Presentation to Rodney Local Board
18 April 2019

Netball Rodney Centennial Park, Wellsford

Purpose of Presentatio

- Update the Rodney Local Board o
Netball participation
- Outline some significant facility
issues facing Netball Rodney
- Seek the Board's support to
address these issues

History: Established in 1964 as Rodney Basketball Association. First played on present courts in 1985. Re surfaced with asphalt twice then in 2017 & 2018 applied with Kiwi Coat.

Where we fit in the Netball in New Zealand:
Netball New Zealand – the National Body
Netball Northern Zone – the Centre’s governing entity
Netball Rodney Centre - 14 Clubs affiliate to the Centre

Governance: Volunteer Committee of 8 and part time employee manage the facility and netball delivery. Responsible for strategy, management and operations.

Lease: Netball Rodney lease land for 6 netball courts. Occupancy Agreement for Meeting Room in the A&P Society Pavilion and ownership of Control Room at rear of A&P pavilion.

Netball Rodney Centre

Participation: Over 900 participants from Wellsford, Warkworth, Tomarata, Tapora and everything in between.
Also taking in Mangahai, Kaiwaka, Maungaturoto and part of Waipu

Netball Rodney Centre

Netball Rodney Participation 2015-2018

Netball Participation

6 Netball Courts – covered with asphalt and Kiwi Coat

Small covered Shelter by single court

Shelter the length of courts – also used for Archery, Country Show & Children’s Fun Day

Use of A&P pavilion – Control Room, Meeting room, Canteen

Toilets – public facilities

Netball Rodney Facility

Drainage issues impacting the netball courts

Surface cracking

Surface undulations

Cracks in underlying

Dis-colouration & mould

Becoming **critical** and will soon impact on **safety**
Beyond the capacity of Netball Rodney to address
Believe issues stem from underlying land drainage issues
Need to consider a long-term and multi-code solution

Facility issues

Issues, drainage & weather impacting the condition of the tennis courts

Trees (self seeded poplar) – falling leaves causing court damage
and blocked drains. Major H&S risk for players
Water unable to drain away undermining the court base

Facility issues

Collaborative approach between land owner, tenants and sport codes to understand issues and work together on solutions.

Master Plan for Centennial Park – Wellsford Districts Sport & Recreation Collective is voice for all users of the Park.

Netball to work with them and council to collate a Plan to address facility issues, develop spaces and places to grow participation and meet community needs

Asset Ownership Options

Consider whether Community Sport have the capacity and capability to manage community assets and look at alternatives

Funding

Determine funding, Council and Community, to implement the master plan and address facility issues
Rodney is not an affluent area to draw funds from and the Centre is unable to continue top up any funding we get to maintain or upgrade .

Way Forward
