| 1 | 34 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | The priorities proposed would not help the local population |
| 2 | 798 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | Am not aware of proposed priorities for Waiheke |
| 3 | 872 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | I live on Waiheke Island. What do my rates cover? Guaranteed supply of fresh water? No. Efficient waste treatment? No. Adequate public transport? No. Once a week a collection of a red plastic rubbish bag? Yes. Big deal. Stop pushing your city—based cost model onto those that can not access it. It's illegal to contract for something you know you can not provide so why does the council get away with it? |
| 4 | 940 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | The Board is ineffectual and achieves sod all for Waiheke residents. How about Council spending some of the \$ millions they get from ferry levies to improve parking and the wharf areas and foster competition. How come the rest of Auckland gets free park and ride and we get to pay and sail ... and no subsidies on our ticket prices ..where is the local board on these issues ..absent as usual |
| 5 | 946 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | More money for roads and a bicycle network |
| 6 | 1334 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | We need regulated competitive ferry services. Waiheke gets more visitors a year than Israel yet why do we have a monopoly passenger service ? Parking at Matiatia is inadequate. |
| 7 | 1948 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No | They have totally lost site of the residents needs. Like Auckland City they think the Island is a tourist centre only. We desperately need drainage issues sorted on the Island something no one is paying heed to yet go on about clean waterways. |
| 8 | 111 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | Partially | |
| 9 | 726 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | Partially | Too much control from central. Delegate to local board Few footpaths making walking dangerous. Lack of parking Onetangi beach. Discourage traffic via main street Oneroa |
| 10 | 800 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | Partially | The current chairman campaigned vigorously promising to assist commuters. The Board has sat by and watched commuters expenses rise by up to \$1500 per year in some cases. The Board did not support local accommodation providers in their bid to repeal the increase in rates for accommodation providers. There has been little done to improve amenities and roads on the island |
| 11 | 934 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | Partially | The Waiheke local board puts too much priority on tourism and business and not enough on the locals. Older and young people are driven away by rising rates and too high rental costs, while most houses along the beaches stand empty for most of the year. It's outrageous where the Council allows for building new houses, which will then stand empty for most of the year ! All for the rich people who can pay, no consideration for our environment and nature ! |

| 15 | 2336 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | Partially | THERES MORE TO DO BEYOND WEEDS — A WRITERS RESIDENCE(!?) A BUS SERVICE WOULD BE GOOD. |
| 16 | 536 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | Yes | I agree with the Local Board that the island is seriously affected by the huge numbers of visitors who make no contribution and clog up roads and cause deterioration. If the Local Board is given the authority and the money to do the things that islanders want that would be an improvement. |

| 22 | 3056 | Waiheke | 3-Q3 - Local Board Priorities | In your opinion, have we got our priorities right for | No response | <p>Matiatia master plan. This should have been solved twenty years ago so let's do something practical this year instead of the empty promises made by Auckland Council, Auckland Transport, Panuku and ATEED to make Matiatia a practical working transport hub for the Waiheke community, tourists and travelers.</p> <p>Our parks and reserves have been poorly administered by the council for many years and ongoing problems have escalated. If these problems had been sorted in the first place then we would have a swimming pool by now.</p> <p>Tawaipareira needs a large payment for infrastructure failures not skatepark renewals if the whole catchment and its aquifer are not to be permanently compromised.</p> |

| 24 | 536 | Waiheke | 3-Q3 - Local Board Priorities | Any Other Feedback | LB Local governance & support | I agree with the Local Board that the island is seriously affected by the huge numbers of visitors who make no contribution and clog up roads and cause deterioration. If the Local Board is given the authority and the money to do the things that islanders want that would be an improvement. |
| 25 | 726 | Waiheke | 3-Q3 - Local Board Priorities | Any Other Feedback | LB Local governance & support | Rates should not go up. Now on Waiheke you make street parking a charge. Not good on an island. We are not a city Too many over 100000 paid staff. Need to cut back |

| 28 | 3056 | Waiheke | 3-Q3 - Local Board Priorities | Any Other Feedback | LB Local parks, sport & recreation; LB Local | <p>no concern for the state of the Hauraki Gulf as a whole. Major reports are belatedly attracting financial help for a few problems that have compounded over the years with more attention paid to the governance of the gulf rather than solving the problems.</p> <p>Our parks and reserves have been poorly administered by the council for many years and ongoing problems have escalated. If these problems had been sorted in the first place then we would have a swimming pool by now. Tawaipareira needs a large payment for infrastructure failures not skatepark renewals if the whole catchment and its aquifer are not to be permanently compromised.</p> |
| 29 | 934 | Waiheke | 3-Q3 - Local Board Priorities | Any Other Feedback | LB Local planning; LB Local economic deve | The Waiheke local board puts to much priority on tourism and business and not enough on the locals. Older and young people are driven away by rising rates and too high rental costs, while most houses along the beaches stand empty for most of the year. It's outrageous where the Council allows for building new houses, which will then stand empty for most of the year !
