderie, continues to keep youth and adults alike engaged and enthralled.

- # Having our facility open for public use;
- # Being able to power our start gate;
- # Being able to access water from our water tanks to water the track to ensure it is safe for riding;
- # Having children, teenagers and adults riding the BMX track;
- # Riders having fun in an exhilarating atmosphere;
- # Riders developing their cycling skills;
- # Riders living active lifestyles;
- # Holding Club trainings;
- # Holding weekly Club Nights - Thursdays;
- # Holding 'Have-A-Go' events to introduce new riders to BMX;

Experienced riders mentoring new and younger riders

Alignment with local board priorities:

Promote better health and wellbeing in the community

We are creating a world class cycling facility in the Ōtara-Papatoetoe Local Board area. Through the promotion of better health and wellbeing in the community Manukau Taniwha BMX Club will provide a fun and exhilarating cycling experience for everyone. Cycling skills are taught in a safe and controlled environment delivered by our experienced coaches and mentors. The club and its facilities provide the community with an opportunity to commence a life-long involvement with cycling, whether recreational or competitive.

Collaborating organisation/individual	Role
None identified	

Demographics

- Maori outcomes:** *Māori participation - Māori priority group, target group, high representation or Māori staff delivering*
- We have been consulting with local kaumatua to gain more matauranga about the local area, its history and this has brought about our new club name Manukau Taniwha BMX Club. We have already been in contact with Mr T (Teau Aiturai) from Time to Thrive - To Stay Alive, which aims to equip south Auckland kids with bikes, bike skills, and encouraging them all-round towards a healthy lifestyle. Mr T is looking forward to working alongside us and also involving our club in the Bikes in School initiatives to improve well-being through cycling.
- Target ethnic groups:** All/everyone
- Promoting SmokeFree:** Our club has been Smoke-Free for a decade and this continues. There are many benefits to having a smokefree club, including:
- # positive role modelling behaviour for tamariki, youth;
 - # a healthy whānau-friendly environment;
 - # protecting non-smokers from the dangers of second-hand smoke;
 - # catering for whānau who do not smoke;
 - # a progressive healthy image in our community;
 - # encouraging stopping smoking among whānau and the wider community;
 - # reduced fire risk;
 - # reduced cleaning and maintenance costs
- Zero waste minimisation** Yes, we have been very aware of minimizing incoming waste during the track building process. Once our facility is open to the public we intend to set up recycling bins and education our members and the community on their use and more importantly reducing the incoming waste.

Project: Teaching Punjabi folk dance -Gidha & Bhangra to Ladies and Children

Location:	2 Sutton Crescent Papatoetoe Auckland-2025		
Summary:	WCT aims to continue conducting Gidha & Bhangra classes twice a week to teach Punjabi folk dance -Gidha& Bhangra to the ladies & children for keeping them attached to the roots of the Punjabi Tradition.		
Dates:	09/11/2018 - 03/05/2019	Rain dates:	-
People delivering:	4	People attending:	50-70
% of participants from Local Board		80%	

Community benefits

Identified community outcomes:

Ladies & Children attending the classes will get an opportunity to learn , express and enhance their knowledge of Punjabi traditional dance -Gidha & Bhangra and can also share their Culture & Tradition with the upcoming generation living far from their home country.

There has been high demand from the ladies who attended our last dance classes to continue conducting these classes who have been benefited in terms of physical fitness , helped them in overcoming loneliness , boredom & depression. There has been continuous increase in the number of students attending the classes this year.

Alignment with local board priorities:

Celebrate heritage and cultural diversity of our communities

Woman Care Trust is planning to continue conducting Gidha & Bhangra classes with a aim to preserve & promote our cultural heritage and keep the ladies & children attached to their tradition. WCT aims to enhance the sense of participation in Punjabi folk dance for organising various cultural events & activities and bring out their hidden talent.

Dance Therapy NZ

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Dance 4 Us South

Location:	35 George St, Papatoetoe		
Summary:	Dance 4 Us is a weekly community-based programme for adults and young adults with special needs and disabilities. The drop-in nature and koha donation allows equal access for all. It provides a fun physical activity where participants can actively gain skill sin creativity as well as developing a sense of belonging and community acceptance, as well as the experience of being part of a cohesive and supportive community.		
Dates:	01/05/2019 - 27/06/2019	Rain dates:	-
People delivering:	10	People attending:	2000
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

Dance 4 Us is a vibrant, expressive dance, movement and drama programme for young people and adults with disabilities. Its purpose is to provide this community with an active and fun activity during the day as a refreshing break from community homes, and a direct way of participating in their local community in meaningful ways. We aim to provide for a wide range of special needs including Cerebral Palsy, Down syndrome, cognitive delays and physical disabilities; attendees of all abilities will be able to foster social connections and emotional literacy, as well as experience the sheer joy of movement in a safe and fun environment. This, in turn, ultimately brings a positive input and energy to their interactions with their parents, siblings and carers, strengthening the community as a whole.

We will measure these outcomes using feedback forms at the end of the pilot (and, as we hope to continue, twice a year going forward), along with therapist observation (recorded in session notes) and attendance numbers. We will also seek feedback from community organisations in the local area. If expected outcomes of the project occur, we would expect to receive positive feedback that participants enjoy coming to the workshop sessions; the sessions have a high level of attendance, which would represent a wide scope of community inclusion; participants able to develop their skills and abilities as per therapist observation; and continued demand for the programme by participants, caregivers/parents, and local community organisations.

Alignment with local board priorities:

Community capacity building and empowerment

Our Dance 4 Us workshops use dance movement therapy to support and empower young adults and adults with special needs to get out and actively participate in meaningful, rewarding, creative activities, where they are accepted and valued as they are. Due to the high needs of many of our

clients, mainstream dance classes just can't cater for them, and so this programme ensures that this vulnerable population is included in, and cared for by, the community.

Collaborating organisation/individual	Role
Papatoetoe Town Hall	Venue partner

Demographics

Maori outcomes: None identified

Target ethnic groups: All/everyone

Promoting SmokeFree: Each session will be held in a fully smoke-free environment at a smoke-free venue and will be designed, and led, by trained Dance Movement Therapists who promote mental and physical health, which contributes to helping people live healthy, smoke-free lives.

Zero waste minimisation Yes. Members of the public are able to donate dance materials/equipment to our programmes, upcycling them and diverting them from landfill.

Life Education Trust Counties Manukau

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Life Education workbooks to help deliver lessons

Location:	in the grounds of Chapel Downs School and Papatoetoe East		
Summary:	<p>Our lessons, taught by a fully registered & qualified teachers to children & youth aged 5-13, are integrated into the NZ's Health & PE curriculum & delivered in unique multi-media mobile classrooms in the school grounds.</p> <p>Our educators meet with the schools to discuss the main core subject the school wants covered & the lessons are planned using our 60 'Big Questions'. Lessons are planned to suit each age group with skills & knowledge built upon every year and stage we teach them at.</p> <p>With the fantastic ethnic diversity of the students we teach in Otago-Papatoetoe, we celebrate & include all the different customs that our students bring with them & discuss how they all contribute positively & equally to the Otago-Papatoetoe community.</p>		
Dates:	02/11/2018 - 19/12/2018	Rain dates:	-
People delivering:	1	People attending:	1,000 students aged 5-13
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

NZ Health Survey 2016/2017

Nearly 100,000 children aged 2-14s (12.3%) were obese. This has increased by 8.4% since 2006/2007.

Children living in the most socio-economically deprived neighbourhoods were 2.5 times as likely to be obese as children living in the least deprived neighbourhoods, after adjusting for age, sex and ethnic differences.

We have the ability to help reverse these trends in the Otago-Papatoetoe community by nurturing good everyday habits that grow into healthy life skills that are maintained & shared with extended family for years to come and create positive cycles.

The outcomes for the Otago-Papatoetoe community will be:

Improved awareness & knowledge on key health & nutrition areas

Improved attitudes towards healthier behaviours

Improved skills & understanding about how to make healthier choices

1) The classroom teacher of every student we teach are invited to evaluate the lesson they have just observed across a range of subjects from the engagement of our educator with the students, our educational resources, content of the lesson, age-appropriateness of lesson etc. All results are gathered & assessed by Research NZ.

- 2) Being invited back to teach at the school on a regular basis
- 3) Feedback, retainment & building of knowledge from seeing the same students as they move through the school

Alignment with local board priorities:

Promote better health and wellbeing in the community

Our sessions contribute greatly towards a healthy, involved & connected Otara-Papatoetoe community by:

- 1) providing workbooks that students can take home & share their awareness & knowledge on key health & nutrition areas with their families that include follow-up activities to help cement positive changes that can be made
- 2) offering a parent session at every school we visit so further in-depth questions can be asked & practical tips given eg meal plans, seasonal/cheaper eating, how to recycle more in the home, cyber-safety
- 3) being pro-active in improved attitudes towards healthier behaviours - giving many examples to students & parents about free & easy activities they can do together to increase their participation in sport, leisure & recreation activities = less time sitting down on technology & increased family time

Collaborating organisation/individual	Role
Garden To Table 'Empower'	a joint venture between Life Education & GTT. A comprehensive & sustainable programme to help tackle child obesity through: teaching about balanced diets, meal planning & understanding their body's nutrient needs - GTT turns it into action by growing, harvesting & cooking fresh fruit & vegetables in the school's grounds.
Dove Self-esteem project	where our educators provide training to school teachers in our area re their student's healthy development & to avoid valuing themselves & others on the basis of appearance

Demographics

- Maori outcomes:** *Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)*
 As an inclusive organisation we use Te Reo words throughout our lessons in handouts, digital means and all our workbooks are available in Te Reo (see attached). With a large proportion of our students in Otara-Papatoetoe identifying as Maori, it is paramount to us that Te Reo is highlighted & used in our classes & to teach it across all ethnicities. Our teachers continually update their resources via their on-going training & personal development.
- Target ethnic groups:** All/everyone
- Promoting SmokeFree:** 'Substances' is one of the five core subjects we teach to intermediate students. We discuss & roleplay the decision-making processes they may come across & go through when seeing their friends & peers smoke or they are offered a variety of substances to smoke. We talk about the effects smoking has on your brain, body, finances & making decisions. A Pull Apart Torso - full medical school teaching standards (with 28 parts) is used to illustrate points. Latest research is used from all health sectors in our lessons.

We are the largest external programme provider working in schools and are proud of the positive trend in the reduced rate of binge drinking, smoking, bullying and marijuana use amongst NZ youth.

Zero waste minimisation Many of our lessons talk about reduce, re-use & recycle and the ways individuals & the community can work together to improve the environmental health of the Manurewa Local Board community-SEE ATTACHED OF EXAMPLE LESSON PLAN

Financial information

Amount requested: \$2,000

Requesting grant for: Our workbooks which are an essential part of our programme in allowing our students to share the information learnt with their parents and caregivers at home. The school's teachers also use them to reiterate information topics covered thus enable it to be remembered and used throughout the year.

If part funded, how would you make up the difference:

We are committed to teaching in the Otara-Papatoetoe schools & we are in no doubt that more invites to teach in more schools in the area in this funding period will come in after this application has been processed thus all our fundraising efforts

will go towards ensuring we uphold our promise to deliver. WE HAVE ONLY PUT IN \$0.00 CONTRIBUTION BECAUSE WE DO NOT KNOW YET HOW MUCH WE WILL FUNDRAISE BETWEEN NOW AND IF THE FUNDING IS APPROVED.

Cost of participation: The cost is \$17.92 per student. We charge schools a nominal fee of \$5 for primary school students age 5 - 11 (receive two lessons)/ \$7 for intermediate students age 11- 13 (receive three lessons), however if a school indicates that the visit cannot proceed due to this charge, our Board has given us a mandate to waive the fee to ensure that no child misses these important health & nutrition life lessons.

AMMI Athletics Club Incorporated

Legal status:	Incorporated Society	Activity focus:	Sport and recreation
Conflicts of interest:	None identified		

Project: Delivering Athletics to Local Board community of Otago

Location:	Rongomai Park		
Summary:	This fund will go towards the purchase of our 20ft container which will be used for the safekeeping of our brand new Athletics Equipment and gear. Having our container at the allocated spot at Rongomai Park, will ensure that AMMI Athletics Club have the necessary equipment at hand and when required for coaching and training sessions.		
Dates:	01/10/2018 - 31/03/2019	Rain dates:	-
People delivering:	25	People attending:	150+
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

Connectedness - to bring diverse community and whanau together from local schools; building working relationships with local schools

Participation - to increase engagement from all age-groups, genders and abilities in competitive and non-competitive athletics

Critical & Social Literacy - to develop the participants' sense of awareness of social literacy and critical literacy

Connectedness - number of participants/registrations through local schools

Participation - participation numbers during training and competitions

Critical & Social Literacy - through observations and informal conversations/dialogues with athletes, parents and whanau throughout the season

Alignment with local board priorities:

Promote better health and wellbeing in the community

Alarming statistics from sources such as Auckland Council, Local Boards, Counties-Manukau DHB, Active Auckland, Athletics NZ, Sport NZ, Ministry of Education, Ministry of Youth Development and Ministry of Justice suggest that our geographical area of Otago is in high demand of positive changes. By AMMI Athletics Inc setting up base at Rongomai and delivering athletics right by doorsteps of the highly diverse and populated areas of Otago, we are creating a platform of opportunities to motivate and engage our community in the sport that's known as the 'Mother of Sports'.

Collaborating organisation/individual	Role
AMMI School of Sports & Fitness Ltd	Delivery Partner for Specific Event Coaching

-------------------------------------	--

Demographics

Maori outcomes: *Māori participation - Māori priority group, target group, high representation or Māori staff delivering*

Sending invitations on Club Letterhead to local schools' Maori students (and their families) to join AMMI Athletics Club Inc

Target ethnic groups: All/everyone

Promoting SmokeFree: Smoke-free is an expectation at all Athletics training/coaching sessions. This will be made known either through selected media modes as well as displaying smoke-free banners/messages onsite during training.

Zero waste minimisation Bins are already at grounds and signs will be displayed to encourage proper disposal of wastes and unnecessary rubbish brought to the grounds/park.

Habitat For Humanity Greater Auckland

Legal status:	Incorporated Society	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Habitat Curtain Bank

Location:	8 Ormiston Road, Otara, Auckland		
Summary:	The Habitat Auckland Curtain Bank provides low income Auckland individuals and whanau with free curtains for their home. The Curtain Bank relies on the generous donations of individuals and funders who donate their time, finances or their preloved curtains. This not only helps keep a home warm and dry, but also leads to better respiratory health, especially in children and elderly, and helps significantly with reducing energy bills. Many families, particularly living in rental properties cannot afford to buy good quality curtains. We are seeking funds to help with laundry costs for donated curtains so that we can provide clean, healthy curtains to families.		
Dates:	01/11/2018 - 30/06/2019	Rain dates:	-
People delivering:	10	People attending:	1000+
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

Our intended outcome is to eliminate poverty housing and improve the well-being of low income families across Auckland. The three main benefits of our service are warmer, drier homes, fewer respiratory illnesses, especially in children and elderly people, and reduced electricity and gas bills. In January 2018, we installed curtains for Karanga and her family. The damp home was making family members sick especially Karanga's two-year-old son who had to make frequent trips to hospital last winter. The Habitat team upgraded the house's insulation and installed repurposed, full length lined curtains throughout the house. Karanga says "everything happening in the house now is being done for my son." She told Habitat her son is healthier and is "finally sleeping right through the night." The Habitat Curtain Bank also helped Rwihi who has struggled with his health including a debilitating case of pneumonia last winter. "This will help hugely in making sure that I do not get sick again this winter, so a massive thank you to the curtain bank for the beautiful maroon double lined curtains." We are grateful that you recognise the contribution we make within our community working towards eradicating poverty housing.

We monitor our Curtain Bank families such as Karanga and Rwihi's to show how the addition of clean, healthy, warm curtains in their home leads to better health outcomes, warmer temperatures, reduced mould growth, and reduced electricity bills. Our curtains provide a long term benefit that helps the whole family.

Alignment with local board priorities:

Promote better health and wellbeing in the community

Habitat for Humanity is an international housing charity, working locally towards its vision of a world where everyone has a decent place to live. In pursuit of this vision, Habitat provides a wide range of home construction, repair, renovation, education and advocacy services for low income families aimed at building strength, stability, and self-reliance through shelter. Housing issues in New Zealand affect New Zealand's wealth, health and quality of life. The high cost of housing keeps families in a cycle of poverty, as insufficient income is left to meet other basic needs such as food, clothing, transport, medical care and education. A large number of people on low incomes live in older housing stock, which are most often cold and damp. Lack of heating and insulation means that homes are ill-equipped to deal with winter temperatures. These poor conditions are linked to increased illnesses and infections, especially in young children. The flow-on effects from this unhealthy environment erodes families' hope and self-worth and impairs children's ability to succeed in school. In addition, cold, damp homes cost a lot to heat, which is unaffordable for many low income families. The Habitat Auckland Curtain Bank provides low income Auckland individuals and whanau with free curtains for their home. The Curtain Bank relies on the generous donations of individuals and funders who donate their time, finances or their preloved curtains. Research shows that well-fitted floor-length lined curtains are effective at retaining heat in the home (www.consumer.org.nz/articles/curtains, May 2015). This not only helps keep a home warm and dry, but also leads to better respiratory health, especially in children and elderly, and helps significantly with reducing energy bills. Many families, particularly living in rental properties cannot afford to buy good quality curtains. Habitat took over the running of the service in February 2018 and since then the Curtain Bank team have provided 1590 curtains up until September 2018 which is related to 157 families. We have been experiencing a large backlog of referrals and have had to prioritise installing curtains in sleeping areas while delaying curtains in the remaining rooms. We have estimated a \$60,000.00 shortfall in funding for this service. Our ultimate goal is to eliminate poverty housing by building strength, stability and self-reliance through shelter. www.habitatcurtainbank.org.nz
