
Resource Consent Appeals: Status Report 9 May 2018

File No.:

Purpose

1. To provide an update of all current resource consent appeals lodged with the Environment Court.

Executive summary

2. This report provides a summary of current resource consent appeals to which the Auckland Council is a party. It updates our report of 2 April 2019 to the Regulatory Committee.
3. If committee members have detailed questions concerning specific appeals, it would be helpful if they could raise them prior to the meeting with Robert Andrews (phone: 353-9254) or email: robert.andrews@aucklandcouncil.govt.nz) in the first instance.

Recommendation/s

That the Regulatory Committee:

- a) receive the Resource Consents Appeals: Status Report 2 May 2019.

Comments

4. As at 2 May 2019, there are 24 resource consent appeals to which Auckland Council is a party. These are grouped by Local Board Area geographically from north to south as set out in **Attachment A**. Changes since the last report and new appeals received are shown in bold italic text.
5. The principal specialist planners - resource consents, continue to resolve these appeals expeditiously. In the period since preparing the previous status report, there has been one new appeal.
6. The new appeal by Jacks Ridge Limited is against a decision to refuse consent to construct four commercial storage buildings at 76 Kimptons Road, Brookby. The application proceeded without notification, being found that the environmental effects are not more than minor however the application then being refused as contrary to the objectives and policies for the Rural - Mixed Rural Zone. The decision expresses concerns as to the nature, purpose and scale of the non-residential activity and that it is not associated with rural production.

Local board views and implications

7. Not applicable.

Māori impact statement

8. The decision requested of the Regulatory Committee is to receive this progress report rather than to decide each appeal.
9. The Resource Management Act 1991 includes a number of matters under Part 2, which relate to the relationship of Tangata Whenua to the management of air, land and water resources. Maori values associated with the land, air and freshwater bodies of the Auckland Region are based on whakapapa and stem from the long social, economic and cultural associations and experiences with such taonga.

Implementation

10. Environment Court appeal hearings can generate significant costs in terms of commissioning legal counsel and expert witnesses and informal mediation and negotiation processes seek to limit these costs. Although it can have budget implications, it is important that Auckland Council, when necessary, ensure that resource consents maintain appropriate environmental outcomes and remain consistent with the statutory plan policy framework through the appeal process.
