Feedback

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a \$20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Kaipatiki

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about \$790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

Oppose any increase in rates for individuals and households. Disagree with not charging rates on some parts of the land owned by religious organisations.

Feedback

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a \$20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

Food scraps management fee should be charged to the users, rather than charged to everybody (using the bin tag payment method), because charging the users could directly reduce the amount of waste. Should encourage people to recycle food scraps on their own, rather than fining them \$68 for compulsory recycling

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Kaipatiki

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about \$790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

1. increased costs: but users pay 2. food scraps treatment: users pay 3. agree 4. agree 5. charge a little fee 6. agree

2. What is important to you?**Do you have any feedback on any other issues?**

Too many people park at wrong places, which is a difficulty for drivers. I suggest cancelling roadside parking and charging parking fees to increase government income and maintain the tidiness on roads. Ban the renting of a room converted from a garage. It will cause problems to community roads and environment. This should have the attention of the government.

3. Local Board information**Which local board(s) do you want to provide feedback to?**

Kaipatiki

- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

disagree on: a \$20.67 increase to the waste management charge; extending the food scraps targeted rate; an increase to some regulatory fees

2. What is important to you?**Do you have any feedback on any other issues?**

Since we have limited water resources, why do people sell water overseas? And the water is sold at a low price. The government should think about this.

3. Local Board information

Which local board(s) do you want to provide feedback to?

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about \$790 million of city centre waterfront properties. - extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

agree on the changes

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about \$790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

Feedback

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a \$20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

disagree on the increase to the waste management charge; disagree on the increase to some regulatory fees such as resource consent and parking fees

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Proposed 10 Year Budget Amendment

- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Kaipatiki

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about \$790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

Partially support

1. Changes to rates and fees

We are proposing a small number of rating and fee changes for 2019/2020.

These charges include:

- a \$20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2,000 properties in the former North Shore trial area to whom the service is available
- phasing out the Waitakere rural sewerage service and targeted rate over a two-year period (2019/2020 - 2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

Do food scraps really need to be disposed separately?

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

The current food scrap bins look too small. I'm sure charging targeted rates aligns with council policies but the council needs to do this right by informing the users on the specific breakdown of the costs involved and get their individual support.

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

Which local board(s) do you want to provide feedback to?

Kaipatiki

Kaipatiki Local Board feedback

In your opinion, are the priorities right for this local board area in 2019/2020?

Partially

Comments

I think the transport issues need to be prioritised first especially around the frequency of the public buses as well as the need to provide more school buses.

Proposed 10 Year Budget Amendment

Panuku is Auckland Council's urban development agency and currently owns and manages about \$790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

Do not support

In the case of coastal district, I believe that having a property owned by Auckland Council (instead of Panuku) will only maximise its value rather than profits.

Please tell us what you think about some or all of these changes:

Council should support in making detailed information on the waste minimisation methods (e.g. composting) more easily accessible to the public. This also needs to address those who flat (instead of those who own their homes) and how they could practice these methods. Without this, we won't be able to work towards waste minimisation and people will continue to buy plastic rubbish bags to dispose their rubbish.

2. What is important to you?

Do you have any feedback on any other issues?

3. Local Board information

- an increase to some regulatory fees (such as resource consent, building control, mooring fees and animal management) to cover increased costs.

Please tell us what you think about some or all of these changes:

Please increase some fees properly and hold a public hearing.

2. What is important to you?**Do you have any feedback on any other issues?**

1. Urban construction projects in Auckland take too long and have a low efficiency. This should be improved as soon as possible. 2. The tunnel between North Shore and the city hasn't been decided on for 10 years. It shows that the government lacks the ability in governance. Who should be held responsible? The government should investigate and find the personal responsible.

3. Local Board information**Which local board(s) do you want to provide feedback to?**
