Facility Partnerships Policy

High level summary of key proposed policy positions

A focus on shared outcomes	When selecting, managing and evaluating partnerships, we will prioritise the outcomes delivered (i.e. community benefits), not just the outputs (e.g. a new building). We will partner based on aligned values and a shared vision.
	We will only enter facility partnerships to develop an asset where an asset-based solution is essential to delivering the outcomes.
Recognise, value and honour Te Ao Māori	We will enter facility partnerships with Māori that align with Treaty Principles and provide for tino rangatiratanga.
	We will acknowledge the special significance and role of marae.
Multiple models, fit-for- purpose arrangements	We will provide clear pathways for a variety of partners, facility types, partnership structures and investment mechanisms.
	We will ensure our processes and requirements take account of each individual partnership's scale, complexity, risk and the partners' capability.
Proactive and Responsive partnership tracks	'Proactive' partnerships: Council will seek partnerships through an open tendering process to address network gaps.
	'Responsive' partnerships: Council will also consider partner-initiated funding requests at set times to feed into the Annual Plan.
Investment principles to shape eligibility and priorities	We will take a principled approach to facility partnership investment decisions, and invest strategically, equitably, wisely and sustainably.
	We will invest in existing spaces in preference to building new facilities.
	We will support businesses / commercial activities playing a role in enabling viable facility partnerships in certain circumstances.
Valuing (and costing) in- kind support	We will estimate the value of 'in-kind' investment on both sides (e.g. use of council land, volunteer effort) to support better assessment of costs and benefits.
	Access to council expertise can be critical to our partners' success. Where necessary we will build capability support into business cases.
Greater focus on the partnership relationship	We will resource quality relationships over time, acknowledging these are foundational for successful partnerships.
	We will allocate a lead relationship broker to every partnership to ensure joined-up support and a better partnering experience.
Acknowledge the complexity of developing and managing assets	We will ensure community partners are well-equipped and/or supported to design, build, operate and maintain quality facility assets.
	We will ask better questions and involve subject matter experts earlier to support decision-making and reduce wasted effort on both sides.
complexity of developing and	up support and a better partnering experience. We will ensure community partners are well-equipped and/or supported to design, build, operate and maintain quality facility assets. We will ask better questions and involve subject matter experts earlier to support
