### Project: New adventure equipment

<b>Location:</b>	4 Winston Place		
<b>Summary:</b>	We are requesting funding to purchase 12 surfboards and 15 snorkelling sets to use on our Adventure Therapy and family programmes. These will be new activities we are offering to our participants as we look to diversify the activities we provide with the closing of the Waitakere Ranges. We need to be able to provide activities for our Henderson/Massey clients in close proximity due to time constraints and to maximum the adventure activities outcomes. We have received a quote from Torpedo 7 for a very good deal on their surfboards and snorkelling sets which fits it within the quick response funding bracket.

### Community benefits

#### Identified community outcomes:

1. Improving physical health by getting people outside, active, eating healthy and enjoying activities. Giving people the skills to re-create the active experiences with their families and friends.
2. Increasing family connections by assisting families to spend quality time together and build strong relationships.
3. Increasing engagement with education. Our programmes reach young people who are disengaged with education. Through connection with others, teachers, staff, activity and developing social skills this helps them succeed in academic environments.
4. Improving wellbeing and hope for the future. This is achieved through having fun, connecting with nature, enjoying activity and being with people.

Adventure Specialties Trust uses the Outcome STAR tool to measure the outcomes from our Adventure Therapy programmes. This tool includes pre and post client evaluation forms and on our longer programmes one on one discussions with participants. Our programmes are run in partnership with community organisations and schools who offer a wrap-around service. This partnership ensures the ongoing support of the participants to reach the desired outcomes.

#### Alignment with local board priorities:

*strong community organisations are making a difference*

Adventure Specialties Trust is using outdoor adventures to grow great communities. We are making a difference in the lives of young people and families through our adventure therapy, youth development and family programmes. With the closing of the Waitakere Ranges we are having to diversify the activities we provide for our groups in order to continue making a difference. We are applying for funding to purchase surfboards and snorkelling sets. This will allow us to offer these

activities in place of activities we previously provided in the Waitakere Ranges. This in turn will strengthen our community organisation to be able to meet the demand for our programmes.

The difference that we see our programmes making include enhanced wellbeing as people enjoy the Hauora of the outdoors and a sense of connection to nature as well as an increase in skills. We teach skills of outdoor activities and show local activities which in turn create confidence for our participants to become more active and enjoy the outdoors with their families and friends.

### Community benefits

#### Identified community outcomes:

- A closer community
- A more environmentally friendly community
- A more sharing community
- A more knowing community
- Each family that takes up the project will keep records of how much waste was diverted from the landfill.
- It will take photos of the veggies that grow from the worm nutrients.
- Writeups by the people using this to show what has been achieved.

#### Alignment with local board priorities:

*people are central to maintaining our environment*

By educating and involving people to divert their kitchen waste to the worm bins rather than the landfill. It is a huge boon to the community and to our environment. Each home will be given a Hungry bin and a Bokashi bin and taught how to create nutrients from waste.

### Project: Glendene Santa Run 2018

<b>Location:</b>	Throughout the streets of Glendene with the final event held at Glendene Reserve, 3 Thornlow Street, Glendene		
<b>Summary:</b>	The 9th annual Glendene Santa Run will see volunteer firefighters drive Santa around Glendene in their firetruck to deliver gifts to children at 5 'Santa Stops'. The final stop will be at Glendene Reserve, where we organise free activities for children and their families and hold a sausage sizzle. The event has been historically popular and well attended by the community.

### Community benefits

#### Identified community outcomes:

Our vision has always been that Glendene would have a sense of pride and belonging within an empowered and connected community. The Christmas season can sometimes be a struggle for families therefore celebrating the Santa run has become an event our community to look forward to every year for the last 8 years. This continues to build on the success of our regular events as it involves a variety of demographics within our community, increasing diverse engagement and working together with other local organisations and businesses.

1. As we saw with the Santa Run last year first time volunteers have become regular volunteers and regularly attend our Community monthly meetings.
2. The increase of ethnic diversity that are making use of the Hub facilities and programmes is due to the increase profile throughout the year but primarily as they see our organisation go beyond the Hub office out into their streets and reserves.
3. Continued networking with local businesses for the Santa Run has increased to collaborating together for other community projects throughout the year. i.e.: 'Share What you Can' - a can drive helping Glendene, help Glendene.

#### Alignment with local board priorities:

*people know each other and feel connected in their neighbourhoods*

As part of our Annual Santa Run we have a roving Santa & his helpers that accompanies the Fire Engine truck and stops at 4 of our major streets allowing neighbours and families to come out from their homes and own backyards to see Santa and receive small gifts for their children and connect while waiting in line. Our last stop is at the Glendene reserve and it is hosted alongside other organisations such as the Volunteer Fire Brigade, Neighbourhood support, Community constable & the Playcentre, with the support of local businesses to bring a free family event to Glendene.

Entertainment will include bouncy castles, free food and drink. Neighbours are invited from the previous stops and also have the opportunity to connect at the party.

## Community benefits

### Identified community outcomes:

The outcomes will be that people with neurological disorders will continue to attend our rehabilitation services. Our programs focus on positive outcomes. we teach people with disabilities strategies to manage their day-to-day living and increase their confidence along with their physical, emotional and mental well-being. Our services offering is fundamentally unique, and our clients build a strong sense of belonging, comradeship and friendship with organization. Adults with disabilities are often provided with affordable rehabilitation opportunities during acute stages of their condition- immediately after a stroke or if admitted to hospital following a fall for example. Our services allow adults to access rehabilitation on a continuing long term. Our clients have the opportunity to continue to work on rehabilitation and improve their functional mobility for as long as the find it beneficial to do so. We also provide the opportunity for people to maintain their level of mobility and prevent regression of secondary complications.

Fundamentally we expect to see through our rehabilitation services:

- Empowered participants, successfully managing their challenging conditions
- Connected participants, who have a place to come to share their challenges with those that understand
- Resilient participants, who can overcome their physical limits

We will be able to demonstrate that our outcomes are achieved by monitoring client population movements and tracking total number of people accessing our services, as well as tracking wait list management. All client's goal achievement is monitored and reviewed 6 months. We also carry out an annual client's satisfaction survey. We know that we are achieving our projected outcomes if clients are achieving their rehabilitation goals, if they report being satisfied with our services, and if our programs are delivered in a way that ensures our clients feel safe and supported.

Our services are not just for people with disabilities- their families benefit from our community based services as well, and our organization is very proud to be able to be a place where individuals and their families come for formal and informal support.

**Alignment with local board priorities:**

*strong community organisations are making a difference*

We are providing rehabilitation services for people with neurological conditions, such as Stroke, Parkinson's disease, Multiple Sclerosis, Cerebral palsy and Brain Injury. We are making a difference by empowering people with neurological conditions to lead more independent lives through our rehabilitation services. We meet the needs of a community who are often isolated, physically disabled and dependent on family.

### Project: Fijian Heritage Artist Talk and Workshops

<b>Location:</b>	Corban Estate Arts Centre		
<b>Summary:</b>	This project supports a set of exhibitions by Fijian artists whom are a part of promoting, reviving and passing down heritage Pacific art forms which is significant to our Fijian community living in Aotearoa. The workshops alongside the exhibition are an important feature in the public programme as it allows the community to have hands on experience and engage with the artists who will be sharing as master knowledge holders. We will be hosting a printing workshop for families to teach them about Masi, all three artists will be presenting in a panel discussion, and a life drawing workshop featuring a model wearing Masi created by Railala Gade and Fijian sculptures by Rowena Rooney.

## Community benefits

### Identified community outcomes:

The Fijian community will have an opportunity to learn about their cultural heritage from a master knowledge holder, this access is important for our Fijian community and also our wider community will be able to experience authentic knowledge.

Artist will have the opportunity to engage with master knowledge holders from the Pacific, engaging in workshops that assist in the development of contemporary and heritage Pacific art forms.

Families will be able to learn and experience art activities together, with hands on time for creating

The art community will be exposed through life drawing classes to subject matter and patterns that are ancient therefore learning about Fijian culture at the same time.

Historically knowledge is passed down through conversation and families and participants will be able to engage with our artist during the workshops and also have the opportunity to create work and learn about each of the patterns and steps to creating the heritage pieces. These pieces will be designed by themselves, so they will have a stronger understanding about what the work will mean to them.

The life drawing class exposes participants to the patterns and clothing which will be explained during their lesson, this exchange is important in the passing down of knowledge.

The artist talk provides an opportunity to the audience to ask questions in an informal and communal setting as well.

*arts, events and cultural activities reflect our many heritages*

This project supports a set of exhibitions by Fijian artists whom are a part of promoting, reviving and passing down heritage Pacific art forms which is significant to our Fijian community living in Aotearoa. The workshops alongside the exhibition are an important feature in the public programme as it allows the community to have hands on experience and engage with the artists who will be sharing as master knowledge holders. Reflecting on the loss of cultural knowledge due to the impact of migration and colonisation this workshop is an important step for those who are wanting to connect as a family to learn about Fijian Masi (barkcloth) and Ulumate (mourning wigs).

### Project: Supporting the Youthline Helpline

<b>Location:</b>	13 Maidstone Street, Grey Lynn, Auckland		
<b>Summary:</b>	<p>This application is seeking a contribution of \$2,000 to the cost of operating the Youthline Helpline. Youthline is a first point of contact for young people in New Zealand to access a wide range of youth development and support services. In most instances that first point of contact is our national, free, 24/7 Helpline that is accessible by phone, text and email.</p> <p>The Helpline costs us over \$500,000 per year to operate. It is staffed by 200 volunteer counsellors who are supervised by clinical triage staff. Last year an estimated 3,899 young people in need from the Henderson-Massey area contacted us through the helpline. It is the most important thing we do.</p>

### Community benefits

#### Identified community outcomes:

For many of the vulnerable young people we work with the first contact point with us is through the Helpline.

We are then able to link them with the help they need. We offer support services and positive role models to encourage, motivate and inspire young people to reach their full potential and create a resilient community.

We offer a range of personal development programmes. We aim to equip them with skills and insights on how to build self-esteem and improve mental-health, how to actively problem-solve, recover from setbacks and build resilience. Through their improved emotional and self-management skills young people are more likely to be in education, training and employment.

We know that when young people feel connected to their community and valued by others they gain confidence and self-esteem. This in turn provides them with the strength to make improved life decisions, to think about the long term and reduces risk-taking behaviour.

Youthline aims to provide all young people with skills and strategies to help strengthen and improve the relationships they have with the significant adults they interact with, i.e. parents, whānau and teachers. If we can do this then the community in which they live will benefit.

Evaluation of our work is important to us so we can continue to provide up to date, effective and relevant services to youth. Youthline will show we have achieved our aim to positively impact local

young people and to help them towards achieving their potential through both quantitative and evaluative methods.

Youthline has developed a comprehensive process to evaluate the effectiveness of our services. This evaluation covers client satisfaction and also measures impact outcomes. After participating in Youthline services participants are asked to complete a survey and provide feedback. This is a highly useful tool for review, supervision and evaluation of our services.

Three changes we expect to see if the expected outcomes occur:

1. Young people will have received the individual support they require
2. Young people will have improved self-esteem, confidence and resilience
3. Young people will have a personal plan and goals going forward.

#### **Alignment with local board priorities:**

*people know each other and feel connected in their neighbourhoods*

Young people in need who contact Youthline through our Helpline often feel lonely, alone, disengaged and desperate. They often have no sense of belonging to family, school or community.

Over 48 years Youthline has been supporting young people in need. The helpline is an early intervention service operating from a strengths-based, person centred approach. This approach is integral to the delivery of Youthline's Phone, Text and Email Helpline service.

Youthline helpline staff respond to situations of low to high and imminent risk across all mediums of contact, providing a continuum of support and linking service users with other agencies in their own communities. Utilising and promoting Youthline's strengths-based, wrap around approach, Youthline staff are responsible for the quality assessment and management of clients (young people and their families), including those with high and complex needs.

Youthline services equip youth with skills and insights on how to build self-esteem and improve mental-health, how to actively problem-solve, recover from setbacks and build resilience. Counsellors link them with local support services to assist their ongoing development. Through their improved emotional and self-management skills young people are less likely to fall into helplessness, depression, addictive behaviours, dangerous relationships and unemployment.

Research shows that when young people are engaged in community activities, linked with whanau, and given the opportunity to feel that they are part of something and encouraged to reach their potential, that risk taking behaviour is reduced. Youthline works inclusively with youth, from those young people who are most vulnerable to youth leaders who are championing change. Our clinical support workers counsel/mentor young people identified as needing one on one support to encourage and inspire them. They aim to understand the strengths and weaknesses of each young person, then identify goals and milestones and develop a plan for successful implementation and progression. By walking beside a young person and providing positive role models Youthline aims to see every young person become a positive contributor to society with a strong sense of belonging.

**Promoting SmokeFree:** Youthline Auckland supports the Auckland Council's Smokefree Policy and its commitment to working proactively with others towards making Auckland smokefree by 2025. We have a smoke free policy in place and can offer

support, advice and referrals to young people who wish to give up smoking. We ensure that the young people we work with are aware of our support for making Auckland smokefree and how we can help them if necessary.

### Financial information

**Amount requested: \$2,000**

**Requesting grant for:** Youthline requests funding of \$2,000 towards the costs of our free crisis helpline support to young people in the Henderson-Massey local board area. In the last year Youthline received an estimated 3,899 contacts for support through our helpline specifically from the local board area. There are 17,240 young people aged 15-24 years living in the area - 1 in 4 contacted us for help. The area's share of the direct costs of the national Helpline of \$503,603 is \$12,918. We are requesting a contribution of \$2,000 specifically towards the telecommunications - telephone, text and VOIP - costs of \$107,400.

**If part funded, how would you make up the difference:**

Yes, the show must go on. We are extremely proactive in applying for funding from a wide range of funders.

## Community benefits

### Identified community outcomes:

Youths will learn important community safety messages and encourage the whole family to practise them.

Important messages such as wearing seat belts, Anti Bullying, Cyber Safety, What to do in an Emergency, keeping safe and tagging.

Through the delivery of these messages there will be more knowledge amongst the young people and their families about these safety messages, therefore creating a safer and healthier community.

We will follow up with all schools to evaluate both theirs and their students' feedback and level of knowledge learnt through the delivery of this resource.

### Alignment with local board priorities:

*strong community organisations are making a difference*

Blue Light is an organisation that has been working in our communities for the past 35 years and have strong relationships throughout the community with many partners including police, schools and community groups.

The Bryan & Bobby programme promotes community safety through primary students to families delivering important messages aimed to keep everyone safe. Messages and activities are delivered through an interactive book and DVD provided for each student.

The messages cover a range of topics designed to get kids interested in crime prevention, road safety and social awareness. The Programme provides the perfect introduction to further police and safety related education.
