Subject: Local Body grant LG1917-111

Dear Erin

Local Body grant LG1917-111

The Upper harbour Local Board allocated a grant to the Rosedale Park Sports Charitable Trust of \$3,470.00 in respect of drainage works at our Clubhouse premises in Jack Hinton Drive, Albany.

When our contractor commenced the work it was discovered that the problem areas were not as large as previously envisaged and the total cost of repairs was only \$917.40 +gst. This left a surplus of funds of \$2,553.

In the meantime we have received a Fire Engineering Report which shows that our Clubhouse has inadequate Fire Escape Routes for use in an emergency situation (please see copy of report attached).

We have been quoted \$5,777.14 for the work involved in bringing our premises up to the standard required (see attached quotes)

We enquire as to whether we could allocate the surplus from our drainage works as noted above towards the cost of these new urgent works and seek your assistance in obtaining the necessary approvals from the Upper Harbour Local Board for this to occur.

I would be happy to answer any queries you may have on 021 874 976

Kind Regards

Trevor Smith
Chairman – Rosedale Park Sports Charitable Trust
