Annual Budget 2019/2020 consultation feedback report for Ōrākei Local Board

1. Purpose

This report summarises feedback relating to the Ōrākei Local Board received through the Annual Budget 2019/2020 consultation. This includes:

- Feedback on the Ōrākei Local Board priorities for 2019/2020
- Feedback on regional proposals in the Annual Budget 2019/2020 from people or organisations based in the Ōrākei Local Board area

The feedback received will inform the Ōrākei Local Board’s decisions on allocation of its local budgets in its local board agreement for 2019/2020. It will also inform the Ōrākei Local Board input and advocacy on regional budgets and proposals that will be agreed at its business meeting on 18 April 2019 and subsequently discussed with the Finance and Performance Committee on 8 May 2019.

2. Executive Summary

This report summarises consultation feedback on the Annual Budget 2019/2020 (including on local board priorities for 2019/2020).

Council received feedback in person at community engagement events, through written forms (including online and hard copy forms, emails and letters) and through social media.

Feedback on Ōrākei Local Board priorities for 2019/2020

The local board consulted on the following priorities:

- Priority 1: Continue to work with the community to enhance our unique ecological environments.
- Priority 2: Continue to implement our local parks concept plans, including the Colin Maiden Precinct, Kupe South Reserve and Churchill Park.
- Priority 3: Work with residents and businesses to clean Ōkahu Bay up to a blue flag Ecological excellence standard.
- Priority 4: Further implementation of our Local Paths plan.

123 submissions were received on the Ōrākei Local Board priorities for 2019/2020, showing that the majority of people either partially support (46 per cent) or support (45 per cent) the Board’s priorities.

Feedback on regional proposals in the Annual Budget 2019/2020 from the Ōrākei Local Board area

Auckland Council consulted on six proposed rating and fee changes in the Annual Budget 2019/2020. Out of the 2,928 submissions received on the regional proposals in the Annual Budget 2019/2020, 199 submissions were from people living in the Ōrākei local board area.

The majority of responses from the Ōrākei Local Board area supported or partially supported the following proposal:
• Religious properties rates

Submitters from the Ōrākei Local Board area did not support the following proposals:
• Annual waste management changes
• Regulatory fees

The following proposals are unlikely to affect residents of the Ōrākei Local Board area. Very little local feedback was received on these proposed rating and fee changes:
• Waitakere rural sewerage targeted rate
• Food scraps targeted rate
• Urban boundary rating

Feedback on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers

Out of the 2,450 submissions received on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers, 148 submissions were from people living in the Ōrākei Local Board area.

Feedback shows that the majority of submitters from the Ōrākei Local Board area either support (61 per cent) or partially support (24 per cent) this proposal.

3. Context

Auckland Council consulted on its Annual Budget 2019/2020 and a proposed Amendment to the 10-year Budget 2018-2028 regarding property transfers between 17 February and 17 March 2019.

The Annual Budget 2019/2020 must include a Local Board Agreement for the Ōrākei Local Board which sets out the Board’s priorities and how the Board will pay for them.

Auckland Council also consulted on the Our Water Future discussion document at the same time. The feedback received on this discussion document will be presented at a later date.

Types of feedback

Overall Auckland Council received 6,629 pieces of feedback in the consultation period. This feedback was received through:

• Written feedback – 5,250 hard copy and online forms, emails and letters
• In person – feedback was received through 14 have your say events and 51 community events.
• Social media – 25 comments were received through Facebook and Twitter.

4. Feedback received on Ōrākei Local Board priorities for 2019/2020

The Ōrākei Local Board consulted on the following priorities:
Priority 1: Continue to work with the community to enhance our unique ecological environments.

Priority 2: Continue to implement our local parks concept plans, including the Colin Maiden Precinct, Kupe South Reserve and Churchill Park.

Priority 3: Work with residents and businesses to clean Ōkahu Bay up to a blue flag Ecological excellence standard.

Priority 4: Further implementation of our Local Paths plan.

Key themes across all feedback received (through written, event and social media channels) were:

- The area is going in the right direction.
- The focus on pedestrian and cycling links is appreciated, but it is not happening fast enough.
- The focus on the environment is viewed positively, but it is not happening fast enough.

A summary of the feedback received through each channel is provided below.

**Feedback received through written submissions**

123 submissions were received on the Ōrākei Local Board priorities for 2019/2020, showing that the majority of people either partially support (46 per cent) or support (45 per cent) the Board’s priorities. The majority (89 per cent) of submissions on local priorities were from residents of the Ōrākei Local Board area. 14 submitters were from another local board, with most of these submitters residents of one of the three neighbouring boards of Waitakarū, Maungakiekie-Tāmaki or Albert-Eden.

Feedback indicated that those who support the Ōrākei Local Board priorities did so because:

- They like what is happening in the area and approve of the Board’s work (seven feedback points).
- They like the focus on pedestrian and cycling links (five feedback points).
- They support advocating to Auckland Transport for a bylaw to stop heavy vehicles travelling on local roads through the Ōrākei Local Board area (four feedback points).

Feedback indicated that those who partially support the Ōrākei Local Board priorities did so because:

- They approve of the focus on pedestrian and cycling links but want more urgency (six feedback points).
- They like the focus on the environment but want more urgency (five feedback points).
- They support the general direction but want more focus in other areas as well (three feedback points).

Feedback indicated that those who do not support the Ōrākei Local Board priorities did not because:

- They disapprove generally of council and council spending (four feedback points).
- They feel the priorities are focused on the wrong locations (two feedback points).
- They did not like the Annual Budget consultation itself (two feedback points).
Feedback received through events

The Ōrākei Local Board held two community stakeholder events. Feedback was received from 18 people about transport and environmental matters.

Feedback on transport indicated that:
  - Attendees supported the Ōrākei Local Board advocating to Auckland Transport for a bylaw to stop heavy vehicles travelling on local roads through the Ōrākei Local Board area.
  - Attendees supported the board’s focus on pedestrian and cycling links.
  - Parking and traffic are issues across the Ōrākei Local Board area.
  - Road safety, particularly for vulnerable users, is important to residents in the Ōrākei Local Board area.
  - There is still some local concern over the new bus network, particularly around the use of double-decker buses and the connectivity of the network.

Particular initiatives that were requested included:
  - A 30km/h speed limit through the Meadowbank town centre.
  - A pedestrian crossing facility on Remuera Road outside the Remuera Library.

Feedback on the environment indicated that:
  - Although progress is being made, pest management in the area is still of high importance, particularly with issues such as moth plant.
  - Some areas of the Ōrākei Local Board area are of regional importance and should have more regional funding (e.g. Churchill Park, Kohimarama Forest).
  - The Ōrākei Local Board area has many passionate volunteers who are keen to work with council to improve outcomes.

Feedback on other local topics

Key themes across feedback received on other local topics include:
  - The environment is important to residents, including cleaner water, more weed control and better maintenance of parks, reserves and other public spaces (seven feedback points).

A very small amount of feedback on other local topics included:
  - Preserving the character and heritage of the Ōrākei Local Board area (two feedback points).
  - Retaining the community centre at 4 Victoria Avenue, Remuera (one feedback point).
  - A desire to see the Meadowbank Community Centre redevelopment happen soon (one feedback point).

Particular projects that were requested included:
  - Improvements to the Meadowbank town centre (one feedback point).
  - A library and a swimming pool in Ellerslie (one feedback point).
  - More attention to environmental management at Tahuna Torea (one feedback point).
Information on submitters

The Ōrākei Local Board received written feedback from 256 submitters. The majority of these (94 per cent) were individual submissions. 14 written submissions were received from organisations. In addition, verbal feedback was received from a further five organisations at local stakeholder events.

The organisations, businesses and groups who submitted to Ōrākei Local Board on local priorities and/or regional feedback are:

5. Overview of feedback received on the Annual Budget from the Ōrākei Local Board area

The Annual Budget 2019/2020 sets out Council’s priorities and how they will be paid for. The regional consultation on the proposed Annual Budget focused on changes to the following rates and fees:

- Annual waste management changes
- Food scraps targeted rate
- Waitākere rural sewerage targeted rate
- Urban boundary rating
- Religious properties rates
- Regulatory fees

The submissions received from the Ōrākei Local Board area on these key issues are summarised below, along with an overview of any other areas of feedback on regional proposals with a local impact.

Changes to rates and fees

Aucklanders were asked about a proposed small number of rating and fee changes.

**Question 1:** We are proposing a small number of rating and fee changes for 2019/2020. These changes include:

- A $20.67 increase to the annual waste management charge to cover increased costs
- Extending the food scraps targeted rate to 2000 properties in the North Shore former trial area to whom the service is available
- Phasing out the Waitākere rural sewerage service and targeted rate over a two-year period (2019/2020-2020/2021)
- Adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
• not charging rates on some parts of the land owned by religious organisations, and
• an increase to some regulatory fees (such as resource consent, building control and mooring fees) to cover increased costs.

The graphs below give an overview of the responses from the Ōrākei Local Board area. The question about regulatory fees has been further broken down and can be seen in the table on page nine.

**Question 1 – general feedback on all proposals**

Of those who responded generally to all proposals in Question 1, a majority supported the proposals, with most viewing them as fair or reasonable.

Of those who did not generally support the proposals, the main themes seemed to be:

- Opposition to any increases at all.
- Concerns about equity.
- Concerns about council efficiency.

**Question 1.1 – waste management charges**

Most respondents did not support an increase in the waste management targeted rate. The reasons for this included:

- Not supporting it on principle.
- A feeling that it was unfair to those who produce low volumes of waste.
- A user-pays system would be preferable.

**Question 1.2 – food scraps targeted rate**

**Question 1.3 – Waitakere rural sewerage service**

**Question 1.4 – urban rating boundary**
The proposed rating and fee changes in the above questions did not affect residents of the Ōrākei Local Board area. The volume and content of the local feedback on these proposals reflect this.

**Question 1.5 – rating of land owned by religious organisations**

The majority of respondents supported the proposal to not charge rates on some parts of the land owned by religious organisations. Those who supported the proposal did so for reasons including:

- The positive social impact of the community offerings such organisations provide.
- The not-for-profit nature of such organisations.
- Concern that rates being charged to religious organisations would affect their offerings/be unaffordable for religious organisations.
- Questioning the initial legal interpretation of council on this matter.

Those who did not support this proposal gave feedback about:

- The issue of equity – it is seen as unfair to have different rules for religious organisations.
- Concern about how a reduction would be applied, particularly around what type of organisation is determined to be a religious organisation by council.

**Question 1.6 – regulatory fees increase**

50 per cent of respondents supported or partially supported an increase in regulatory fees (generally). Where respondents supported or partially supported an increase in regulatory fees, it seemed to be tied to a hope or belief that an increase in fees would also lead to an increase in efficiency and processing times.

50 per cent of respondents did not support any increase in regulatory fees (generally). Feedback indicated:

- Those who do not support the proposal seem to be against any increase in fees as a matter of principle.
Respondents questioned whether there was any need for an increase.
Respondents would prefer costs were reduced instead.

Feedback on specific regulatory fees indicated that submitters from the Ōrākei Local Board do not support increases in resource consent fees, building consent fees, or Harbour master – mooring fees.

Feedback on other regional proposals with a local impact
Feedback was received from the Ōrākei Local Board area on other regional proposals.
The graph below shows the areas covered by this feedback.

Feedback from the Ōrākei Local Board area on regional themes

Number of comments by theme

Transport
42 comments related to transport, representing over a quarter of the feedback received on regional themes from the Ōrākei Local Board area. While much of this was disparate, a few identifiable themes came through:

- More needs to be done to encourage cycling and walking and make it safer (7 feedback points).
- Roads are unsafe and road safety needs to be a focus (5 feedback points).
- Parking is an issue: Park and Rides get full very early (3 feedback points) and local streets get clogged with cars parking in them (4 feedback points).
- Congestion on roads is an issue (3 feedback points).
As well as supporting the Ōrākei Local Board’s advocacy to Auckland Transport about a bylaw to prevent heavy vehicles from using the local roads in the area, a couple of respondents suggested efforts should be made to get freight moved by rail instead of trucks.

Rating and funding

29 people gave feedback on rating and funding. Most comments related to council expenditure and how rates are calculated, such as:

- Council should reduce its costs (12 feedback points)
- Rates should be based on services received, not property values (six feedback points).

Regional planning

20 people gave feedback that related to regional planning.

- Four people supported Auckland Council granting $5 million to the Auckland City Mission Homeground project.
- Comments seemed to indicate that the pressures of growth are being felt, with concerns about water quality (one feedback point), freedom camping (one feedback point), infrastructure unable to cope with infill housing (one feedback point), a preference for intensification to happen in brownfield areas (two feedback points), and a suggestion that Auckland has too much growth (one feedback point).

Other regional services

18 people gave feedback on other regional services. Feedback included comments on:

- Council needs to increase its efficiency (seven feedback points).
- Waterways and beaches need to be cleaned up (four feedback points).

Water

13 people gave feedback on water. Feedback included comments on:

- Cleaning up the harbour to ensure beaches are swimmable (seven feedback points).
- Prioritising separation of wastewater and stormwater systems (four feedback points).
- Charging and invoicing by Watercare (two feedback points).

Regional community services

Five people gave feedback on regional community services; most were about the importance of maintaining parks/reserves and sportsfields.

Council controlled services and general comments

Three people gave feedback on council controlled services and four people made general comments. No common themes were discernible.
6. Overview of feedback received on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers from Ōrākei Local Board area

The question and text below is directly from the feedback form. The feedback from the Ōrākei Local Board area is set out under the question.

**Question 1:**

Panuku is Auckland Council’s urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

The graphs below give an overview of the responses from the Ōrākei Local Board area.

- **Support**
- **Partially support**
- **Do not support**
- **Other**

Respondents who supported the proposal gave reasons including:

- It is seen as a cost-saving exercise (eight feedback points).
- Less governance duplication and bureaucracy is a good thing/will increase efficiencies (10 feedback points).
- This move may lead to better governance and strategic decision-making (four feedback points).
- Having the land owned by council will give greater oversight (10 feedback points).

Those who didn’t support the proposal gave feedback that indicated that:

- There is concern that the transfer would result in council selling or leveraging the assets (five feedback points).
- Generally they would like to see the assets remain with Panuku as they are doing a good job (two feedback points).
Statement of Proposal

Auckland Council’s New Policy on Dogs and Dog Management Bylaw
February 2019
1 Have your say

Under the Dog Control Act 1996 (the Act), Auckland Council must adopt a policy on dogs. The Act lists several requirements that the council must include in its policy. The Act also enables the council to make a bylaw to implement aspects of the policy.

Auckland Council last adopted its Auckland Policy on Dogs (the Policy) and Dog Management Bylaw (the Bylaw) in 2012. In November 2018, the Regulatory Committee completed its statutory review of the Policy and Bylaw and agreed that they should be amended. This document highlights the proposed changes to the Policy and Bylaw to ensure they meet the future needs of Auckland.

What Auckland Council does

Public places in Auckland are used for a variety of purposes, including exercising dogs. However, not all people enjoy the company of dogs. We make rules and provide services that aim to better manage dogs in Auckland. We do this through promoting responsible dog ownership, classifying dogs as dangerous or menacing, developing access rules, and taking measures to minimise nuisance caused by dogs, as set out in the Policy and Bylaw.

Improving dog access, while minimising the harm caused by dogs

The council recently reviewed how the current approach to dog management is working. The main changes we propose to make are to:

- reorganise the Policy and Bylaw information into user friendly themes
- remove duplication from the Bylaw, which will also simplify future amendments
- reduce confusion about dog access rules and improve voluntary compliance by:
  - presenting the rules in the schedule in a consistent manner
  - applying a consistent definition of time and season
  - applying consistent rules to multiple dog ownership
- address emerging issues around dog management by:
  - including specific reference to the Code of Welfare
  - extending environmental protection toinclude flora
  - clarifying delegations and processes for additional designated exercise areas
  - clarifying the enforcement requirement to neuter uncontrolled dogs
  - clarifying the council’s jurisdiction on privately owned public spaces
  - promoting responsible dog ownership amongst owners of dogs classified as ‘menacing’ on the basis of their behaviour
  - reviewing access rules in regional parks.

What is not changing

This review of the current Policy and Bylaw is not intended to change local dog access rules (where dogs are allowed under control on leash, off leash or prohibited areas and designated dog exercise areas). Local dog access rules are determined by local boards.
We want to know what you think
Starting on 1 April through to 10 May 2019, we want you to tell us what you think about the proposed changes to the Auckland Council Policy on Dogs 2012 and Dog Management Bylaw 2012. Please visit www.aucklandcouncil.govt.nz/have-your-say to find out more information, give your feedback and find out where you can drop in to a ‘Have Your Say’ event.
2 What is the Policy?

Kaupapa mo ōngā Kuri 2012 (The Auckland Council Policy on Dogs 2012) sets out the framework for dog management in Auckland. The Policy aims to keep dogs as a positive part of Aucklanders’ lives. This is achieved by maintaining opportunities for dog owners to take their dogs into public places, while adopting measures to minimise the problems caused by dogs.

### Policy requirements as listed in the Dog Control Act 1996

- **Specify the nature and application of bylaws.**
- **Identify public places in which dogs are to be prohibited, generally or at specified times.**
- **Identify public places or parts of the district in which dogs are required to be under control on a leash.**
- **Identify areas as designated dog exercise areas.**
- **Identify areas or parts of the district in respect of which no public places or areas are to be identified as prohibited generally or at specified times or under control on a leash.**
- **State whether dogs classified as menacing are required to be neutered.**
- **State whether dogs classified as menacing by any other territorial authority and registered with council are required to be neutered.**
- **Shall include other details, as council sees fit, including but not limited to:**
  - fees or proposed fees
  - owner education programmes
  - dog obedience courses
  - classification of owners
  - disqualification of owners
  - issuing of infringement notices.

In adopting a policy, the council **must** have regard to:

- minimising danger, distress and nuisance to the community generally
- avoiding the inherent danger in allowing dogs to have uncontrolled access to public places that are frequented by children, whether or not accompanied by adults
- enabling, to the extent practicable, the public (including families) to use streets and public amenities without fear of attack or intimidation by dogs
- the exercise and recreational needs of dogs and their owners.

In addition to the above, every policy adopted:

- must identify any land within the district that is:
  - a controlled dog area or open dog area under section 26ZS of the Conservation Act 1987
  - a national park constituted under the National Parks Act 1980
  - Te Urewera, as defined in section 7 of the Te Urewera Act 2014.
- may contain other information and advice related to dogs as the territorial authority deems necessary.
3 What is the Bylaw?

Under the Dog Control Act 1996, Auckland Council can make a bylaw for certain aspects of dog management. Ture a Rohe Tiakina Kuri, (The Dog Management Bylaw 2012) currently:

- regulates public places where a dog may be taken by its owner and the means of control of the dog
- limits the number of dogs that may be kept on any land or premises
- requires the owner of any dog that defecates in any public place or on land or premises other than that occupied by the owner to immediately remove the faeces
- requires any female dog to be confined but adequately exercised while in season
- requires the owner of any dog (being a dog that, on more than one occasion, has not been kept under control) to neuter it.

The Bylaw does not determine the dog access rules on individual parks, beaches and foreshore areas, as these are contained within the schedules of the Policy. Local dog access rules are determined by the local boards.
4 How we implement the Policy and Bylaw

The council uses a ‘graduated response’ when responding to complaints and concerns surrounding dog management (Figure 1). This means that the types of response and response times will vary depending on the level of risk, seriousness of harm, people’s attitude towards compliance, and what is most practical.

Lower risk issues are first addressed with education, advice, and informal warnings. If this doesn’t work, the council may issue formal warnings. For serious or ongoing bylaw breaches, the council may take enforcement measures such as issuing an infringement notice or prosecuting individuals.

Figure 1: Council’s risk-based, ‘graduated response’ approach
5 What council proposes to change

The council recently reviewed the current Policy framework and identified some improvements that could be made.

The changes that the council is proposing to make to the Auckland Council Policy on Dogs 2012 and Dog Management Bylaw 2012 are summarised below. These are reflected in the attached proposed policy and bylaw.

Most residential properties are adequate to house two dogs, however greater issues tend to arise where three or more dogs are kept on the property. The purpose of the licence is to ensure the aspects of dog welfare are addressed.</td>

### Item 16

| Requirement to neuter an uncontrolled dog. | The proposed bylaw includes an explanatory note to clarify that owners who do not comply with current requirement to neuter their dog, if it is not under control on more than one occasion over a 12-month period, may be subject to an infringement and would still be required to neuter their dog. | ✓ |
| Clarifying intent of owners picking up after their dog. | Clause 11 of the Bylaw requires owners to immediately pick up after their dog after it defaecates. This section has been reworded to clarify the intent of this clause. | ✓ |
| Amendments to regional parks | Implement the following:  
  - a standard time and season definition of 10.00am to 7.00pm from the Saturday of Labour Weekend to 31 March  
  - a standard lambing season rule to prohibit dogs from 1 July to 1 December  
  - amend dog access rules to protect wildlife in the following region parks:  
    - Glenfern Sanctuary  
    - Murwai Regional Park  
    - Long Bay Regional Park  
    - Waitakere Ranges Regional Park - Whatipu | ✓ |

### What council is proposing for the time and season definition

The purpose of a time and season rule is to minimise the conflict between dogs, their owners and other users of busy public places. The time and season rules does this by prioritising different users at different times of the day (morning, daytime and evening) during the busy summer period.

Local boards are responsible for deciding:

- where a time and season rule applies (location)
- the type of dog access (i.e. prohibited, on-leash, off-leash or designated dog exercise area)
- what the winter time access rule will be.
For example, a local board may decide that a beach is off-leash before 10am, prohibited between 10.00am and 7.00pm and off-leash after 7.00pm.

The previous Policy had the time and season definition of 10.00am to 5.00pm from Saturday of Labour Weekend to 1 March. Local boards have chosen to adopt variations to this definition, which has resulted in thirteen local board variations and only one local board is using the current definition in areas within their local board area.

What we are proposing

The proposed policy is recommending a time and season definition of 10.00am to 7.00pm from Saturday of Labour Weekend to 31 March to be applied to those areas that have been identified by local boards. A standard time and season would make it easier for dog owners to know when and where they can take their dogs and make enforcement easier for Animal Management Officers.

Local beaches, parks or foreshores that apply a time and season rule may have their hours of access changed as a result of this review.

Concerns raised

On 14 February 2019, the Regulatory Committee debated concerns around proposed time and season definition and raised the following issues:

- 7.00pm being too late in the evening
- Whether there is a need for a regionally consistent time and season definition
- Local variation allows for the needs of communities to be met.

Alternative option

The alternative option to having a regionally consistent time and season definition would be to have a default definition in the Policy, and enable local boards to introduce variations to this through the local rules in Schedule 2 of the Policy. Auckland council is also seeking feedback on this alternative option.
How we got here

Decisions leading to the proposed changes

The Local Government Act 2002, requires council to review its bylaws every five years to determine whether they are effective, efficient and still needed.

The Dog Control Act 1996, states that the bylaw and policy must not inconsistent. Therefore, the review of the Policy must precede the review of the Bylaw.

Auckland Council reviewed dog management in the region. Staff have reported these findings and considered its options at meetings in June and September 2018, these are summarised below:

- March 2017
  REG/2017/16

- June 2018
  REG/2018/44
  Council considers the findings of the effectiveness of the current Policy and Bylaw

- August 2018
  Local board feedback on issues under review.

- 8 November 2018
  REG/2018/78
  REG/2018/79
  Council considers key issues and options for the regional review and dog access rules in regional parks. Council agrees to amend the current Policy and Bylaw.

*Owners that do not comply with the above are in breach of the Dog Management Bylaw 2019 and may be subject to an infringement.*
Dog Access Principles

Provide a balanced use of public places for dogs and their owners, while minimising the harm caused by dogs.

What will Auckland Council do?

1. Provide dog access rules that are comprehensive, consistent and easy to understand and comply with the following approaches:
   (a) Recognise dog owners as legitimate users of public places and dog access is essential for dog welfare
   (b) Provide opportunities for dog owners to take their dog to public places that are accessible, desirable, and provide diversity of experience for both the dog and owner
   (c) Consider access on a comprehensive region-wide basis, as well as a place-by-place basis
   (d) Promote safe interaction between dogs and people using public places and private ways to ensure that dogs do not injure, endanger, intimidate or otherwise cause distress to any person, in particular, children and vulnerable adults
   (e) Manage the conflict between dogs and protected wildlife, stock, poultry, domestic animals, property and natural habitat.

2. Maintain rules on dog access in public places and private ways (see Schedule 1 and 2)

   The types of dog access rules are:
   (a) prohibited area – a place where dogs are not permitted to be, and other users have absolute priority
   (b) on-leash area – a place shared with other users, where dogs must be on a leash and under control at all times
   (c) off-leash area – a place shared with other users, where dogs may be off a leash but must still be under control at all times
   (d) designated dog exercise area – a place where dog owners are the priority user. Dog owners may take their dogs off a leash (including Dangerous Dogs) but they must be under control at all times
   (e) time and season areas – a place shared with other users, where the dog access rules will be different depending on the time of day during the summer season. This is to minimise the conflict between dogs and other users of the space during peak hours.

3. Apply default dog access rules to ensure that there is a rule applied to all public places in Auckland

   (a) Dogs must be under control on-leash in council-controlled public places unless otherwise stated in Schedule 1 and 2. This includes:
      i. all formed public roads (including any street, highway, access way, service lane, and any footpath, cycle track, bus stop and berm within the boundaries of the road)
      ii. private ways
      iii. council-controlled car parks
      iv. council-controlled boating areas (including any wharf, jetty, boat ramp, boat marshalling area).
(b) Dogs are prohibited from any public place not under the control of council where rules have not been specified by the person in charge.

4. Apply the following time and season definition
   (a) 10.00am to 7.00pm between the Saturday of Labour Weekend and 31 March
      (summer)

   **Explanatory Note:**
   The relevant authority (local boards or delegated council committee) will decide:
   - where a time and season rule applies (location)
   - the type of dog access (i.e. prohibited, on-leash, off-leash or designated dog exercise area)
   - what the winter time access rule will be.

   For example, a local board may decide that a beach is off-leash before 10am, prohibited between 10.00am and 7.00pm and off-leash after 7.00pm.

5. Consider the following before making any change to a dog access rule on parks and beaches that would provide more dog access:
   (a) Identify and assess current and future uses of the place and whether there may be any potential conflicts to ensure the change would not result in any significant risk² to any:
      i. person (in particular children or vulnerable adults)
      ii. protected wildlife vulnerable to dogs (in particular ground nesting birds)
      iii. protected flora vulnerable to dogs (in particular kauri dieback)
      iv. stock, poultry, or domestic animal
      v. property (in particular natural habitat and public amenities).

6. Consider the following before making any change to a dog access rule on parks and beaches that would provide less dog access:
   (a) Consider whether there are practicable alternative solutions to address the conflict between uses of the place³
   (b) Ensure, to the extent that is practicable, that displaced dog owners and their dogs have access to other places or that such access is provided as part of the same decision.

7. Before making any change or developing a park or beach as a designated dog exercise area, ensure that the:
   (a) matters contained in section 5 above are satisfied
   (b) area is well-located with vehicular and pedestrian access
   (c) area has clearly visible boundaries. This may be achieved through transition zones, vegetation, topography and fencing. Boundary treatment will vary depending on the risks identified
   (d) area is of sufficient size to provide dog owners with adequate space to exercise their dog
   (e) area has sufficient sight lines that enable dog owners to be aware of the presence of other dogs and their owners
   (f) area has adequate signage which clearly specifies the access rule

² Significant risk includes, but is not limited to, injury, danger or distress to people or animals stated, or nuisance to people.
³ Design and management solutions include fencing, different zones in one place, time-share arrangements, and under control on a leash dog access in relation to considering a change to prohibited dog access.
(g) provision of dog owner and dog amenities has been considered. Such amenities may include, but are not limited to, seats, bins and bag dispensers for dog faeces, and water stations.

8. Temporary changes to dog access rules
   (a) From time to time, the council may make temporary changes to dog access rules in Schedule 1 and 2 in relation to:
      i. leisure and cultural events (including dog friendly events)
      ii. dog training
      iii. protect wildlife vulnerable to dogs
      iv. protect flora vulnerable to dogs
      v. pest control in any park and/or beach
      vi. other circumstances of a comparative nature.

What does Auckland Council expect of dog owners?

1. The owner of any female dog in season must ensure that dog does not enter or remain in any public place or private way unless:
   (a) that dog is confined in a vehicle or cage for the purposes of transportation;
   (b) the owner of that dog has the permission of the occupier or person controlling the public place and complies with any reasonable conditions imposed

2. Dog owners make reasonable effort to determine and comply with the dog access rule that applies in a park or beach before taking their dog(s) into the area

Additional information:
- Dogs confined in a vehicle or cage are not exempt from prohibited dog access rules. They are exempt from under control on-leash dog access rules.
- Dog access rules in Schedule 1 and 2 do not apply to any working dog (disability assist and police dogs).

What is covered by the Dog Management Bylaw 2019?
- Owners must exercise their dog(s) in locations or ways that are consistent with the dog access rules. This includes ensuring the dog is under control on-leash, off-leash or in a designated dog exercise area as specified.
- Dog owners must ensure that their dog is kept under control in public places or private ways.

Owners that do not comply with the above are in breach of the Dog Management Bylaw 2019 and may be subject to an infringement.
Schedule 1

**Camping grounds and holiday parks under the control of the council**

Dogs are prohibited from all council-controlled camping grounds and holiday parks
unless:

- permission is obtained from an authorised council officer, or

  the council in relation to the dog.

(4) **Default dog access rules**

    where there are no physical restrictions to access (such as fences or other indoor
    facilities)

(b) Dogs are **prohibited** in all council controlled public places with restricted access
    (such as fenced sports stadiums, libraries) unless:
    i. permission is obtained from an authorised council officer, or
    ii. there is official council signage which indicates dogs are permitted.

(c) Dogs are **prohibited** from all other public places not under control of council (such
    as cafes, shopping malls, school grounds, non-council cemeteries and urupā)
    unless:
    i. permission is obtained from the person in charge of the place, or
    ii. there is signage indicating that dogs are permitted.

(d) Where dog access is permitted under clauses 5(b) or 5(c) dog owners must comply
    with any reasonable conditions imposed by the council in relation to the dog.

**Explanatory Note:** For the avoidance of doubt, areas under co-governance arrangement,

places. Subject to clause (c) to (d) above unless they are specifically listed in Schedule 2.
