Purpose of the report

1. To consider the Puketāpapa Local Board’s (the Board) allocation of the remainder of the Auckland Transport Local Board Transport Capital Fund (LBTCF) to the streetscape upgrade at Roskill Village.

Whakarāpopototanga matua

Executive summary

2. Local Boards can use the local board transport capital fund (LBTCF) to deliver transport infrastructure projects that are not part of Auckland Transport’s (AT) work programme. There is $244,787 left in the Board’s fund that should be allocated by June 2019.

3. In March 2019 the Board supported by resolution, these projects:
   - An improvement to bus stop 8345, on Dominion Road
   - Two pedestrian facilities on Hillsborough Road – one in the vicinity of Haughey Street and one in the vicinity of Goodall Street

4. The Board also requested a rough order of costs for a speed feedback sign for The Avenue, Lynfield and some advice on the placement of the sign/s. AT has advised that the rough order of cost for this work is $15,000 per sign and that the signs could be advanced through the Board’s Community Safety Fund allocation.

Recommendation/s

That the Puketāpapa Local Board:

a) receive this report.

b) allocate the remainder of the Puketāpapa Local Board Capital Fund, $244,787 to capital improvements associated with the streetscape improvement project at Roskill Village.

Horopaki

Context

5. The LBTCF is a capital budget provided to all local boards by Auckland Council and delivered by Auckland Transport (AT). Local boards can use this fund to deliver transport infrastructure projects that they believe are important but are not part of AT’s work programme. Projects must also:
   - be safe
   - not impede network efficiency
   - be in the road corridor (although projects running through parks can be considered if there is a transport outcome).
6. This report gives details on the financial position of the Board’s LBTCF and asks the Board to consider if they wish to support using this budget to facilitate the upgrade of the Roskill Village

Analysis and advice

Roskill Village

7. Mt Roskill streetscape project is a long-standing project of the Board to enhance the Mt Roskill village. The aim is to create an improved environment for pedestrians, bus passengers, shoppers and the business community at Mt Roskill village. High-quality footpaths, seating and landscaping are proposed within the road corridor. A separate report in the agenda discusses the project’s implementation.

8. This project satisfies all funding criteria for the local board transport capital fund as listed at paragraph 5. Allocating funding to the streetscape project assists delivery of that project.

9. Undertaking a streetscape upgrade is expensive. Doing more than business as usual costs more than usual. In addition to different materials and methods, there are additional traffic management costs when working on a major arterial road in a business area. For example:
   - the physical working environment is constrained by verandahs.
   - construction times are affected by bus lanes’ operational requirements.
   - the need to keep high traffic volumes moving whilst ensuring the safety of road workers.

10. The footpaths in the Roskill Village have been the subject of much local complaint and their renewal is now urgent. AT’s budget for the footpath renewal has been rolled into the streetscape upgrade project and AT advises against any further delay.

11. The Roskill project has been keenly anticipated by the local community and the Board for some years, it makes sense for the Board to continue to support it through contributing to its construction with additional funding through the LBTCF.

12. Although allocating all the remaining LBTCF to Roskill Village upgrade will mean that the tetra-trap programme will need to be re-considered by the new Board after October 2019, AT considers that the Roskill upgrade work is a higher priority.

Traffic Calming in the Avenue, Lynfield

13. At its March 2019 meeting, the Board asked AT to provide rough order of costs for a speed feedback sign/s on The Avenue, Lynfield.

   March 2019 Resolution:
   Request a rough order of costs for a speed feedback sign on The Avenue, Lynfield and recommendations for its location.

14. AT responds that the rough order of costs for speed feedback signs is $15,000 installed.

15. This project fits the criteria for the Community Safety Fund and could be constructed out of that allocation. Work on the best location for the signs is not yet completed.

16. Therefore the Board could allocate the remainder of the LBTCF to the Roskill Village upgrade and still install the traffic calming measures on The Avenue.

Council group impacts and views

17. The information in this report impacts on both Auckland Transport and Auckland Council. It has been prepared in consultation with Auckland Council. A separate report on Streetscape Upgrade of Roskill Village has been prepared for the confidential section of this agenda.

19. Decision-making to allocate funding to Mt Roskill streetscape will assist implementation of a project which will deliver, in a small way, on the cultural values of iwi. The streetscape design is based on a cultural landscape report for the area and the design was the subject of a hui.

20. If the Board were to allocate the remainder of its LBTCF to the Roskill Village upgrade, it could still nominate road safety projects for construction through the Community Safety Fund.

21. This would still allow for a speed feedback sign to be installed in the The Avenue, Lynfield, if this was supported by the Board.

Ngā raru tūpono me ngā whakamaurutanga
Risks and mitigations
22. The “Ngā ritenga ā-pūtea / Financial implications” section above summarised the Board’s LBTCF financial position.

23. There are risks that the Board must consider before making decisions on the project described in this report.

Roskill Village
24. The board has a limited capex budget for its Mt Roskill streetscape project. Use of the transport capital fund to assist in its delivery fits within the parameters of that fund and goes some way towards the actual costs of such a project.

25. There is an expectation from the public that the streetscape project will proceed, so more risk lies in not allocating funding to this project.

The Avenue, Lynfield
26. There may be some disappointment from the community that the traffic calming measures in the area are not more extensive.

27. For traffic calming in this area to be effective, a large area would need to be treated. The costs of such a large scale project would exceed the Board’s Community Safety Fund allocation considerably.
28. A large scale traffic calming project in Lynfield would need support from a new Board with a new LBTCF allocation.

**Ngā koringa ā-muri**

**Next steps**

29. That the Board decides whether to allocate the remainder of its LBTCF to the Roskill Village upgrade.

30. That the Board consider allocating funding to feedback signs on the Avenue, Lynfield from its Community Safety Fund.

| Queenstown Road Pedestrian Facility | The provision of a mid-block signalised crossing to replace the existing pedestrian refuge. | Work on the signalised crossing is underway is expected to be completed by the end of April 2019. |

New Community Safety Fund

7. The 2018 Regional Land Transport Plan allocated $20m for local initiatives in road safety: $5m in financial year 2019/2020 and $15m in financial year 2020/2021. It is apportioned to local board areas by formula focused on numbers of Deaths and Serious Injuries (DSI).

8. The fund has been named the Community Safety Fund (CSF) and Puketāpapa Local Board has been allocated $604,664 over the two years, with decisions on projects due by 30 June 2019.

9. Projects may be supplemented with the board’s transport capital fund surplus (if there is one) but all CSF funding must be spent, with no carryover possible.

10. Criteria include physical measures raised by the local community to prevent, control or mitigate identified local road and street safety hazards. These hazards expose people using any form of road and street transport to demonstrable hazards which may result in death or serious harm.

11. The Board had an introduction to the fund at a workshop in March 2019 and further workshops will follow in April 2019, in order to compile a prioritised list of projects that the Board wish to put forward for costing.

Infrastructure and Heritage Meeting – April 2019

13. AT has a scheduled meeting with the Infrastructure and Heritage Cluster in April 2019. This will provide an opportunity for the Board to discuss further allocation of the LBTCF, the Roskill Village upgrade and the Safer Communities project.

Workshops

14. A workshop is scheduled in April to begin to compile the Board’s list of projects for costing under the Community Safety Fund.

Auckland Transport Consultations

15. AT provides the Puketāpapa Local Board with the opportunity to comment on transport projects being delivered in their area. There were no new consultations this month.

Speed Bylaw consultation closes

16. Public consultation has closed on the speed bylaw.
17. Auckland Transport received 11,007 submissions on its proposal to reduce speeds on some 700km of high-risk roads around the region.

18. Auckland is facing a road safety crisis with a 78 per cent increase in deaths and a 68 per cent rise in serious injuries since 2014. Lowering speeds and working with police to enforce those limits is one of the easiest and most effective interventions available.

19. Submissions are currently being analysed and those who have requested will present to a Hearings Panel of AT Board members and senior executives later in April.

20. If adopted, the speed limit changes will come into effect in August this year.

Recommendation/s

That the Puketāpapa Local Board:

a) Approve the following road names for the three new roads created by way of subdivision at 80 Olsen Avenue, Hillsborough (Stage 1), in accordance with section 319(1)(j) of the Local Government Act 1974 (resource consent references BUN60324701, SUB60324703):

- COAL 1: [local board to insert approved name]
- COAL 2: [local board to insert approved name]
- COAL 3: [local board to insert approved name]

Context

5. Resource consent reference BUN60324701 (including subdivision consent reference SUB60324703) was issued 14th February 2019 for the construction of 21 new two-storey
dwellings to be carried out in two stages. This application is for stage one only, which comprises of 17 residential lots and three private roads, being commonly-owned-access-lots (COALs).

6. In accordance with the National Addressing Standards for road naming (the AS/NZS 4819-2011 standard), the three COALs require a road name because they serve more than 5 lots each.

7. Site and location plans of the development can be found in Attachments A and B respectively.

Analysis and advice

8. The Auckland Council Road Naming Guidelines allow that where a new road needs to be named as a result of a subdivision or development, the subdivider/developer shall be given the opportunity of suggesting their preferred new road name/s for the local board’s approval.

9. Auckland Council’s road naming criteria typically require that road names reflect one of the following local themes, with the use of Māori names being actively encouraged:
   - a historical or ancestral linkage to an area;
   - a particular landscape, environmental or biodiversity theme or feature; or
   - an existing (or introduced) thematic identity in the area.

10. Theme: The applicant advises that the building currently located at the site was originally a church centre. The land was bought by the Indian Community who is still running their activity in the existing building that is to remain on the site, with the new development occurring around it. The developer and Indian community believe it is a blessed and divine land, and therefore all names have meanings associated with this theme.

11. The Applicant’s proposed names and meanings are set out in the table below:

12. **Assessment:** The names proposed by the Applicant have been assessed to ensure that they meet Auckland Council’s Road Naming Guidelines and the National Addressing Standards for road naming.

13. **Confirmation:** Land Information New Zealand (LINZ) has confirmed that all of the proposed names are acceptable and not duplicated elsewhere in the region.

14. **Road type:** ‘Lane’ is an acceptable road type for the new private roads, suitting the form and layout of the roads, as per the Auckland Council Road Naming Guidelines.
15. **Iwi Consultation:** All relevant local iwi were written to (via email) and invited to comment, however the applicant has advised that no iwi groups responded.

**Ngā whakaaweawe me ngā tirohanga a te rōpū Kaunihera Council group impacts and views**

**Ngā whakaaweawe ā-rohe me ngā tirohanga a te poari ā-rohe Local impacts and local board views**

17. The decision sought for this report does not trigger any significant policy and is not considered to have any immediate impact on the community.

**Tauākī whakaaweawe Māori Māori impact statement**

18. The decision sought from the Puketapapa Local Board on this report is linked to the Auckland Plan Outcome “A Māori identity that is Auckland's point of difference in the world”. The use of Māori names for roads, buildings and other public places is an opportunity to publicly demonstrate Māori identity.

**Ngā ritenga ā-pūtea Financial implications**

19. The applicant has responsibility for ensuring that appropriate signage will be installed accordingly once approval is obtained for the new road names.

**Ngā raru tūpono me ngā whakamaurutanga Risks and mitigations**

20. There are no significant risks to council as road naming is a routine part of the subdivision development process, with consultation being a key part of the process.

**Ngā koringa ā-muri Next steps**

21. Approved road names are notified to Land Information New Zealand who records them on their New Zealand wide land information database which includes street addresses issued by councils.

Whakarāpopototanga matua
Executive summary

3. Auckland Council’s Annual Budget contains 21 local board agreements which are the responsibility of local boards. These agreements set out local funding priorities, budgets, levels of service and performance measures. This report seeks decisions on local financial matters for the local board agreement, including:
   - any new/amended business improvement district (BID) targeted rates
   - any new/amended local targeted rate proposals
   - proposed Locally Driven Initiative (LDI) capital projects outside local boards’ decision-making responsibility
   - release of local board specific reserve funds
   - any advocacy initiatives (to be included in the appendix).

4. Auckland Council consulted with the public from 17 February to 17 March 2019 to seek community views on the Annual Budget 2019/2020 and the Proposed Amendment to the 10-year Budget 2018-2028, and local board priorities to be included in the local board agreements. This report seeks local board views on both of these plans:
   - Regional Annual Budget topics: including changes to rates and fees, the draft Tūpuna Maunga o Tamaki Makaurau Authority – Operational Plan 2019/2020, and other budget information.
   - the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers.

5. Auckland Council also consulted on the Our Water Future discussion document. A draft strategy from the Our Water Future discussion document will be developed. Local boards will have the opportunity to provide input into this in early 2020.

6. Local board views on these regional plans will be considered by the Governing Body (or relevant committee) before making final decisions on the plans.

That the Puketāpapa Local Board:

a) receive consultation feedback on the Puketāpapa Local Board priorities for 2019/2020.

b) approve its advocacy initiatives for inclusion (as an appendix) to its 2019/2020 Local Board Agreement.

c) receive consultation feedback on regional proposals in the Annual Budget 2019/2020 and on the proposed amendment to the 10-year Budget 2019-2028 regarding property transfers from people or organisations based in the Puketāpapa local board area.

d) provide feedback on the Annual Budget 2019/2020.

e) provide feedback on the proposed amendment to the 10-year Budget 2018-2028.

Horopaki Context

7. Local board agreements form part of the Auckland Council’s annual budget and set out local funding priorities, budgets, levels of service and performance measures. This report details local board decisions and recommendations that need to be made in April/early-May to allow them to be considered by the Governing Body in the annual budget process.

8. Local boards also advocate to the Governing Body for funding for projects that cannot be accommodated within their local budgets. These advocacy initiatives are attached as an appendix to the local board agreement.

9. Local boards are responsible for providing local input into regional strategies, policies and plans. Local Board Plans reflect community priorities and preferences and are key documents that guide both the development of local board agreements and input into regional plans.

10. Auckland Council publicly consulted on the following two plans from 17 February to 17 March 2019:

- annual budget (which includes both regional issues and local board key priorities)
- the proposed amendment to the 10-year budget.

11. Across the region, 2,278 people attended 65 engagement events. Feedback was received through written, event and social media channels.

12. Consultation feedback on the Puketāpapa Local Board priorities for 2019/2020 and on regional proposals in the Annual Budget 2019/2020 and the proposed amendment to the 10-year budget regarding property transfers from people or organisations based in the Puketāpapa Local Board area are set out in Attachment A. The feedback on local board priorities will be considered by the local board before they agree their local board agreement in early June 2019.

Tātaritanga me ngā tohutohu

Analysis and advice

Local financial matters for the local board agreement

13. This report allows the local board to agree its input and recommend other local financial matters to the Governing Body in early May 2019. This is to allow time for the Governing Body to consider these items in the annual budget process (decisions made in June 2019).
Local targeted rate and business improvement district (BID) targeted rate proposals

14. Local boards are required to endorse any new locally targeted rate proposals or BID targeted rate proposals in their local board area (noting that any new local targeted rates and/or BIDs must have been consulted on before they can be implemented).

Funding for locally driven initiatives (LDI)

15. Local boards are allocated funding annually to spend on local projects or programmes that are important to their communities. This funding is for ‘locally driven initiatives’ or LDI. Local boards can approve LDI capital projects up to $1 million; projects over that amount need approval from the Governing Body.

16. Local boards can recommend to the Governing Body to convert LDI operational funding to capital expenditure for 2019/2020 if there is a specific need to do so, or Governing Body approval may be needed for the release of local board specific reserve funds, which are funds being held by the council for a specific purpose.

17. Local boards can defer LDI projects where there was an agreed scope and cost, but the project/s have not been delivered.

Local board advocacy

18. Local boards are requested to approve any advocacy initiatives for consideration by the Governing Body and inclusion (as an appendix) to the 2019/2020 Local Board Agreement, noting that in this triennium, a longer-term approach has been taken to progress initiatives that are unable to be funded by local board budgets. The approach used the Annual Budget, 10-year Budget and Local Board Plan processes to progress and advise on a narrower range of local board initiatives in a more comprehensive way.

19. As part of the 10-year Budget 2018-2028, additional funding was provided to progress the priority advocacy initiative of each local board (the one local initiative (OLI)). All OLIs are progressing with funding either allocated or earmarked in the 10-year budget.

Local board input on regional plans

20. Local boards have a statutory responsibility for identifying and communicating the interests and preferences of the people in its local board area in relation to the context of the strategies, policies, plans, and bylaws of Auckland Council. This report provides an opportunity for the local board to provide input on two plans, the Annual Budget 2019/2020 and the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers.

Regional issues in the Annual Budget 2019/2020

21. The annual budget sets out Auckland Council priorities and how it is going to pay for them. The regional consultation on the proposed annual budget focused on two topics:

- changes to rates and fees
  - annual waste management changes
  - food scraps targeted rate
  - Waitākere rural sewerage targeted rate
  - urban boundary rating
  - rating of religious use properties
  - regulatory fees
Puketāpapa Local Board
18 April 2019

22. The consultation on the annual budget also included key priorities for each local board area. Decisions on local board priorities will be made when local board agreements are considered in June 2019.

23. The feedback form contained one question relating to changes to rates and fees. Consultation feedback received from the Puketāpapa Local Board area on key regional issues in the annual budget are summarised in Attachment A, along with an overview of any other areas of feedback on regional proposals with a local impact.

24. Local boards may wish to provide feedback on these regional issues for consideration by the Governing Body.

The proposed amendment to the 10-year Budget 2018-2028 regarding property transfers

25. The regional consultation on the proposed amendment to the 10-year Budget 2018-2028 focused on a proposal to transfer the legal ownership of $790 million of city centre waterfront properties from Panuku to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility.

26. The feedback form contained one question relating to this proposed amendment. Consultation feedback received from the Puketāpapa Local Board area on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers is summarised in Attachment A.

27. Local boards may wish to provide feedback on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers for consideration by the Governing Body.

Ngā whakaaweawe me ngā tirohanga a te rōpū Kaunihera Council group impacts and views

28. The Annual Budget 2019/2020 is an Auckland Council Group document and will include budgets at a consolidated group level. Consultation items and updates to budgets to reflect decisions and new information may include items from across the group.

29. The key impact of the proposed amendment to the 10-year Budget regarding property transfers on the group is the potential impact on Panuku. Panuku staff and board have been engaged in the development of these options. Governing Body will make their decision regarding this on 20 June 2019.

Ngā whakaaweawe ā-rohe me ngā tirohanga a te poari ā-rohe Local impacts and local board views

30. Local board decisions and feedback are being sought in this report. Local boards have a statutory role in providing local board feedback on regional plans.

31. Local boards play an important role in the development of the annual budget. Local board agreements form part of the annual budget. Local board nominees have also attended Finance and Performance Committee workshops on the annual budget, and a special briefing was arranged on the proposed amendment to the 10-year budget regarding property transfers.

Tauākī whakaaweawe Māori Māori impact statement

32. Many local board decisions are of importance to and impact on Māori. Local board agreements and the annual budget are important tools that enable and can demonstrate council’s responsiveness to Māori.
Local board plans, which were developed in 2017 through engagement with the community including Māori, form the basis of local priorities. There is a need to continue to build relationships between local boards and iwi, and where relevant the wider Māori community.

Ongoing conversation will assist local boards and Māori to understand each other’s priorities and issues. This in turn can influence and encourage Māori participation in council’s decision-making processes.

**Ngā ritenga ā-pūtea**

**Financial implications**

35. This report is asking for local board decisions on financial matters in local board agreements that need to then be considered by the Governing Body.

36. Local boards are also providing input into regional plans. There is information in the consultation material for each plan with the financial implications of different options.

**Ngā raru tūpono me ngā whakamaurutanga**

**Risks and mitigations**

37. Local boards need to make recommendations on these local financial matters for the Annual Budget 2019/2020 by 8 May 2019, in order for the Governing Body to be able to make decisions on them when considering the annual budget in May 2019.

**Ngā koringa ā-muri**

**Next steps**

38. Local boards will approve their local board agreements and corresponding work programmes in June.

39. Recommendations and feedback from local boards will be provided to the relevant Governing Body committees for consideration during decision-making, as outlined in the table below:

5. Overview of feedback received on the Annual Budget from Puketāpapa Local Board area

The Annual Budget 2019/2020 sets out our priorities and how we’re going to pay for them. The regional consultation on the proposed Annual Budget focused on changes to rates and fees:

- Changes to rates and fees
  - Annual waste management changes
  - Food scraps targeted rate
  - Waitākere rural sewerage targeted rate
  - Urban boundary rating
  - Religious properties rates
  - Regulatory fees

The submissions received from the Puketāpapa Local Board area on these key issues is summarised below, along with an overview of any other areas of feedback on regional proposals with a local impact.

Changes to rates and fees

Aucklanders were asked about a proposed small number of rating and fee changes.

**Question 1: We are proposing a small number of rating and fee changes for 2019/2020**

These changes include:

- a $20.67 increase to the annual waste management charge to cover increased costs
- extending the food scraps targeted rate to 2000 properties in the North Shore former trial area to whom the service is available
- phasing out the Waitākere rural sewerage service and targeted rate over a two-year period (2019/2020-2020/2021)
- adjusting the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive the same services as their adjacent urban neighbours)
- not charging rates on some parts of the land owned by religious organisations, and
- an increase to some regulatory fees (such as resource consent, building control and mooring fees) to cover increased costs.

**Please tell us what you think about some or all of these changes**

The graphs below give an overview of the responses from the Puketāpapa Local Board area.
Out of the 2,928 responses received on the regional proposals in the Annual Budget 2019/2020, 43 responses were from people living in the Puketāpapa Local Board area. Not all 43 people commented on all the proposed changes to rates and fees.

Feedback shows majority of people in Puketāpapa generally support changes to rates and fees (7 out of 10). However, local people are split in thirds on the issue of a general increase in regulatory fees (3 out of 9 either in support, do not support or partially support).

Changes to rates and fees

- **Annual waste management changes**
  Feedback shows 6 out of 9 local people support the proposal to increase the annual waste management charge by $20.67 to cover the increased costs.

- **Food scraps targeted rate**
  Feedback shows 3 out of 6 local people do not support the proposal to extend food scraps targeted rate to 2000 properties in the North Shore who currently benefit from this service.

- **Waitākere rural sewerage targeted rate**
  Feedback shows 3 local people support the proposal to phase out the Waitākere rural sewerage service and targeted rate over a two-year period (2019/2020-2020/2021).

- **Urban boundary rating**
  Feedback shows 3 local people support the proposal to adjust the urban rating boundary to apply urban rates to 400 properties in recently urbanised areas (that receive same services as their adjacent urban neighbours).

- **Religious properties rates**
  Feedback shows that out of 22 local responses to this issue, 12 support and 6 partially support the proposal to not charge rates on some parts of land owned by religious organisations.

- **Regulatory fees**
  Feedback shows 2 out of 5 local people who responded support, 2 do not support and 1 partially supports an increase in resource consent fees. There were 2 in support and 1 opposed to an increase in building consent fees and 1 person supported the increase in mooring fees.

**Verbatim comments include:**

"I eagerly await the food scrap service to be extended across the region."

"I support the proposal to ‘not charge rates on some parts of the land owned by religious organisations’. Churches play a vital part in the social support of the community, not only for worship, but also as places where people can gather, and be part of a wider social group. Such a group provides social support for many and is invaluable."

"This is largely about keeping charges in line with costs and ensuring those who have the services now (and did not before) are asked to pay for them. That’s part of the growth of the city and its hard to see any argument."

"I support the item about religious organisations, especially where this encourages use by not-for-profit organisations. As a member of one of those, I know that good venues are hard to find on a limited budget, so appreciate and support any help that improves the quality of those facilities."

"Do not raise prices, instead decrease council non value added cost, make council efficient."

"You don’t need to increase regulatory fees, try decreasing the bureaucracy involved - the fees should then plummet."

"Resource consent and building control fees are too high already. More efficient systems needed... Change is required... not just throwing more money at an existing system."

Feedback on the draft Tūpuna Maunga o Tamaki Makaurau Authority – Operational Plan 2019/2020

There was no feedback received from people living in the Puketāpapa Local Board area on the draft Tūpuna Maunga o Tamaki Makaurau Authority – Operational Plan 2019/2020.

Feedback on other regional proposals with a local impact

There were 24 feedback points received from the Puketāpapa Local Board area on other regional proposals.

Eight feedback points related to transport, the majority of which supported improving public transport, cycling and walking networks. Two submitters raised safety concerns on roads and footpaths, one agreed with the pedestrianisation plans for the CBD and one disagreed. Ten feedback points were related to waste, recycling and environmental services.
6. Overview of feedback received on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers from Puketapapa Local Board area

The question and text below is directly from the feedback form. The feedback from the Puketapapa Local Board area is set out under the question.

**Question 1:**
Panuku is Auckland Council's urban development agency and currently owns and manages about $790 million of city centre waterfront properties. We are proposing to transfer the legal ownership of those properties to Auckland Council. Panuku would continue to manage the properties. The resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility. The city centre waterfront properties are strategic assets so we want to know what you think of the proposal.

What is your opinion about this proposal?

The graph below gives an overview of the responses from the Puketapapa Local Board area.

- Out of the 2,450 responses received on the proposed amendment to the 10-year Budget 2018-2028 regarding property transfers, 43 responses were from people living in the Puketapapa Local Board area.
- Feedback shows majority of local people support (70%) the proposal to amend the 10-year Budget.

**Verbatim comments include:**

- "I believe you when you say that the resulting ownership structure would reduce governance duplication, increase consistency with other development areas and maximise future flexibility."
- "Makes sense...less admin overhead."
- "Mainly, it allows separation of the operational and fiscal relationships, and will defuse a lot of the criticism around unelected bodies and transparency. It is also possible to have a conversation about the difference between what the city wants and what it needs, and I think that conversation will be helpful. It allows the need for capital works, and the consequences of not doing them, to be more openly discussed."
- "It makes sound sense and economic sense."
- "Given that Panuku is already owned by AC it would make sense to transfer the legal ownership. Presumably there would be no cost to the city other than small legal fees."

Regional Facilities Auckland

This outlines the key performance of Regional Facilities Auckland for the Quarter ended 31 December 2018.
Regional Facilities Auckland Q2 summary

Highlights & risks for the quarter

Highlights
- **Highlight 1:** Returning New Zealander Gregory Burke has been appointed Director of the Auckland Art Gallery in April. Burke was most recently CEO of the Remai Modern gallery in Saskatoon, Canada.
- **Highlight 2:** Auckland Live venues hosted multiple large-scale events, which included Taste Auckland at Queen’s Wharf for the first time, attracting 15,000 ticketholders, along with Diwali Festival and Farmer’s Santa Parade. Auckland Conventions and Events staged 96 events, including Cuisine Good Food Awards and the New Zealand Television Awards at The Civic.
- **Highlight 3:** Mt Smart Stadium hosted two major events: Taylor Swift’s Bad Reputation tour and the Monster Energy SK Open. Taylor Swift’s concert featured 140ft screens, huge props and a snake gondola, while days later the stadium was transformed with 6000 tonnes of dirt and 10,000 sqm of thick geo-tech cloth into a motocross track.

Risks
- **Risk 1:** The financial operational performance is currently **forecasted** at an unfavourable variance of approximately $1.5m (or 1.5% of total expenditure). Focus remains on securing revenue opportunities and deferral or cutting non-essential variable costs.
- **Risk 2:** Conventions, Stadiums, and Auckland Live revenue remains cyclical and volatile.
- **Risk 3:** Business interruption caused by the capital works at the Aotea Centre and Auckland Zoo may continue to have a more significant negative impact on revenue generation than originally budgeted.
- **Risk 4:** The loss of the VEC as a conventions venue will hamper the ability to grow the conventions market.

Financial commentary

- **Capital delivery:** Two major projects (Aotea Centre and the Zoo’s South East Asia precinct) are progressing well but will have revised cash flow with less spend in the FY19 than budgeted. These are contracted and expected to be completed in the beginning of the 2019/20 financial year.
- **Direct revenue:** Revenue is unfavourable to budget due to two large theatre events have been postponed and three outdoor concerts did not proceed as budgeted. This has also had a consequential flow on effect on other revenue.
- **Direct expenditure:** Overall direct expenditure is $2.5m favourable to budget as costs are actively controlled to offset the unfavourable revenue.

### Strategic focus area – Stadia

#### Key highlights and risks

**Highlights**
- **Highlight 1**: QBE Stadium – capital works on reconfiguration of the main field to accommodate baseball and roof access construction and repair is in procurement planning phase for development to commence later in the financial year.
- **Highlight 2**: Mt Smart Stadium – capital works on the lower west stand seating replacement is on track for completion and the Athletics track refurbishment works have been completed within budget.
- **Highlight 3**: Western Springs gears up for the summer outdoor concerts Fat Freddy’s Drop, Mumford Sons, and Six 60. Major renewals work to continue after these concerts.

**Risks**
- **Risk 1**: Projects underway and current seismic and supporting structure assessments may uncover unidentified issues which may lead to additional costs and time delays.

#### Strategic context

RFA’s Venue Development Strategy (VDS) identifies the issues facing the current major outdoor stadiums in Auckland, and proposes key focus areas over the next 20 years to address these issues. These primarily provides more fit for purpose stadia which are better more financially sustainable, better utilised and provide improved value for money through less duplication.

Strategic focus area – Zoo development

Key highlights and risks

**Highlights**
- **Highlight 1:** Renewal of the Old Elephant House to improve visitor amenities has been completed
- **Highlight 2:** The development of a South East Asian Precinct is underway, and has completed its first year of construction

**Risks**
- **Risk 1:** The extent of the construction work may undermine the visitor experience and perception of value at the zoo whilst the project is underway. This has reduced visitation and associated revenues. A new pricing strategy has been implemented in an effort to increase the level of visitation.

Strategic focus area – Aotea centre development

Key highlights and risks

**Highlights**
- **Highlight 1:** Refurbishment of the interior of the Aotea Centre due for completion in March 2019.
- **Highlight 2:** Refurbishment of the exterior of the Aotea Centre (weather-tightness) has commenced and will continue into the next financial year.
- **Highlight 3:** Development of an Aotea Precinct master plan has commenced.
- **Highlight 4:** Installation of an outdoor screen, the “Digital Stage” on Aotea Square, to provide live and enhanced digital experience visits to the Aotea Arts Precinct.

**Risks**
- **Risk 1:** Changing consenting requirements in relation to “Grenfell” is causing programme delays on the exterior for up to 6 to 9 months. Additional funding will be sought for the additional costs as part of the Annual Plan 2019/20 budget refresh process.
- **Risk 2:** Unfavourable revenue impact from delays to completion.
- **Risk 3:** Potential negative impact on the customer experience caused by on-going construction works.

**Strategic context**

With the refurbishment and further proposed development and expansion of the Aotea Centre, RFA aims to create a vibrant Aotea Arts Quarter. Sustainability and Climate change
- NZ Maritime Museum received a Qualmark Gold Sustainable Tourism Business Award, recognising how the Museum has increased its commitment to delivering a more 100% sustainable experience.
- Auckland Stadiums launched a new sustainability initiative for concerts in October. The reusable Globolet cups help Auckland Stadiums greatly reduce the amount of plastic used at a concert and can be re-used for future events.
- A new sustainability themed family space has been installed at the Maritime Museum to communicate the importance of looking after our oceans and encourage responsible consumption and disposal of waste.
- Auckland Conventions has moved to ensure that all branded collateral is eco-friendly, with re-usable tote bags distributed at tradeshows and client meetings, along with a re-usable branded water bottle.
- In December, NZ Maritime Museum hosted the Northern NZ Seabirds Trust annual conference, Across all Realms: Sea, Land and Air – Our Seabird Toanga. The sold-out two-day event highlighted marine threats to seabirds including bycatch, plastics, climate change and light pollution and exemplified the Maritime Museum as a hub for the maritime community.

Contribution towards Maori outcomes
- As part of a wayfinding improvement review at the new Aotea Centre, bilingual signage for rooms and public places are being developed. These provide a more user-friendly experience for visitors, correlating to their position in the building and also reflecting the unique geographical setting of Tāmaki Makaurau.
- New Zealand Maritime Museum successfully trialed a waka programme for kura kaupapa Māori with a waka from Waiwai. This programme is being developed in collaboration with Te Toki Voyaging Trust, as the kaitiaki of matatua waka.
- The RFA Maori Responsiveness Plan was released in December 2018.
- Bi-cultural signage is being implemented at Auckland Stadium as part of its regular renewals programme.
- Management have meet with Tupuna o Tamaki Makaurau Trust, with whom ownership of the Rarotonga Mt Smart resides to develop and strengthen the formal relationship.

Local board engagement
- In October and November all local boards received the RFA quarterly newsletter, the annual publication ‘Our Year’ as well as both the 2017-18 fourth quarter report and the 2018-19 first quarter report. While a number of local boards regularly include the reports in meeting agendas, it is pleasing that more boards are now doing so. This enables improved engagement between the boards and RFA.
- During the quarter there was a range of meetings with boards regarding various matters. The CEO and Director, Auckland Stadiums, visited Maungakiekie-Tamaki and Manurewa-Otahuhu Local Boards to discuss sporting facilities, including clarification of the roles of RFA and Auckland Council. The Director, Auckland Stadiums, met twice with Upper Harbour Local Board to maintain effective communications regarding QBE Stadium, and also visited Waitakere Local Board regarding Western Springs Stadium. The CEO visited Devonport-Takapuna Local Board, and presented an update to the Local Board Chairs Forum.
- Some board members have requested and received more information about the ways RFA meets community needs, such as subsidised community rates, free activities, and in particular acknowledging the needs of young people.

Financial Commentary

Comment 1: Budget phasing has been evenly phased/allocated 6/12 and does not take into account seasonal fluctuations.

Comment 2: The RFA Internal Budget reflects a $720k favourable to budget variance as the budget has been phased to reflect seasonal event fluctuations.

Comment 3: Fees and user charges are unfavourable to budget due to planned events not occurring. Two large live theatre events have been postponed and two large outdoor concerts budgeted (but not secured) for the second half of the year will not proceed. This has also impact food and beverage sales.

Comment 4: Overall direct expenditure is $2.5m favourable to budget. Reduced costs are in response to the lower revenue.

Comment 5: Employee Benefits contains $4.8m staff costs that are charged against events. These charges are budgeted under Cost of Goods Sold (COGS) within other direct expenses. Actual Staff costs are favourable to budget.

Comment 6: Other direct expenses contains COGS which includes salary charges of $4.8m. The $4.8m recovery should offset against employee benefits – RFA will continue to work with Auckland Council Officers to rectify this reporting issue going forward.

Comment 7: The forecasted operational position for the end of the year shows an unfavourable variance of approximately $1.5m (or 1.5% of total expenditure). Focus remains on securing revenue opportunities and deferral or cutting non-essential variable costs to reduce this variance.

Statement of Proposal

Auckland Council’s New Policy on Dogs and Dog Management Bylaw
February 2019
1 Have your say

Under the Dog Control Act 1996 (the Act), Auckland Council must adopt a policy on dogs. The Act lists several requirements that the council must include in its policy. The Act also enables the council to make a bylaw to implement aspects of the policy.

Auckland Council last adopted its Auckland Policy on Dogs (the Policy) and Dog Management Bylaw (the Bylaw) in 2012. In November 2018, the Regulatory Committee completed its statutory review of the Policy and Bylaw and agreed that they should be amended. This document highlights the proposed changes to the Policy and Bylaw to ensure they meet the future needs of Auckland.

What Auckland Council does

Public places in Auckland are used for a variety of purposes, including exercising dogs. However, not all people enjoy the company of dogs. We make rules and provide services that aim to better manage dogs in Auckland. We do this through promoting responsible dog ownership, classifying dogs as dangerous or menacing, developing access rules, and taking measures to minimise nuisance caused by dogs, as set out in the Policy and Bylaw.

Improving dog access, while minimising the harm caused by dogs

The council recently reviewed how the current approach to dog management is working. The main changes we propose to make are to:

- reorganise the Policy and Bylaw information into user friendly themes
- remove duplication from the Bylaw, which will also simplify future amendments
- reduce confusion about dog access rules and improve voluntary compliance by:
  - presenting the rules in the schedule in a consistent manner
  - applying a consistent definition of time and season
  - applying consistent rules to multiple dog ownership
- address emerging issues around dog management by:
  - including specific reference to the Code of Welfare
  - extending environmental protection to include flora
  - clarifying delegations and processes for additional designated exercise areas
  - clarifying the enforcement requirement to neuter uncontrolled dogs
  - clarifying the council’s jurisdiction on privately owned public spaces
  - promoting responsible dog ownership amongst owners of dogs classified as ‘menacing’ on the basis of their behaviour
  - reviewing access rules in regional parks.

What is not changing

This review of the current Policy and Bylaw is not intended to change local dog access rules (where dogs are allowed under control on leash, off leash or prohibited areas and designated dog exercise areas). Local dog access rules are determined by local boards.
We want to know what you think
Starting on 1 April through to 10 May 2019, we want you to tell us what you think about the proposed changes to the Auckland Council Policy on Dogs 2012 and Dog Management Bylaw 2012. Please visit www.aucklandcouncil.govt.nz/have-your-say to find out more information, give your feedback and find out where you can drop in to a ‘Have Your Say’ event.
What is the Policy?

Kaupapa mo nga Kuri 2012 (The Auckland Council Policy on Dogs 2012) sets out the framework for dog management in Auckland. The Policy aims to keep dogs as a positive part of Aucklanders’ lives. This is achieved by maintaining opportunities for dog owners to take their dogs into public places, while adopting measures to minimise the problems caused by dogs.

In adopting a policy, the council must have regard to:
- minimising danger, distress and nuisance to the community generally
- avoiding the inherent danger in allowing dogs to have uncontrolled access to public places that are frequented by children, whether or not accompanied by adults
- enabling, to the extent practicable, the public (including families) to use streets and public amenities without fear of attack or intimidation by dogs
- the exercise and recreational needs of dogs and their owners.

In addition to the above, every policy adopted:
- must identify any land within the district that is:
  - a controlled dog area or open dog area under section 26Z3 of the Conservation Act 1987
  - a national park constituted under the National Parks Act 1980
  - Te Urewera, as defined in section 7 of the Te Urewera Act 2014.
- may contain other information and advice related to dogs as the territorial authority deems necessary.
3 What is the Bylaw?

Under the Dog Control Act 1996, Auckland Council can make a bylaw for certain aspects of dog management. Ture a Rohe Tiaki a Kuri, (The Dog Management Bylaw 2012) currently:

- regulates public places where a dog may be taken by its owner and the means of control of the dog
- limits the number of dogs that may be kept on any land or premises
- requires the owner of any dog that defecates in any public place or on land or premises other than that occupied by the owner to immediately remove the faeces
- requires any female dog to be confined but adequately exercised while in season
- requires the owner of any dog (being a dog that, on more than one occasion, has not been kept under control) to neuter it.

The Bylaw does not determine the dog access rules on individual parks, beaches and foreshore areas, as these are contained within the schedules of the Policy. Local dog access rules are determined by the local boards.
4 How we implement the Policy and Bylaw

The council uses a ‘graduated response’ when responding to complaints and concerns surrounding dog management (Figure 1). This means that the types of response and response times will vary depending on the level of risk, seriousness of harm, people’s attitude towards compliance, and what is most practical.

Lower risk issues are first addressed with education, advice, and informal warnings. If this doesn’t work, the council may issue formal warnings. For serious or ongoing bylaw breaches, the council may take enforcement measures such as issuing an infringement notice or prosecuting individuals.

What council proposes to change

The council recently reviewed the current Policy framework and identified some improvements that could be made.

The changes that the council is proposing to make to the Auckland Council Policy on Dogs 2012 and Dog Management Bylaw 2012 are summarised below. These are reflected in the attached proposed policy and bylaw.

The purpose of the licence is to ensure the aspects of dog welfare are addressed.</td>

| Requirement to neuter an uncontrolled dog | The proposed bylaw includes an explanatory note to clarify that owners who do not comply the with current requirement to neuter their dog, if it is not under control on more than one occasion over a 12-month period, may be subject to an infringement and would still be required to neuter their dog. |

| Clarifying intent of owners picking up after their dog | Clause 11 of the Bylaw requires owners to immediately pick up after their dog after it defaecates. This section has been reworded to clarify the intent of this clause. |

| Amendments to regional parks | Implement the following: |

- a standard time and season definition of 10.00am to 7.00pm from the Saturday of Labour Weekend to 31 March
- a standard lambing season rule to prohibit dogs from 1 July to 1 December
- amend dog access rules to protect wildlife in the following region parks:
  - Glenfern Sanctuary
  - Mumwai Regional Park
  - Long Bay Regional Park
  - Waitakere Ranges Regional Park – Whatipu |

**What council is proposing for the time and season definition**

The purpose of a time and season rule is to minimise the conflict between dogs, their owners and other users of busy public places. The time and season rules does this by prioritising different users at different times of the day (morning, daytime and evening) during the busy summer period.

**Local boards are responsible for deciding:**

- where a time and season rule applies (location)
- the type of dog access (i.e. prohibited, on-leash, off-leash or designated dog exercise area)
- what the winter time access rule will be.
For example, a local board may decide that a beach is off-leash before 10am, prohibited between 10.00am and 7.00pm and off-leash after 7.00pm.

The previous Policy had the time and season definition of 10.00am to 5.00pm from Saturday of Labour Weekend to 1 March. Local boards have chosen to adopt variations to this definition, which has resulted in thirteen local board variations and only one local board is using the current definition in areas within their local board area.

What we are proposing

The proposed policy is recommending a time and season definition of 10.00am to 7.00pm from Saturday of Labour Weekend to 31 March to be applied to those areas that have been identified by local boards. A standard time and season would make it easier for dog owners to know when and where they can take their dogs and make enforcement easier for Animal Management Officers. Local beaches, parks or foreshores that apply a time and season rule may have their hours of access changed as a result of this review.

Concerns raised

On 14 February 2019, the Regulatory Committee debated concerns around proposed time and season definition and raised the following issues:

- 7.00pm being too late in the evening
- Whether there is a need for a regionally consistent time and season definition
- Local variation allows for the needs of communities to be met.

Alternative option

The alternative option to having a regionally consistent time and season definition would be to have a default definition in the Policy, and enable local boards to introduce variations to this through the local rules in Schedule 2 of the Policy. Auckland council is also seeking feedback on this alternative option.
6 How we got here

Decisions leading to the proposed changes

The Local Government Act 2002, requires council to review its bylaws every five years to determine whether they are effective, efficient and still needed.

The Dog Control Act 1996, states that the bylaw and policy must not inconsistent. Therefore, the review of the Policy must precede the review of the Bylaw.

Auckland Council reviewed dog management in the region. Staff have reported these findings and considered its options at meetings in June and September 2018, these are summarised below:

March 2017
REG/2017/16

June 2018
REG/2018/44
Council considers the findings of the effectiveness of the current Policy and Bylaw

August 2018
Local board resolutions included feedback on issues under review.

8 November 2018
REG/2018/78
REG/2018/79
Council considers key issues and options for the regional review and dog access rules in regional parks. Council agrees to amend the current Policy and Bylaw.

What does Auckland Council expect of dog owners?

1. Register your dog(s)
2. Obtain a licence to keep multiple dogs on a premise
3. Owners of dogs classified as dangerous or menacing must meet the expectations under the Dog Control Act 1996 (section 32 and section 33E)

2. To be responsible for your dog’s behaviour
3. Provide proper care and attention to your dog, including providing sufficient food, water, shelter and adequate exercise

5. Microchip your dog
6. Take all reasonable steps to ensure your dog does not cause a nuisance to any other person. Be particularly vigilant near children and closely supervise interaction
7. Keep your dog under control at all times, this may include putting your dog on a leash, or a shortened leash in areas where your dog is likely to ignore commands (even if it is an off-leash or designated dog exercise area)
8. Respect other people’s personal space. Public places are for everyone’s enjoyment and not everyone is fond of dogs
9. Ensure your dog cannot leave your property by itself
10. Know when your dog must be on a leash, and always carry a leash in public.

 Owners that do not comply with the above are in breach of the Dog Management Bylaw 2019 and may be subject to an infringement.
Dog Access Principles

Provide a balanced use of public places for dogs and their owners, while minimising the harm caused by dogs

What will Auckland Council do?

1. Provide dog access rules that are comprehensive, consistent and easy to understand and comply with the following approaches:
   (a) Recognise dog owners as legitimate users of public places and dog access is essential for dog welfare
   (b) Provide opportunities for dog owners to take their dog to public places that are accessible, desirable, and provide diversity of experience for both the dog and owner
   (c) Consider access on a comprehensive region-wide basis, as well as a place-by-place basis
   (d) Promote safe interaction between dogs and people using public places and private ways to ensure that dogs do not injure, endanger, intimidate or otherwise cause distress to any person, in particular, children and vulnerable adults
   (e) Manage the conflict between dogs and protected wildlife, stock, poultry, domestic animals, property and natural habitat.

2. Maintain rules on dog access in public places and private ways (see Schedule 1 and 2)
   The types of dog access rules are:
   (a) prohibited area – a place where dogs are not permitted to be, and other users have absolute priority
   (b) on-leash area – a place shared with other users, where dogs must be on a leash and under control at all times
   (c) off-leash area – a place shared with other users, where dogs may be off a leash but must still be under control at all times
   (d) designated dog exercise area – a place where dog owners are the priority user. Dog owners may take their dogs off a leash (including Dangerous Dogs) but they must be under control at all times
   (e) time and season areas – a place shared with other users, where the dog access rules will be different depending on the time of day during the summer season. This is to minimise the conflict between dogs and other users of the space during peak hours.

3. Apply default dog access rules to ensure that there is a rule applied to all public places in Auckland
   (a) Dogs must be under control on-leash in council-controlled public places unless otherwise stated in Schedule 1 and 2. This includes:
i. all formed public roads (including any street, highway, access way, service lane, and any footpath, cycle track, bus stop and berm within the boundaries of the road)
ii. private ways
iii. council-controlled car parks
iv. council-controlled boating areas (including any wharf, jetty, boat ramp, boat marshalling area).

(b) Dogs are prohibited from any public place not under the control of council where rules have not been specified by the person in charge.

4. Apply the following time and season definition
   (a) 10.00am to 7.00pm between the Saturday of Labour Weekend and 31 March (summer)

**Explanatory Note:**
The relevant authority (local boards or delegated council committee) will decide:
- where a time and season rule applies (location)
- the type of dog access (i.e. prohibited, on-leash, off-leash or designated dog exercise area)
- what the winter time access rule will be.

For example, a local board may decide that a beach is off-leash before 10am, prohibited between 10.00am and 7.00pm and off-leash after 7.00pm.

5. Consider the following before making any change to a dog access rule on parks and beaches that would provide more dog access:
   (a) Identify and assess current and future uses of the place and whether there may be any potential conflicts to ensure the change would not result in any significant risk\(^2\) to any:
      i. person (in particular children or vulnerable adults)
      ii. protected wildlife vulnerable to dogs (in particular ground nesting birds)
      iii. protected flora vulnerable to dogs (in particular kauri dieback)
      iv. stock, poultry, or domestic animal
      v. property (in particular natural habitat and public amenities).

6. Consider the following before making any change to a dog access rule on parks and beaches that would provide less dog access:
   (a) Consider whether there are practicable alternative solutions to address the conflict between uses of the place\(^3\)
   (b) Ensure, to the extent that is practicable, that displaced dog owners and their dogs have access to other places or that such access is provided as part of the same decision.

\(^2\) Significant risk includes, but is not limited to, injury, danger or distress to people or animals stated, or nuisance to people.
\(^3\) Design and management solutions include fencing, different zones in one place, time-share arrangements, and under control on a leash dog access in relation to considering a change to prohibited dog access.
7. Before making any change or developing a park or beach as a designated dog exercise area, ensure that the –
   (a) matters contained in section 5 above are satisfied
   (b) area is well-located with vehicular and pedestrian access
   (c) area has clearly visible boundaries. This may be achieved through transition zones, vegetation, topography and fencing. Boundary treatment will vary depending on the risks identified
   (d) area is of sufficient size to provide dog owners with adequate space to exercise their dog
   (e) area has sufficient sight lines that enable dog owners to be aware of the presence of other dogs and their owners
   (f) area has adequate signage which clearly specifies the access rule
   (g) provision of dog owner and dog amenities has been considered. Such amenities may include, but are not limited to, seats, bins and bag dispensers for dog faeces, and water stations.

8. Temporary changes to dog access rules
   (a) From time to time, the council may make temporary changes to dog access rules in Schedule 1 and 2 in relation to:
      i. leisure and cultural events (including dog friendly events)
      ii. dog training
      iii. protect wildlife vulnerable to dogs
      iv. protect flora vulnerable to dogs
      v. pest control in any park and/or beach
      vi. other circumstances of a comparative nature.

What does Auckland Council expect of dog owners?

1. The owner of any female dog in season must ensure that dog does not enter or remain in any public place or private way unless:
   (a) that dog is confined in a vehicle or cage for the purposes of transportation;
   (b) the owner of that dog has the permission of the occupier or person controlling the public place and complies with any reasonable conditions imposed

2. Dog owners make reasonable effort to determine and comply with the dog access rule that applies in a park or beach before taking their dog(s) into the area

Additional information:
- Dogs confined in a vehicle or cage are not exempt from prohibited dog access rules. They are exempt from under control on-leash dog access rules.
- Dog access rules in Schedule 1 and 2 do not apply to any working dog (disability assist and police dogs).

What is covered by the Dog Management Bylaw 2019?
- Owners must exercise their dog(s) in locations or ways that are consistent with the dog access rules. This includes ensuring the dog is under control on-leash, off-leash or in a designated dog exercise area as specified.
- Dog owners must ensure that their dog is kept under control in public places or private ways.

Owners that do not comply with the above are in breach of the Dog Management Bylaw 2019 and may be subject to an infringement.
Schedule 1
General dog access rules

Dog access rules below apply and take precedence over a general access rule applied to the wider area (Schedule 2). For example, if a park (that contains a playground) allows dogs to be under control on-leash, dogs are prohibited from the playground.

1. Playgrounds under the control of the council
   Dogs are prohibited on any playground at all times and must be under control on a leash in the vicinity of any playground when in use.

2. Sports surfaces under the control of the council
   Dogs are prohibited on any sports surface at all times and must be kept under control on a leash in the vicinity of any sports surface when in use, unless the area is specified in Schedule 2.

3. Council cemeteries, council camping grounds and council holiday parks
   Dogs are prohibited from all other council-controlled cemeteries unless stated in Schedule 2, unless:
   - permission is obtained from an authorised council officer, or
   - signage indicates dogs are allowed, provided that the person who is accompanying the dog complies with any reasonable conditions imposed by the council in relation to the dog.

Camping grounds and holiday parks under the control of the council
   Dogs are prohibited from all council-controlled camping grounds and holiday parks unless:
   - permission is obtained from an authorised council officer, or
   - signage indicates dogs are allowed, provided that the person who is accompanying the dog complies with any reasonable conditions imposed by the council in relation to the dog.

4. Default dog access rules
   Unless otherwise stated in Schedule 2 the following default rules apply to:
   a. Dogs must be under control on a leash in all council-controlled public places where there are no physical restrictions to access (such as fences or other indoor facilities).
   b. Dogs are prohibited in all council controlled public places with restricted access (such as fenced sports stadiums, libraries) unless:
      i. permission is obtained from an authorised council officer, or
      ii. there is official council signage which indicates dogs are permitted.
   c. Dogs are prohibited from all other public places not under control of council (such as cafes, shopping malls, school grounds, non-council cemeteries and urupā) unless:
      i. permission is obtained from the person in charge of the place, or
      ii. there is signage indicating that dogs are permitted.
(d) Where dog access is permitted under clauses 5(b) or 5(c) dog owners must comply with any reasonable conditions imposed by the council in relation to the dog.

Explanatory Note:
For the avoidance of doubt, areas under co-governance arrangement, such as the Tūpuna Maunga o Tamaki Makaurau Authority are not council-controlled public places. Subject to clause (c) to (d) above unless they are specifically listed in Schedule 2.

I am an individual member of the Auckland branch of the National Council of Women. During the reporting period I did attended the regular branch meeting on 11th March. www.ncwnz.org.nz

I am a trustee, and board secretary, for The Aunties, a charity established to expand and make sustainable work done to meet the needs of families dealing with domestic violence. During the reporting period I did not attend any meetings in this role. www.aunties.co.nz
