

ATKIN AVENUE STREAM NATURALISATION - BEFORE

ATKIN AVENUE STREAM NATURALISATION

Naturalisation and erosion protection of the stream banks will work towards restoring the mauri of the Whenua Rangatira, in line with the wider objectives of the Ōkahu Catchment Ecological Restoration Plan.

Completion summary.

1. Widen stream banks on the true left.
2. Stabilise naturalised stream banks to reduce risk of erosion and bank failure in the stream.
3. Provide natural habitat to support ecological processes.
4. Reduce risk of erosion to nearby properties on the true right, namely 7C, 7D and 7E Atkin Ave.
5. Reduce the risk to nearby infrastructure, namely culverts 1411827, 1417896, 1417895 passing beneath 7 Atkin Ave.
6. Reduce the risk to public health and safety associated with the stormwater network.
