That the Regulatory Committee:

- a) receive the Resource Consents Appeals: Status Report 1 February 2019

Horopaki Context

4. As at 1 February 2019, there are 25 resource consent appeals to which Auckland Council is a party. These are grouped by Local Board Area geographically from north to south as set out in **Attachment A**. Changes since the last report and new appeals received are shown in bold italic text.
5. The principal specialist planners - resource consents, continue to resolve these appeals expeditiously. In the period since preparing the previous status report, there has been eight new appeals and one appeal resolved.
6. Four appeals oppose council's decision to grant resource consent for the St Mary's Bay and Masefield Beach Water Quality Improvement Project. The appeal cover matters around alternative best practical options, geotechnical and settlement, and construction issues and whether discharge from the new infrastructure has been lawfully consented.
7. Ngāi Tai Ki Tāmaki appeal the decision to grant resource consents for the redevelopment of existing pile moorings within the Westhaven Marina. The consents include extension of the north-western breakwater and causeway, installation of new pile berths, a car park, observation deck and public open space areas. Ngāi Tai Ki Tāmaki concerns relate to cultural effects, the mauri of Te Waitematā, lack of engagement nor ensuring on going consultation.
8. The appeal by Drago Jujnovich is against council's refusal of resource consent to remove an existing dwelling and utilise the site for up to 13 car parking spaces (staff cars and cars waiting to be repaired) associated with the West Lynn Paint and Panel shop. The appellant seeks a 5-year duration.
9. The appellant Yu seeks resource consent to construct and subdivide three dwellings. The decision was refuse due to the impact of the proposed works and removal of vegetation within a Significant Ecological Area at 2 Waikowhai Road, Waikowhai.
10. The Signature Building Ltd appeal relates to the refusal of consent to construct and establish a purpose built childcare facility for 105 children at Bell Road, Beachlands. Reasons to refuse primarily relate to traffic and residential amenity effects to neighbours.

14. The decision requested of the Regulatory Committee is to receive this progress report rather than to decide each appeal.
15. The Resource Management Act 1991 includes a number of matters under Part 2, which relate to the relationship of Tangata Whenua to the management of air, land and water resources. Maori values associated with the land, air and freshwater bodies of the Auckland Region are based on whakapapa and stem from the long social, economic and cultural associations and experiences with such taonga.

Ngā ritenga ā-pūtea Financial implications

16. Environment Court appeal hearings can generate significant costs in terms of commissioning legal counsel and expert witnesses and informal mediation and negotiation processes seek to limit these costs. Although it can have budget implications, it is important that Auckland Council, when necessary, ensure that resource consents maintain appropriate environmental outcomes and remain consistent with the statutory plan policy framework through the appeal process.
