<b>Legal status:</b>	Incorporated Society	<b>Activity focus:</b>	Community
<b>Conflicts of interest:</b>	None identified		

**Project:** 1x Data Projector and 1x Projector Screen

<b>Location:</b>	Citizen Advice Bureau Mt Roskill Branch, 546 Mt Albert Rd, Three Kings		
<b>Summary:</b>	We require a Data Projector and a Projector Screen for our Mt Roskill branch of the Citizens Advice Bureau. The items will support our Volunteer Learning & Development programme and will be used during training sessions and branch meetings. In addition, we plan to hold more community forums in 2019 and 2020 and having our own projector and screen will significantly improve the quality of information we can share at these forums. At these forums we will share how we have been helping the Puketāpapa Community and seek feedback on what we could do better.		
<b>Dates:</b>	02/07/2019 - 08/07/2019	<b>Rain dates:</b>	-
<b>People delivering:</b>	50 people approximately - Manager, staff and volunteers	<b>People attending:</b>	Mt Roskill Branch assists over 12,500 clients per annum

**Community benefits****Identified community outcomes:**

The equipment will improve volunteer training and as a consequence improve the quality of service we provide to our clients. The community forums will improve knowledge and understanding of the CAB service, and also improve community connectedness (between Puketāpapa service providers). The projector and screen will support our Quality Service project which forms part of our 2019/20 Annual Plan. This Quality Service project has many components, including developing new training materials and changing ongoing learning requirements for our volunteers. We will be measuring the outcomes of this project initially through our Peer Review system and later through an external QS review. It is not possible to measure the outcome of the projector and screen in isolation, but this will be a great support for the project in our Mt Roskill branch.

Similarly, these items will significantly improve the Community Forums, but it is not possible to measure their impact.

**Alignment with local board priorities:**

- build strong neighbourhoods where people feel safe and connected at all times

The community will be better informed about the services available at the bureau and it should lead to an uptake in services by the local community. Manager and volunteers will be more prepared and confident to support the clients in need.

## Demographics

**Maori outcomes:**

- Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)

 7% of the clients in Mt Roskill are Maori. We will invite Maori service providers to our Community Forums.

**Target ethnic groups:** Other: All/everyone

**Promoting SmokeFree:** All CAB branches are smoke free

### Project: Epsom-Roskill Plunket Playgroup

<b>Location:</b>	50 Buckley Road, Epsom-Roskill		
<b>Summary:</b>	Supporting families and whānau is one of the most important things Plunket does and our term-time playgroups are an essential part of this. Plunket playgroups are non-profit early childhood centres in local communities which offer a safe, healthy, and friendly environment where children can play, and families can connect with other families and share information. At playgroup children develop important social skills and engage in play which encourages developmental growth preparing them for school. Some groups get together for music or movement and others have a full range of play activities suitable for all age groups up to the age of five. Parents remain at playgroup rather than dropping off their tamariki and are encouraged to get involved in play.

## Community benefits

### Identified community outcomes:

Parents attending playgroups feel connected and less isolated, receiving peer support as well as education and guidance from the group facilitator. They are also introduced to the wider range of Plunket and other community support available to them.

The wider community is also strengthened through these connections made by parents. New parents, particularly new migrants who may have few family contacts and little external support, benefit greatly from these groups, as do whānau who may not be able to afford ECE or kindy for their children.

Parents are also encouraged to volunteer, assisting with all aspects of facilitating the group and this is encouraged by the Playgroup Coordinator, providing the volunteers with a sense of purpose and belonging.

With funding support secured, we expect to see the following outcomes:

1. An increase in participation in the group as the Playgroup Coordinator is free to engage more in promotion in the community.
2. An increase in parents accessing other support, either through Plunket or other community providers.
3. A growing base of volunteers, both casual and specialised, to assist with growing our community networks.

Plunket have recently established two online tools that will allow us to more accurately track both community and volunteer participation, and how many people in the community are engaging with Plunket's Community Services: The Volunteer Information System (VIS); and the Community Groups Register (CGR).

### Alignment with local board priorities:

- build strong neighbourhoods where people feel safe and connected at all times
- promote healthy, safe, sustainable and active lifestyles

One of Plunket's major goals is to facilitate, and support connected communities by providing opportunities at little or no cost to whānau. By providing a safe, welcoming space, we are encouraging this connectedness amongst the community and providing opportunities for parents and care givers to volunteer; much of this is driven by our Community Support staff including Playgroup Coordinators. Parents/care givers attend the groups with their children and are encouraging to actively participate either as a casual volunteer or by helping in a specific way; i.e., managing the social media for the group.

<b>Promoting SmokeFree:</b>	Plunket is committed to promoting smoke-free messages in all of the venues we use for Community groups. We achieve this by making all our own venues smoke-free and promoting the message at venues we hire.

### Financial information

**Amount requested: 970**

**Requesting grant for:** We are seeking funding support to cover costs for new toys and resources for the Epsom-Roskill playgroup. Plunket are focused on supporting sustainability by providing our playgroups with wooden toys which are more durable than plastic. While this is more costly in the short-term the benefits are long-term as the toys will need to be replaced less often. Included are pricings which demonstrate the potential costs for toys and craft supplies (please note that quotes are indicative and that actual purchases may vary depending on each group's needs).

#### If full amount requested is not able to be funded:

Our Playgroups are on-going projects therefore we are continually seeking funding assistance via grants and donations. The groups also fundraise to defer costs. A partial contribution to these costs enables the community to focus on fundraising for activities and enhancing capacity.

### **Project:** Youthline Helpline Volunteer Training and Telecommunications

<b>Location:</b>	13 Maidstone Street, Grey Lynn Auckland 1021 (Youthline House)		
<b>Summary:</b>	We are requesting funding for the recruitment, training, supervision and development of 200 new volunteer Helpline counsellors and for the telecommunication costs of the Helpline. New volunteers undertake a 5 stage comprehensive training programme in their first year that covers personal development, basic youth and community counselling (BYCC) training, a cultural immersion weekend at Te Paea Marae, transition training and ongoing supervision. The telecommunication costs are for the phone and text services to allow young people to connect with us.

## Community benefits

### **Identified community outcomes:**

For many of the vulnerable young people we work with the first contact point with us is through the Helpline and our volunteer counsellors.

For many we are able to assist them with the issues they present at the time. For others we are able to link them with the help they need. We offer support services to encourage, motivate and inspire them to reach their full potential and create a resilient community.

We aim to equip them with skills and insights on how to build self-esteem and improve mental-health, how to actively problem-solve, recover from setbacks and build resilience. We provide them with the strength to make improved life decisions, think about the long term and reduce risk-taking behaviour.

Evaluation of our work is important to us, so we can continue to provide up to date, effective and relevant services to youth. Youthline will show we have achieved our aim to positively impact local young people and to help them towards achieving their potential through both quantitative and evaluative methods.

Youthline has developed a comprehensive qualitative and quantitative process to evaluate the effectiveness of our services.

Three changes we expect to see if the expected outcomes occur:

1. Young people will have received the individual support they require
2. Young people will have improved self-esteem, confidence and resilience
3. Young people will have a personal plan and goals going forward.

### **Alignment with local board priorities:**

- promote healthy, safe, sustainable and active lifestyles
- build strong neighbourhoods where people feel safe and connected at all times

Young people in need who contact Youthline through our Helpline often feel lonely, alone, disengaged and desperate. They often have no sense of belonging to family, school or community.

Youthline supports these young people, acknowledges their issues and is inclusive with a strengths-based, person-centred approach.

In supporting these young people Youthline is very much committed to “promoting healthy, safe, sustainable and active lifestyles. Our services equip youth with skills and insights on how to build self-esteem and improve mental-health, how to actively problem-solve, recover from setbacks and build resilience. We very much focus on their wellness and wellbeing.

## Demographics

### Maori outcomes:

- Māori participation - Māori priority group, target group, high representation or Māori staff delivering

Youthline provides support services to young people in need across the ethnic spectrum. In our last reporting period 16% of calls and texts to our Helpline presented as Maori which is slightly ahead of the 14% of young people aged 15-24 residing in the Auckland area who identify as Maori. For counselling, 10% of young people presenting are Maori which is proportionally low.

All of our staff and volunteers are trained on the Treaty of Waitangi. Maori models of health such as Te Whare Tapa Wha inform our work with target groups of rangatahi Maori. Youthline has a Maori working group (Nga Whetu Poutama) to guide Youthline to increase the organisation’s cultural capacity and inform the work that we do.

### Target ethnic groups:

New Zealand European, Other European, Māori, Pacific Peoples, Chinese, Korean, Indian, Other Asian, Middle Eastern, Latin American, African

### Promoting SmokeFree:

Youthline Auckland supports the Auckland Council’s Smokefree Policy and its commitment to working proactively with others towards making Auckland smokefree by 2025. We have a smoke free policy in place and can offer support, advice and referrals to young people who wish to give up smoking. We ensure that the young people we work with are aware of our support for making Auckland smokefree and how we can help them if necessary.

## Financial information

**Amount requested: 1,000**

**Requesting grant for:** Youthline requests funding of \$1,000 as a contribution to the annual budgeted cost of \$107,637 of training our volunteers and the telecommunications costs for the Auckland area.

Our free 24/7 Helpline is staffed by over 200 volunteer counsellors. We supported an estimated 2,103 young people in need from the Puketapapa area last year.

**If full amount requested is not able to be funded:**

It would be allocated against the volunteer training costs and the telecommunications costs on a pro-rata basis.

**Cost of participation:** There is no cost of participation

**Project:** Giving a voice to a kid with Down syndrome in Puketāpapa

<b>Location:</b>	Hillsborough		
<b>Summary:</b>	We are looking to fund a year's worth of speech therapy for Erika, a 4-year-old with Down syndrome living in Hillsborough. Erika is at the point of transition into primary school - a time at which speech language therapy is absolutely crucial for a child with Down syndrome in order to develop their social, intellectual, and developmental wellbeing. Unfortunately, Erika's family cannot afford the high cost of this therapy without support, and this critical intervention therapy is not available through the Ministries of Education or Health.

**Community benefits****Identified community outcomes:**

The purpose of our organisation and this project is to enable children with Down's syndrome access to specialised speech language therapy programmes designed for them with strong emphasis on school readiness and transition, the end result being communicative, confident and independent members of society. Research states that since speech and language therapy skills are central to the development of mental abilities such as thinking, reasoning and remembering as well as social inclusion, it is essential that speech and language therapy is a focus for parents, teachers and therapists from infancy to adult life. For each child supported by UpsideDowns, the child's whanau, school community, and wider community who are affected by that child's success all benefit.

We expect Erika to continue the successful pathways she has begun with her therapist. We will receive updates from both parents and therapist on her progress and see a significant improvement in their ability to communicate with whanau and peers, and to integrate into mainstream school in February 2020 following her 5th birthday. This will greatly improve her chances for independence and employment after school. If this project is successful, then we will be able to report that Erika has received regular (ideally fortnightly) individualised speech and language therapy sessions at a crucial stage in her development and integrated successfully into primary school following consultation between parents, therapist, teachers, and teacher aide.

**Alignment with local board priorities:**

- foster a more equitable Puketāpapa including through building social enterprises and other local economic development opportunities
- build strong neighbourhoods where people feel safe and connected at all times

Speech is essential for social life, employment, community involvement, and independence. By nurturing Erika's potential, we can ensure that not only Erika and her whanau, but the wider Puketapapa community is rendered more inclusive, diverse, and equitable by including people with

special needs such as Erika. Without this intervention, Erika faces significant social isolation and disconnection, as do her whanau.

## Financial information

**Amount requested: 1,000**

**Requesting grant for:** We are requesting funding for approximately half the cost of regular speech language therapy for one child over the next year of her life, which is perhaps the most crucial in her development as it will include her transition into primary school.

**If full amount requested is not able to be funded:**

If only part of this project can be funded, then providing therapy on a monthly basis (i.e. half as frequently) would still have an impact on Erika.

**Cost of participation:** \$15 annual fee

## Community benefits

### **Identified community outcomes:**

The school community will have access to the fruit, vegetables and herbs we will grow. Children will eat more vegetables and fruit - make healthier food choices. Our students live in the community, so they will take these values home, so the family will eat more vegetables and fruit. This will help the low-income families to provide healthy food to their family.

Invite the families to see the progress we make within the glasshouse - the growing of the fruit and vegetables. We will get the classes to produce food items for their parents to try, e.g. make a soup and invite parents to come to school to try it. We will offer families to take produce home when we have a good supply so what is produced will always go back into the community.

### **Alignment with local board priorities:**

- promote healthy, safe, sustainable and active lifestyles
- support a greener and healthier Puketapapa through sustainability programmes in areas as waste minimisation, ecological protection and restoration

Our greenhouse promotes a healthy lifestyle as community members will be able to access fresh healthy vegetables, fruit and herbs to eat. If our families do this, they will be teaching their children to make healthier food choices.

## Community benefits

### **Identified community outcomes:**

The Fickling Centre has a large hall for exhibitors and three seminar rooms, each capable of seating up to 80 people. It is a central location, on transport routes, with plenty of car parking. It is close to cafes, and within the Three Kings Mall complex.

Mt Roskill Library is in the same building, and we will hold computer workshops with the library computers.

We are marketing this beyond the genealogy community to the wider public, who will have varied understanding of research methods and sources available - from basic to experienced - and we aim for a broad programme that will interest those with a passion for history. We aim for a broad spectrum of topics to fit within Auckland's demographics.

Post Expo survey of exhibitors as to attendee interest of their exhibits.

Survey Help Desk volunteers as to numbers helped and type of help given.

Count of attendees to each seminar, to help determine suitability of topics for future Expo

Count of attendees to Expo from door counter and name labels

### **Alignment with local board priorities:**

- support and enable a diverse range of local community groups to initiate and implement projects and activities

### Identified community outcomes:

A safe place for families to come together on Halloween night.

Family friendly event for families to gather with other families in their neighbourhood. Children will dress up and get treats and not go door to door trick or treating on Halloween night.

An opportunity for our church community, young and old, to volunteer their time to provide a fun time for our neighbours.

Feedback from families on the night and during the following weeks re how this event helped their family.

Feedback from local schools from what the children are saying about the event.

By determining how many families attended on the night, and from talking to them as to how many first timers, how many returning to event after attending previous years.

Volunteer participation on the night.

### Alignment with local board priorities:

- build strong neighbourhoods where people feel safe and connected at all times
- promote healthy, safe, sustainable and active lifestyles

Providing an alternative safe activity on Halloween night so that children don't go round the streets trick or treating.

Encouraging families to celebrate together in an informal gathering.

### **Project:** Workbooks to deliver Life Education programme to Puketapapa LB children

<b>Location:</b>	in the grounds of Mt Roskill Intermediate		
<b>Summary:</b>	<p>-Life Education teaches 85% of primary and intermediate schools/250,000 children nationally annually.</p> <p>-We capture children's imaginations using technology that shows them the magnificence of the human body, how their brain it functions, and what its needs are.</p> <p>-We understand that mental health is critical for children growing up and work to help them feel comfortable with their identity, where they fit in, and where they belong. In this area we cover identity self-worth, resilience, peer pressure, the effects of bullying, and being aware of others.</p> <p>-Your support of the work we do will mean, in time, generations of healthy, young New Zealanders will be able to be the best people they can possibly be.</p>

## Community benefits

### **Identified community outcomes:**

The outcomes for our Puketapapa LB community is that they will be more involved & connected by:

- 1) participating in follow-up activities provided by the workbooks that help cement positive changes
  - 2) parents/whanau sharing skills, info & support at the parent sessions eg meal plans, seasonal/cheaper eating, how to recycle more in the home, cyber-safety
  - 3) being pro-active & increasing participation in sport, leisure & recreation activities = less time sitting down on technology & increased family time
  - 4) all our different cultures being promoted & celebrated in the classroom which spreads to the wider community to know & believe that their skills & knowledge will create a brighter & inclusive community. These are also highlighted through our participation in local events.
- 1) The classroom teacher of every student we teach are invited to evaluate the lesson they have just observed across a range of subjects from the engagement of our educator with the students, our educational resources, content of the lesson, age-appropriateness of lesson etc. All results are gathered & assessed by Research NZ.
  - 2) Being invited back to teach at the school on a regular basis

3) Feedback, retention & building of knowledge from seeing the same students as they move through the school

**Alignment with local board priorities:**

- promote healthy, safe, sustainable and active lifestyles
- build strong neighbourhoods where people feel safe and connected at all times

Students are taught how to increase & maintain their confidence through making positive mind & body health choices, giving them the right skill-sets to enable them to have the highest self-esteem/self-worth & values to enable them to achieve personal, career & community aspirations.

Through research, speaking with many facilitators in our community & teachers from local schools, we know there are high levels of child obesity in our area combined with low socio-economic areas.

We want to continually empower them at every age & stage we visit their schools on an annual basis to make positive health & life choices & live life to the fullest.

Collaborating organisation/individual	Role
Garden To Table 'Empower'	a joint venture between Life Education & GTT. A comprehensive & sustainable programme to help tackle child obesity through: teaching about balanced diets, meal planning & understanding their body's nutrient needs - GTT turns it into action by growing, harvesting & cooking fresh fruit & vegetables in the school's grounds.
Dove Self-Esteem Project	where our educators provide training to school teachers in our area re their student's healthy development & to avoid valuing themselves & others on the basis of appearance

**Demographics**

**Maori outcomes:**

- Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)

To support our Maori students & ensure their language & culture is shared, celebrated & learnt by all, we want to continue & expand our resources that are created in Te Reo & pro-actively use them on a daily basis, especially to name feelings, key phrases to

help communicate how you feel, food & nutrition, the body's systems & community/the environment. This is to create a strong & connected community in our classrooms that feeds to our wider community/the student's whanau.

Our workbooks are available in Te Reo to ensure the positive information can be shared with our student's whanau.

**Target ethnic groups:**

New Zealand European, Other European, Māori, Pacific Peoples, Chinese, Korean, Indian, Other Asian, Middle Eastern, Latin American, African, Other: All

**Promoting SmokeFree:**

'Substances' is one of the five core subjects we teach to intermediate students. We discuss & roleplay the decision-making processes they may come across & go through when seeing their friends & peers smoke or they are offered a variety of substances to smoke. We talk about the effects smoking has on your brain, body, finances & making decisions. A Pull Apart Torso - full medical school

teaching standards (with 28 parts) is used to illustrate points. Latest research is used from all health sectors in our lessons.

We are the largest external programme provider working in schools and are proud of the positive trend in the reduced rate of binge drinking, smoking, bullying and marijuana use amongst NZ youth.

## Financial information

**Amount requested: 2,000**

**Requesting grant for:** The workbooks are an essential part of our programme in allowing our students to share the information learnt with their parents and caregivers at home. The school's teachers also use them to reiterate information topics covered thus enable it to be remembered and used throughout the year.

THE COST OF THE WORKBOOKS IS NOT INCLUDED IN OUR PROGRAMME DELIVERY COSTS

**If full amount requested is not able to be funded:**

We are committed to teaching in the Puketapapa Local Board schools within this funding period thus all our fundraising efforts will go towards ensuring we uphold our promise to deliver.

We have only put in \$0 contribution because we do not know yet how much we need to raise.

Income from invoicing schools for programme delivery does not cover our workbook budget

**Cost of participation:** Our cost is \$17.92 per student. We charge schools a fee of \$5 for primary school students age 5 - 11 (receive two lessons)/ \$5 for intermediate students age 11-13 (receive three lessons)
