Auckland Council Community Board
Great Barrier Island
22/10/2018

Dear Izzy,

Our Committee and Club members are very appreciative of the two recent Funding Grants, one for the Defibrillator and other for the first stage of our Toilet block.

I asked Colin Philips if he could remember who built the toilet block to get an idea on how old it is; he said it was there when he started playing Golf around 1987, Colin said I should speak to Bob Whitmore. Bob said it was probably built by Pratley in 1986. Some of his graphic detail about the toilet facilities at the time are amusing but not printable.

The Community board over recent times has generously given us grants to reroof the Club, Refurnish the inside of the Club, provide funding for a new Kitchen, Solar panels and batteries, Golf cart and storage area

On behalf of the Committee and Members
Thank you again

Malcolm Harre
Secretary GBI Golf Club
